[Life and Food in the Basque Country, Maria Jose Sevilla](#) , 1998, 1461733138, 9781461733133. Ask any Spaniard where you will find the best food in the country and the answer is invariably the Basque provinces. In this beautifully written book, Mara Jos Sevilla describes the region through the eyes of men and women whose lives embrace every aspect of its cooking and culinary traditions, and records the recipes she has learned from them. The author takes us from market to casero, or farmstead, and shows how the strength of Basque cuisine comes from the quality and range of local produce: superb fish from the Cantabrian coast, cheeses and wild mushrooms from the mountains, and vegetables and fruit including apples for cider-making from the caseros of the valleys. Through her portraits of a fisherman, a craftsman of wooden cheese-making utensils, a wine producer, and a young city housewife, the author shows the historical influences and fierce regional pride behind this distinctive culinary repertoire. Finally, three professional chefs take us into their kitchens, and show us how their superb cooking is based on rich popular traditions. More than eighty authentic recipes punctuate evocative descriptions of cultural and culinary traditions, making this an ideal book for the inquisitive traveler who enjoys good food.

[Mechanical Witness : A History of Motion Picture Evidence in U.S. Courts: A History of Motion Picture Evidence in U.S. Courts](#), Louis-Georges Schwartz Assistant Professor of Cinema Studies and Comparative Literature University of Iowa ,

2009, 0199718032, 9780199718030. Mechanical Witness is the first cultural and legal history charting the changing role and theoretical implications of film and video use as courtroom evidence. Schwartz moves from the earliest employment of film in the courts of the 1920s to the notorious 1991 Rodney King video, revealing how the courts have developed a reliance on film and video technologies and contributed to the growing influence of visual media as a dominant mode of knowledge formation. At the same time, film and video in juridical contexts has developed a distinct theoretical legacy. The particular qualities of film as evidence both resonate with and contradict existing scholarship-focusing on economic, social, or aesthetic factors-which hitherto has defined film's status and cultural contribution. In the context of a trial, the possible meanings of a film change from its meanings when shown in a movie theater or broadcast on television, yet the public (and cinema scholars) tend to assume that the two are the same. Mechanical Witness demonstrates that we must understand evidentiary film and video's institutional specificity if we are to understand the full effects of motion picture technologies on our culture. This study sets the terms for a long overdue assessment of how the entertainment industry has shaped our film viewing practices, the place of moving picture evidence in the courtroom, and the social and cultural consequences of these intertwined histories.

immediacy and perceived truth of the visual image, as well as film and television's ability to propel viewers back into the past, place the genre of the historical film in a special category. War films--including antiwar films--have established the prevailing public image of war in the twentieth century. For American audiences, the dominant image of trench warfare in World War I has been provided by feature films such as *All Quiet on the Western Front* and *Paths of Glory*. The image of combat in the Second World War has been shaped by films like *Sands of Iwo Jima* and *The Longest Day*. And despite claims for the alleged impact of widespread television coverage of the Vietnam War, it is actually films such as *Apocalypse Now* and *Platoon* which have provided the most powerful images of what is seen as the "reality" of that much disputed conflict. But to what degree does history written "with lightning," as Woodrow Wilson allegedly said, represent the reality of the past? To what extent is visual history an oversimplification, or even a distortion of the past? Exploring the relationship between moving images and the society and culture in which they were produced and received, *World War II, Film, and History* addresses the power these images have had in determining our perception and memories of war. Examining how the public memory of war in the twentieth century has often been created more by a manufactured past than a remembered one, a leading group of historians discusses films dating from the early 1930s through the early 1990s, created by filmmakers the world over, from the United States and Germany to Japan and the former Soviet Union. For example, Freda Freiberg explains how the inter-racial melodramatic Japanese feature film *China Nights*, in which a manly and protective Japanese naval officer falls in love with a beautiful young Chinese street waif and molds her into a cultured, submissive wife, proved enormously popular with wartime Japanese and helped justify the invasion of China in the minds of many Japanese viewers. Peter Paret assesses the historical accuracy of *Kolberg* as a depiction of an unsuccessful siege of that German city by a French Army in 1807, and explores how the film, released by Hitler's regime in January 1945, explicitly called for civilian sacrifice and last-ditch resistance. Stephen Ambrose contrasts what we know about the historical reality of the Allied D-Day landings in Normandy on June 6, 1944, with the 1962 release of *The Longest Day*, in which the major climactic moment in the film never happened at Normandy. Alice Kessler-Harris examines *The Life and Times of Rosie the Riveter*, a 1982 film documentary about women defense workers on the American home front in World War II, emphasizing the degree to which the documentary's engaging main characters and its message of the need for fair and equal treatment for women resonates with many contemporary viewers. And Clement Alexander Price contrasts *Men of Bronze*, William Miles's fine documentary about black American soldiers who fought in France in World War I, with *Liberators*, the controversial documentary by Miles and Nina Rosenblum which incorrectly claimed that African-American troops liberated Holocaust survivors at Dachau in World War II. In today's visually-oriented world, powerful images, even images of images, are circulated in an eternal cycle, gaining increased acceptance through repetition. History becomes an endless loop, in which repeated images validate and reconfirm each other. Based on archival materials, many of which have become only recently available, *World War II, Film, and History*

offers an informative and a disturbing look at the complex relationship between national myths and filmic memory, as well as the dangers of visual images being transformed into "reality."

[Normalizing the Balkans: Geopolitics of Psychoanalysis and Psychiatry, Duan I. Bjeli](#) , 2011, 1409433153, 9781409433156. Normalizing the Balkans argues that, following the historical patterns of colonial psychoanalysis and psychiatry in British India and French Africa as well as Nazi psychoanalysis and psychiatry, the psychoanalysis and psychiatry of the Balkans during the 1990s deployed the language of psychic normality to represent the space of the Other as insane geography and to justify its military, or its symbolic, takeover. Following Gramsci's and Said's "discourse-geography" Bjelic transmutes the psychoanalytic topos of the "imaginary geography" of the Balkans into the geopolitics inherent in psychoanalytic language itself, and takes to task the practices of normalization that underpin the Balkans' politics of madness.

It was in the pulp detective magazines of the 1930s that Raymond Chandler's definitive take on the hard-boiled detective story first appeared. Here then, from the well-thumbed pages of 'Black Mask' and 'Dime Detective Magazine', are eight of his finest stories including 'The Man Who Liked Dogs', 'The Lady in the Lake' and 'Bay City Blues'. Sharper than a hoodlum's switchblade, more exciting than an unexpected red-head and stronger than a double shot of whisky, they are packed full of the punchy poetry and laconic wit that makes Chandler the undisputed master of his genre. 'Anything Chandler writes about grips the mind from the first sentence' Daily Telegraph 'One of the greatest crime writers, who set standards others still try to attain' Sunday Times 'Chandler is an original stylist, creator of a character as immortal as Sherlock Holmes' Anthony Burgess Best-known as the creator of the original private eye, Philip Marlowe, Raymond Chandler was born in Chicago in 1888 and died in 1959. Many of his books have been adapted for the screen, and he is widely regarded as one of the very greatest writers of detective fiction. [Experience and Social Policy in the European Union, Duncan Gallie](#) , 2004, 0191533955, 9780191533952. This book breaks new ground by bringing together recent research into the determinants of marginalization risks for the unemployed and research into new social policies for combating marginalization. It examines the major controversies about how far entrapment in unemployment is due to resource constraints, motivational problems, or skill deficiency. It examines the forms that new policies have taken, the way they vary between EU countries, and the effects they have had on the life experiences of the unemployed. Its central concern is how far the new policies developed in the 1990s, in particular the spread of activation and welfare-to-work policies, address the major sources of vulnerability of the unemployed. The chapters draw on the results of a number of major comparative research programmes funded by the European Commission. These provide for the first time rigorous comparative data across a range of different countries. They bring together the insights of researchers from different disciplines: economists, jurists, social-psychologists, and social policy analysts. The book shows that while the new policy initiatives helped to mitigate the severity of the experience of unemployment, they were far from providing an adequate response to the underlying factors that put people at risk of marginalization. These were primarily due to skill deficiencies that were rooted in disadvantages that people experienced when they were young and in the persisting inequalities in training opportunities during people's work careers. The case is made for a major new policy initiative to improve the quality of working life of the low-skilled and their opportunities for skill development.

[Just Business: Arguments in Business Ethics, Martin Sandbu](#) , 2011, 0205885381, 9780205885381. This new first edition introduces business students, scholars, and practitioners to moral reasoning as it naturally arises in business decisions. It works through theories of moral philosophy as active analyses of practical problems rather than finished products, thus seeing moral reasoning as something the readers must engage in as opposed to just learn about. Through examples and questions that show how one cannot make informed business decisions if one cannot think philosophically, the author identifies, develops, and critically appraises the main approaches in moral philosophy as natural intellectual responses to challenges that business people confront. Process Systems Analysis and Control, third edition retains the clarity of presentation for which this book is well known. It is an ideal teaching and learning tool for a semester-long undergraduate chemical engineering course in process dynamics and control. It avoids the encyclopedic approach of many other texts on this topic. Computer examples using MATLAB and Simulink have been introduced throughout the book to supplement and enhance standard hand-solved examples. These packages allow the easy construction of block diagrams and quick analysis of control concepts to enable the student to explore "what-if" type problems that would be much more difficult and time consuming by hand.

[Criminal Law, Nicola Padfield](#) , 2008, 0199533032, 9780199533039. The Core Text Series provides students with reliable, concise, value-for-money coverage of key legal disciplines. Written by leading academic authors, titles in the series are invaluable guides for students of law at all levels. Now in its sixth edition, the popular text Criminal Law offers a stimulating account of the key topics in criminal law illustrated through numerous case summaries. It also includes an exposition of recent academic commentary and Governmental Reforms including, homicide, murder and aiding and abetting. Online Resource Centre: Students are able to consolidate their own learning through the chapter summaries, further reading and self-test question sections of the book, which are now supplemented with an accompanying Online Resource Centre which provides hints on how to answer the questions posed in the textbook.

[The Early Papacy: To the Synod of Chalcedon in 451, Adrian Fortescue](#) , 2008, 1586171763, 9781586171766. Adrian Fortescue, a British apologist for the Catholic faith in the early part of the 20th century, wrote this classic of clear exposition on the faith of the early Church in the papacy based upon the writings of the Church fathers until 451. No ultramontanist, Fortescue can be a keen critic of personal failings of various Popes, but he shows through his brilliant assessment of the writings of the Church fathers that the early Church had a clear understanding of the primacy of Peter and a belief in the divinely given authority of the Pope in matters of faith and morals. Referring to the famous passage in Matthew 16: 18 where Jesus confers his authority upon Peter as the head of the Apostles, and the first Pope, Fortescue says that, while Christians can continue to argue about the exact meaning of that passage from Scripture, and the various standards that are used for judgments about correct Christian teaching and belief, the only possible real standard is a living authority, an authority alive in the world at this moment, that can answer your difficulties, reject a false theory as it arises and say who is right in disputed interpretations of ancient documents. Fortescue shows that the papacy actually seems to be one of the clearest and easiest dogmas to prove from the early Church. And it is his hope through this work that it will contribute to a renaissance with regard to the office of the papacy among those in communion with the Bishop of Rome, and that it will assist those outside this communion to seek it out, confident that it is willed by Christ for all who would be joined to him in this life and in the next.

She begins with an explanation of the complex nature of teens. "Teenagers are part child, part adult, and part alien," she says. They need a firm guiding hand, but this must be coupled with trust and appreciation. "Everyone wants to feel special, especially teenagers," she counsels. Corrie Lynne Player emphasizes the importance of teens having chores to do and being accountable to simple, consistent rules. She stresses teaching a strong work ethic, and is very firm about the need to teach religion and values to teens. She also delves into health issues including eating habits and healthy sleep habits. She teaches parents how to deal with eating disorders, brushes with the law, and other problem behaviors.

[Risotto With Nettles: A Memoir with Food, Anna Del Conte](#) , 2011, 1448114675, 9781448114672. Born in Milan, Anna del Conte grew up in Italy in a gentler time. When war came to Italy everything changed: her family had to abandon their apartment and the city for the countryside, where the peasants still ate well, but life was dangerous... As a teenager, Anna became used to throwing herself into a ditch as the strafing planes flew over, and was imprisoned, twice. Her story is informed and enlivened by the food and memories of her native land - from lemon granita to wartime risotto with nettles, from vitello tonnato to horsemeat roll, from pastas to porcini. Anna arrived in England in 1949 to a culinary wasteland. She married an Englishman and stayed on, and while bringing up her children, she wrote books which inspired a new generation of cooks. This is a memoir of a life seen through food - each chapter rounded off with mouthwatering recipes.

[The Unruly Life of Woody Allen, Marion Meade](#) , 2010, 1617560715, 9781617560712. Writer, director, actor, humorist. Woody Allen stands as one of our eras most celebrated artists. Starting in the 1950s, Allen began crafting a larger-than-life neurotic persona that has since entertained and enlightened millions. In his films, widely thought to be autobiographical explorations of his own comic fears and fixations, Allen carefully controlled the publics view of him as a loveable scamp. But, that all came crashing down the day Mia Farrow found a Polaroid on her mantle. What followed was a flurry of sensational headlines and legal battles. His relationship with Soon-Yi Previn, 34 years his junior and the step-

daughter of his longtime girlfriend, caused shockwaves in the public's perception of the director. Yet, few biographers and journalists have explored what happened and why. In this, the first deep investigation of Allen's life and the events surrounding his split with Farrow, biographer Marion Meade tracks down dozens of friends, actors, neighbors, and film historians. They open up with insights and details rare in the world of wealth and celebrity. What results is a fascinating portrait of a flawed genius, as adept at constructing his own image as he is at crafting films. Re-released and updated, this is an unauthorized biography that neither Woody Allen's fans nor his detractors will be able to put down.

"Now when every maid's turn was come to go in to king Ahasuerus, after that she had been twelve months, according to the manner of the women, (for so were the days of their purifications accomplished, to wit, six months with oil of myrrh, and six months with sweet odors, and with other things for the purifying of the women;) Esther 2:12 KJV As you can see, Scripture gives us very little information about the spices and oils used to transform Esther from an orphan girl to a bride fit for a king. To find out more, apothecary, Cynthia Hillson, did much research into Biblical botanicals which led her to a historical study of the ancient spices transported and sold by caravan on the Incense Trail and the Spice Route of Queen Esther's day--a time when these beauty treatments were considered more precious than gold. In this book, Cynthia unveils the ancient secrets of Esther's twelve months of purification. She reveals the physical and emotional healing benefits and the timeless beauty secrets of each of the oils and botanicals that would have been used. She also explains the deep, spiritual meaning and symbolism of the whole process so we can apply it to our own lives. In addition, Cynthia makes most of these oils, resins, and perfumes available for us to purchase

so we can be both physically and spiritually blessed in our own preparation to be Queen to the King of Kings.

[Classical Mythology, Mark P. O. Morford, Robert J. Lenardon, Euripides](#) , 2002, . Morford and Lenardon's best-selling introduction to classical mythology is a comprehensive survey focusing on the literary tradition of Greek and Roman mythology. It offers extensive translations of original mythological sources as well as comparative and interpretive approaches to the myths. In this package, Classical Mythology, 6/e is bundled with the Oxford World's Classic Medea and Other Plays . Euripides was one of the most popular and controversial of all Greek tragedians, and his plays are marked by an independence of thought, ingenious dramatic devices, and a subtle variety of register and mood. He is also remarkable for the prominence he gave to female characters, whether heroines of virtue or vice. This new translation does full justice to Euripides's range of tone and gift of narrative. A lucid introduction provides substantial analysis of each play, complete with vital explanations of the traditions and background to Euripides's world. Contains: Medea ; Hippolytus ; Electra ; Helen

[The Parameters of Slavic Morphosyntax, Steven Franks](#) , 1995, 0195089715, 9780195089714. Focusing on issues of case theory and comparative grammar, this study treats selected problems in the syntax of the Slavic languages from the perspective of Government-Binding theory. Steven Franks seeks to develop parametric solutions to related constructions among the various Slavic languages. A model of case based loosely on Jakobson's feature system is adapted to a variety of comparative problems in Slavic, including across-the-board constructions, quantification, secondary predication, null subject phenomena, and voice. Solutions considered make use of recent approaches to phrase structure, including the VP-internal subject hypothesis and the DP hypothesis. The book will serve admirably as an introduction to GB theory for Slavic linguists as well as to the range of problems posed by Slavic for general syntacticians.

[Between State and Synagogue: The Secularization of Contemporary Israel, ISSN 1365-5698, Guy Ben-Porat](#) , 2013, 110700344X, 9781107003446. A thriving, yet small, liberal component in Israeli society has frequently taken issue with the constraints imposed by religious orthodoxy, largely with limited success. However, Guy Ben-Porat suggests, in recent years, in part because of demographic changes and in part because of the influence of an increasingly consumer-oriented society, dramatic changes have occurred in secularization of significant parts of public and private lives. Even though these fissures often have more to do with lifestyle choices and economics than with political or religious ideology, the demands and choices of a secular public and a burgeoning religious presence in the government are becoming ever more

difficult to reconcile. The evidence, which the author has accrued from numerous interviews and a detailed survey, is nowhere more telling than in areas that demand religious sanction such as marriage, burial, the sale of pork, and the operation of businesses on the Sabbath.

[Multiscale Methods: Bridging the Scales in Science and Engineering](#), Jacob Fish , 2010, 0199233853, 9780199233854.

Small scale features and processes occurring at nanometer and femtosecond scales have a profound impact on what happens at a larger scale and over an extensive period of time. The primary objective of this volume is to reflect the state-of-the-art in multiscale mathematics, modeling, and simulations and to address the following barriers: What is the information that needs to be transferred from one model or scale to another and what physical principles must be satisfied during the transfer of information? What are the optimal ways to achieve such transfer of information? How can variability of physical parameters at multiple scales be quantified and how can it be accounted for to ensure design robustness? The multiscale approaches in space and time presented in this volume are grouped into two main categories: information-passing and concurrent. In the concurrent approaches various scales are simultaneously resolved, whereas in the information-passing methods the fine scale is modeled and its gross response is infused into the continuum scale.

The issue of reliability of multiscale modeling and simulation tools which focus on a hierarchy of multiscale models and an a posteriori model of error estimation including uncertainty quantification, is discussed in several chapters. Component software that can be effectively combined to address a wide range of multiscale simulations is also described.

Applications range from advanced materials to nanoelectromechanical systems (NEMS), biological systems, and nanoporous catalysts where physical phenomena operates across 12 orders of magnitude in time scales and 10 orders of magnitude in spatial scales. This volume is a valuable reference book for scientists, engineers and graduate students practicing in traditional engineering and science disciplines as well as in emerging fields of nanotechnology, biotechnology, microelectronics and energy.

[Hooked: When Addiction Hits Home, Chloe Shantz-Hilkes](#) , 2013, 1554514746, 9781554514748. Jenny dealt with the stress by forgiving her mom -- over and over and over again. This collection of ten true stories is based on interviews with people who, in their youth, lived with an addicted parent or sibling. The subjects speak honestly about what it was like to grow up with a family member addicted to alcohol, drugs, food, pills, or gambling. While describing how they managed to care for themselves and younger siblings, as well as the addicted family member, interviewees also touch on the topics of depression, social stigma, coming out gay or transgendered, and the health problems caused by addiction and stress. The maturity, sensitivity, and even the sense of humor in these accounts will give teens going through similar situations the important realization that they are not alone and that there are many ways to break free from the chains of others' addictions and to move on positively with one's own life. It's estimated that 1 in 8 Americans struggles with addiction to drugs or alcohol. Hooked is an excellent resource for both kids and adults affected by the addiction of friends and family members.

[The New World Border: Prophecies, Poems, and Loqueras for the End of the Century, Guillermo Gmez-Pea](#) , 1996, 0872863131, 9780872863132. If writing about music is like dancing about architecture, then a book about performance art is surely like a sonata about sculpture. In the case of *The New World Border*, however, there is little lost in translation; the force and originality of Guillermo Gmez-Pea's ideas come across loud and clear. Billed as "chicano cyber-punk art," his work revolves around the disorienting reality of living in a multilingual, multicultural society. To express the inherent confusion of colliding cultures, he creates a fictional nation called Aztlán Liberado, where various identities, races, genders, and languages all blend to create an amalgamated society. In this world, the language is Spanglish, all borders have been removed, and whites are the minority. He writes a series of news reports on this theme that turn clichés inside out and point stereotypes the other way: "In an act of random violence, two unemployed corporate executives walked into a luxurious Taco Bell Bistro and fired upon the peaceful fajita-eating customers. Today's headline in the minority paper, the *New York Times*, reads: 'Blood and guacamole all over walls; a macabre scene.'" Another piece uses text and photographs to describe an act performed in Europe and the U.S. Here, Gmez-Pea places himself in a small gilded or bamboo cage in the middle of a busy plaza or shopping mall and presents himself as an "exotic multicultural specimen" who can be "activated" by shoppers who want to witness his "incredible ethnic talents." Such talents include modeling traditional Indian garb, doing commercials for organic products, and "posing in attitudes of martyrdom, despair, and poverty"--essentially behaving in any way that spectators expect their "primitives" to act--allowing Gmez-Pea to make a statement about how cultural identities are often presented as commodities. This American Book Award-winning collection of essays, poems, performance texts, photographs, and "prophecies for the coming century" is by turns outlandish, illuminating, wickedly clever, and unabashedly serious. A frenetic artist, satirist, and phrasemaker, Gmez-Pea is able to convey the electricity and inventiveness of his live shows through heavy doses of humor, irony, and word play. Gmez-Pea's aim is to establish a common middle ground among North Americans; until a seamless North America becomes a reality, however, Gmez-Pea will continue to live on the border--and would like to see us all there. --Shawn Carkonen

[Priscilla's Letter: Finding the Author of the Epistle to the Hebrews, Ruth Hoppin](#) , 1997, 1882897501, 9781882897506.

The mystery of the authorship of the Epistle to the Hebrews has been the subject of endless debate. The only comprehensive book on the subject, Priscilla's Letter is a scholarly examination of this puzzling New Testament question. Ruth Hoppin presents a meticulously researched case in support of the theory that Priscilla -- a woman who was a leader in the early church and an associate of Paul -- is ultimately the only "suspect" who meets all the qualifications for the authorship. Originally published in 1997, Priscilla's Letter disappeared from the market after only five months of promotion and general availability. The author became convinced that her publisher deliberately suppressed the book, presumably under pressure from religious extremists who regard the concept of female authorship of any part of the Bible subversive and intolerable.

[The Politics of Judgment: Aesthetics, Identity, and Political Theory, Kennan Ferguson](#) , 2007, 0739159232, 9780739159231. This innovative and theoretically sophisticated book investigates how aesthetic judgment forms the groundwork for understanding political identities. It posits aesthetics as central to conceptions of politics that are based on how people understand the relationship between themselves and larger communities. Ferguson focuses not only on how different theoretical conceptions of political judgment relate to one another, but also on their historical development and potential meaning for contemporary scholarship across the humanities and social sciences. Drawing on recent contributions to philosophy, economics, cultural studies, feminism, psychology, and anthropology, *The Politics of Judgment* demonstrates how modern political identities depend upon and are formed by aesthetic judgment. Political theorists, social scientists, philosophers and cultural critics will find this book especially useful, though general readers will also be attracted by the author's keen insight into contemporary political questions.

9781610912631. In recent years, the number of presidential declarations of major disasters has skyrocketed. Such declarations make stricken areas eligible for federal emergency relief funds that greatly reduce their costs. But is federalizing the costs of disasters helping to lighten the overall burden of disasters or is it making matters worse? Does it remove incentives for individuals and local communities to take measures to protect themselves? Are people more likely to invest in property in hazardous locations in the belief that, if worse comes to worst, the federal government will bail them out?.Disasters and Democracy addresses the political response to natural disasters, focusing specifically on the changing role of the federal government from distant observer to immediate responder and principal financier of disaster costs.

[Political Economy of Production and Reproduction: Caste, Custom, and Community in North India, Prem Chowdhry](#) ,

2011, 0198067704, 9780198067702. Political Economy of Production and Reproduction presents a nuanced understanding of social flux and cultural turmoil in contemporary north India. It critically examines the complex relationship of the colonial past with the present; the shifts in the political economy and culture of north India; and the constant reformulation and refashioning of patriarchal forces. Prem Chowdhry, who has worked for close to three decades in the area, presents an intensive case study of Haryana that spans the mid-nineteenth to the twenty-first century, exploring its politics, economy, and society, with special emphasis on caste and gender. She offers a rich assessment of colonial legacy in the region, and how and why post-colonial changes in India--which established political democracy and norms of social equality--stand severely diluted and compromised indicating high economic and low social indices. Mapping significant social process and state policies that have shaped and reshaped north India, Political Economy of Production and Reproduction provides an insight into one of the richest regions in India and why it continues to be regressive even in the twenty-first century--ruled by social forces determined by caste, custom, and community, instead of moving towards a modern egalitarian society and statehood.

SHAMELA is a brilliant parody of Samuel Richardson's PAMELA, in which a virtuous servant girl long resists her master's advances and is eventually 'rewarded' with marriage. Fielding's far more spirited and sexually honest heroine, by contrast, merely uses coyness and mock modesty as techniques to catch a rich husband. JOSEPH ANDREWS, Fielding's first full-length novel, can also be seen as a response to Richardson, as the lascivious Lady Booby sets out to seduce her comically chaste servant Joseph, (himself in love with the much-put-upon Fanny Goodwill). As in Tom Jones, Fielding takes a huge cast of characters out on the road and exposes them to many colourful and often hilarious adventures.

Woolman's essays widely influenced social thought in the United States, and in England as well, where he was esteemed by Lamb and Coleridge. This edition of the Journal includes Woolman's whole discussion of tax refusal as a form of anti-war protest and civil disobedience. [Death Or Liberty: African Americans and Revolutionary America, Douglas R. Egerton](#) , 2009, 0195306694, 9780195306699. In *Death or Liberty*, Douglas R. Egerton offers a sweeping chronicle of African American history stretching from Britain's 1763 victory in the Seven Years' War to the election of slaveholder Thomas Jefferson as president in 1800. While American slavery is usually identified with the cotton plantations, Egerton shows that on the eve of the Revolution it encompassed everything from wading in the South Carolina rice fields to carting goods around Manhattan to serving the households of Boston's elite. More important, he recaptures the drama of slaves, freed blacks, and white reformers fighting to make the young nation fulfill its republican slogans. Although this struggle often unfolded in the corridors of power, Egerton pays special attention to what black Americans did for themselves in these decades, and his narrative brims with compelling portraits of forgotten figures such as Quok Walker, a Massachusetts runaway who took his master to court and thereby helped end slavery in that state; Absalom Jones, a Delaware house slave who

bought his freedom and later formed the Free African Society; and Gabriel, a young Virginia artisan who was hanged for plotting to seize Richmond and hold James Monroe hostage. Egerton argues that the Founders lacked the courage to move decisively against slavery despite the real possibility of peaceful, if gradual, emancipation. Battling huge odds, African American activists and rebels succeeded in finding liberty--if never equality--only in northern states. *Canvassing every colony and state, as well as incorporating the wider Atlantic world, Death or Liberty* offers a lively and comprehensive account of black Americans and the Revolutionary era in America.

But when Dora unexpectedly lands the role, Lisa soon learns that Dora's brush with fame has less to do with paparazzi and lucrative paydays and more to do with endless rehearsals and outsize egos. Part fairy tale, part cautionary tale, this is the hilarious, engaging account of one child's step into the limelight. From the initial try-out with over a thousand Von Trapp hopefuls to performing on the London stage with Connie Fisher and an encounter with Julie Andrews, mother and daughter navigate the minefield of rehearsals, auditions and fame. This is a heart-warming glimpse into the sometimes not-so-glamorous world of show business and the delicate balance between being proud and being pushy. *Stage Mum* is a story for every parent who dreams big and every child who dreams bigger.

[Saint Saul: A Skeleton Key to the Historical Jesus, Donald Harman Akenson](#) , 2002, 0195152387, 9780195152388. In *Saint Saul*, Donald Harman Akenson offers a lively and provocative account of what we can learn about Jesus by reading the letters of Paul. As the only direct evidence of Jesus we have that were composed before the destruction of the Second Temple in 70 CE forever altered the outlook of the Christian and Jewish faiths, Akenson claims that these letters are the most reliable source of information. He dismisses the traditional method of searching for facts about Jesus by

looking for parallels among the four gospels because they were handed down to us as a unit by a later generation.

Akenson painstakingly recreates the world of Christ, a time rich with ideas, prophets, factions, priests, savants, and god-drunk fanatics. He insistently stresses throughout the Jewishness of Jesus, referring to Jesus and Paul as Yeshua and Saul, as they were then known. As an eminent historian, Akenson approaches his subject with a fresh eye and a scholarly rigor that is all too rare in this hotly disputed field.

[The Good-Bye Door: The Incredible True Story of America's First Female Serial Killer to Die in the Chair, Diana Britt Franklin](#) , 2006, 0873388747, 9780873388740. Nicknamed "the Blonde Borgia," Anna Marie Hahn was a cold-blooded serial killer who preyed on the elderly in Cincinnati's Over-the-Rhine district in the 1930s. When the State of Ohio strapped its first woman into the electric chair, Hahn gained a place in the annals of crime as the nation's first female serial killer to be executed in the chair. Told here for the first time in riveting detail is Anna Marie's gripping story, an almost unbelievable tale of multiple murders, deceit, and greed. Born in Bavaria in 1906, Anna Marie brought shame to her pious family when, as a teenager, she gave birth to an illegitimate son, Oscar. She was shipped off to America in 1929 where she initially lived with elderly relatives in Cincinnati. A year later she married Philip Hahn, a Western Union telegrapher, with whom she bought a new house and opened a delicatessen/bakery. Pressed economically by the Great Depression, the ever-resourceful Anna Marie found other ways to get the money to support her passionate pastime--betting on horses. She tried burning down the house, then the deli, for the insurance; and she tried killing her husband, also for the insurance. Then she took to befriending the neighborhood elderly, latching on to their life savings before feeding them arsenic with deadly results. For weeks her Cincinnati trial for "the greatest mass murder in the history of the country" was a front-page sensation across the nation. A thousand or more curiosity seekers came daily to the courthouse to try to get just a glimpse of her. Nearly 100 witnesses gave damning testimony against her, and the jury's guilty verdict put her on the path to the electric chair. Finally, after a year, all appeals were exhausted, and Anna

Marie, age 32, was executed on December 7, 1938, at the state penitentiary in Columbus. True crime buffs, historians, legal professionals, and other seeking an extraordinary story will find. The Good-bye Door a compelling addition to true crime literature.

From chav-pop pantomimes to retro-chauvinist landfill indie, the bland, homogenous and compromised nature of the current 'alternative' sector reflects the interests of a similarly complacent and privileged political establishment. In particular, political and media policing of female social and sexual autonomy, through the neglected but significant gendered dimensions of the discourse surrounding chavs, has been accompanied by a similar restriction and regulation of the expression of working-class femininity in music. This book traces the progress of this cultural clampdown over the past twenty years.

The poems follow the life of a survivor of Eastern European pogroms, but the theme is larger: notions of victimhood as an identity, moral certitude, and the differences between justice and revenge are questioned and explored. The poems' formal qualities mirror the fractured lives of the people in them: seemingly disparate voices break in, words are scattered across the page. But the ultimate message of The Glazier's Country is an insistence that we can choose wholeness, "choose good / solo & each day / over faith / over clan or country / it is an art / & each day again."

[The Myth of Mars and Venus: Do Men and Women Really Speak Different Languages?, Deborah Cameron](#) , 2008, 0199550999, 9780199550999. Popular assumptions about gender and communication--famously summed up in the title of the massively influential 1992 bestseller Men Are From Mars, Women Are From Venus--can have unforeseen but far-reaching consequences in many spheres of life, from attitudes to the phenomenon of "date-rape" to expectations of achievement at school, and potential discrimination in the work-place. In this wide-ranging and thoroughly readable book, Deborah Cameron, Rupert Murdoch Professor of Language and Communication at Oxford University and author of a number of leading texts in the field of language and gender studies, draws on over 30 years of scientific research to explain what we really know and to demonstrate how this is often very different from the accounts we are familiar with from recent popular writing. Ambitious in scope and exceptionally accessible, The Myth of Mars and Venus tells it like it is: widely accepted attitudes from the past and from other cultures are at heart related to assumptions about language and the place of men and women in society; and there is as much similarity and variation within each gender as between men and women, often associated with social roles and relationships. The author goes on to consider the influence of Darwinian theories of natural selection and the notion that girls and boys are socialized during childhood into different ways of using language, before addressing problems of "miscommunication" surrounding, for example, sex and consent to sex, and women's relative lack of success in work and politics. Arguing that what linguistic differences there are between men and women are driven by the need to construct and project personal meaning and identity, Cameron concludes that we have an urgent need to think about gender in more complex ways than the prevailing myths and stereotypes allow.

[When Languages Die: The Extinction of the World's Languages and the Erosion of Human Knowledge, K. David Harrison](#) , 2007, 0199884625, 9780199884629. It is commonly agreed by linguists and anthropologists that the majority of languages spoken now around the globe will likely disappear within our lifetime. The phenomenon known as language death has started to accelerate as the world has grown smaller. This extinction of languages, and the knowledge therein, has no parallel in human history. K. David Harrison's book is the first to focus on the essential question, what is lost when a language dies? What forms of knowledge are embedded in a language's structure and vocabulary? And how harmful is it to humanity that such knowledge is lost forever? Harrison spans the globe from Siberia, to North America, to the

Himalayas and elsewhere, to look at the human knowledge that is slowly being lost as the languages that express it fade from sight. He uses fascinating anecdotes and portraits of some of these languages' last remaining speakers, in order to demonstrate that this knowledge about ourselves and the world is inherently precious and once gone, will be lost forever. This knowledge is not only our cultural heritage (oral histories, poetry, stories, etc.) but very useful knowledge about plants, animals, the seasons, and other aspects of the natural world--not to mention our understanding of the capacities of the human mind. Harrison's book is a testament not only to the pressing issue of language death, but to the remarkable span of human knowledge and ingenuity. It will fascinate linguists, anthropologists, and general readers.

[Sifted: God's Scandalous Response to Satan's Outrageous Demand, Rick Lawrence](#) , 2011, 1434704483,

9781434704481. Discouraged by lifes difficultiesboth life-shifting catastrophes and the drip-drip-drip of daily trouble?

Dissatisfied with the same old pat answers about Gods role in our hard times? Rick Lawrence offers fresh biblical perspective based on a single Scripture snapshot in Luke 22:31-32. Jesus tells Peter hes about to be sifted like wheatshaken hard, beaten, and agitated until he practically falls apart. Satans going to do it. And Jesus is going to allow it, in the interest of showing Peter who he really is. Lawrence uses the simple agrarian metaphor of sifting as a jumping-off point for a rigorously honest, deeply challenging, yet powerfully comforting exploration of the trials that beat us down, the good God who allows our troubles, and the incredible beauty the process of sifting can reveal in us.

In his now-classic book Innumeracy, John Allen Paulos answers questions such as: Why is following the stock market exactly like flipping a coin? How big is a trillion? How fast does human hair grow in mph? Can you calculate the chances that a party includes two people who have the same birthday? Paulos shows us that by arming yourself with some simple maths, you don't have to let numbers get the better of you.

All Jack has learned on his eight year journey meets its greatest test when he and ninety-eight others are trapped in a four- room tavern for three hot, humid August days, fighting for survival against 400 once-friendly Indians, who are determined to wipe them out and reclaim their land and way of life.
