[Kantian Business Ethics: Critical Perspectives, Denis Gordon Arnold, Jared D. Harris](#) , 2012, 178100496X,

9781781004968. In this original collection of essays, a group of distinguished scholars critically examine the ethical dimensions of business using the Kantian themed business ethics of Norman E. Bowie as a jumping off point. The authors engage Bowie's influential body of scholarship as well as contemporary themes in business, including topics such as: the normative foundations of capitalism; the applicability of Kantian ethics, virtue ethics, and pragmatism in normative business ethics; meaningful work; managerial ethics; the ethics of high leverage finance capitalism; business ethics and corporate social responsibility; and responsibility for the natural environment. The contributors to this volume include both scholars sympathetic to Bowie's Kantian business ethics and scholars critical of that perspective. As one of the foundational figures in the establishment and legitimization of the study of business ethics as a field of scholarship, Bowie casts a long shadow over the field. Over the last thirty years he has applied a distinctive, Kantian approach to the analysis of problems in business ethics and his work has had a substantial impact on a wide range of theory and scholarship in the field. Bowie argues in his work that economic value is not the only value that should inform managers, executives, and policy makers when making both business policy decisions and everyday management decisions. He utilizes a Kantian framework to support the position that additional values such as human dignity and rational consistency should inform business practice and influence managerial decision-making. He also shows that business practices that include these additional values are consistent with sound management theory and that such businesses can be financially successful. This volume of scholarly essays will be of considerable interest to students and scholars working in business ethics, corporate social responsibility, and organization studies.

[Tennis Biomechanics \(Pal\), United States Tennis Association, United States Tennis Association Staff](#) , 1995, .

Understanding the biomechanics of tennis is crucial for players who want to maximize their movement and shotmaking skills and tennis coaches and instructors who want to teach their athletes sound fundamentals. This video shows the direct application of biomechanical principles for effective play in all areas of the court and improved tennis stroke production. Featuring instruction from Paul Roetert, administrator of United States Tennis Association (USTA) Sport Science, as well as teaching tips from top coaches at the USTA, Tennis Biomechanics provides instructional segments on: - the serve, - return of serve, - groundstrokes, - the transition game, and - net play. In each segment, viewers get to see top professionals and nationally ranked junior players demonstrate the proper movements of the body and racquet. In addition, the video shows variations for each type of shot and discusses their advantages and disadvantages. "Tennis Biomechanics" begins by demonstrating the proper mechanics involved in serving. Coaches, instructors, and players will

learn about the importance of establishing a consistent ritual, having a clear purpose, and using a consistent toss. Next, the video reviews the three keys to an effective return of serve and explains how and when to use different swings when returning. In the groundstrokes segment of the video, viewers learn about the various grips and stances and when players should use them. This segment then shows how to combine different grips and stances to hit effective forehand and backhand shots. The transition game segment covers the biomechanics involved in serving and volleying as well as in making winning approach shots. The video ends with a discussion of the three keys to effective net play and a review of how to hit drop volleys and overhead shots. "Tennis Biomechanics" provides an excellent resource for coaches, instructors, and players who want to learn how to improve tennis stroke production using biomechanical principles.

[CRC Standard Probability and Statistics Tables and Formulae, Daniel Zwillinger, Stephen Kokoska](#) , 1999, 1420050265, 9781420050264. Whether you are a statistician, engineer, or businessperson, you need statistics. You want to be able to easily reference tables, find formulas, and know how to use them so you can extract information from data without getting bogged down by advanced statistical methods. Your goal is to determine the appropriate statistical procedures and interpret the results. Standard Probability and Statistics: Tables and Formulae provides the tools you need to do just that. Logically organized and reaching far beyond a mere catalog, a textual description accompanies each entry- most include an example. The topics addressed are directly applicable to modern business and engineering as well as to statistics, including regression analysis, ANOVA, decision theory, signal processing, and control theory. The result is an accessible, example-oriented handbook that supplies the basic principles, the most commonly used values, and the information to make them work for you. It is easy to fill a statistics reference with hundreds of pages of tables - sometimes for just one test. This handbook is much more. With topics ranging from classical statistics to modern applications, Standard Probability and Statistics fills the need for an up-to-date, authoritative statistics reference.

[Discovering Psychology: The Science of Mind, , John Cacioppo, Laura Freberg](#) , 2012, 061818550X, 9780618185504. In this fresh new offering to the Intro Psychology course, authors John Cacioppo and Laura Freberg portray psychology as being an integrative science in two ways. First, they have written a text that reflects psychology's rightful place as a hub science that draws from and is cited by research in many other fields. Second, this text presents psychology as a unified science that seeks a complete understanding of the human mind, rather than as a loosely organized set of autonomous

subspecialties. As psychology moves rapidly toward maturity as an integrative, multidisciplinary field, the introductory course offers an opportunity to teach all of psychology in one place and at one time. This text reflects that evolution--and the authors' excitement about it. [Passion, Betrayal And Killer Highlights, Kyra Davis](#) , 2007, 1426800576, 9781426800573. Sophie Katz has just offered a man \$12,000 for his services Is she desperate or just meshugeneh? Considering the kind of disasters that usually befall the half-black, half-Jewish mystery writer, probably both. Because the last time Sophie saw sexy P.I. Anatoly Darinsky, he practically danced a jig when she waved goodbye a normal reaction for a man who'd nearly bought the farm trying to protect her from her own foolishness. What are the chances he'd agree to take incriminating pictures of her sister's philandering husband? Or that he'd let her tag along you know for research? But when her brother-in-law turns up dead and her sister becomes the prime suspect, Sophie's priority is finding the real killer. With or without Anatoly's help. Her brother-in-law's secret life yields plenty of suspects, but the San Francisco police aren't taking any of them seriously. So Sophie does what comes naturally to her: she stirs up trouble (to lure the killer out, of course). But if her crazy plan works, will Anatoly be there to protect her this time?

Hill's latest spellbinding, page-turning suspense story, "The Sea Horse Trade," takes readers to South Florida for a wild ride on the dark side, mixing horse racing, a mysterious drug kingpin, prostitution, and a mother's brave

search for the daughter she was forced to give up at birth. When Nikki works the January meet at Gulfstream Park near Miami, something about a new racehorse owner worries her. Bad enough she's expected to handle Currito Maldonista's evil-minded colt, but Nikki begins to suspect the Colombian may be a drug lord, using horses as a cover to sell his product in the United States. Worse, could he be abducting underage American girls into a network of overseas sex trafficking? Nikki's world and Maldonista's become further entwined when Nikki's oldest friend, Carla Ruben, comes to Florida to find the teenage daughter she gave up for adoption years ago. The teenager's adoptive parents died unexpectedly, and the exotically beautiful girl was last seen in Miami. Could Maldonista be involved? Nikki and Carla must put lives on the line to find out... A thrilling new racing mystery from the Agatha and Macavity Award-nominated author of Full Mortality and Racing from Death! "If you love Dick Francis, you'll love Sasscer Hill. [For Hunger-proof Cities: Sustainable Urban Food Systems, Mustafa Koc](#) , 1999, 0889368821, 9780889368828. The 20th century witnessed a massive growth in urban populations. In 1990, one-third of the world's people lived in cities of one million or more. As a result, hunger and malnutrition are on the increase worldwide, as the global food system fails to satisfy the growing demand of the urban consumer. For Hunger-Proof Cities is the first book to fully examine food security from an urban perspective. It examines existing local food systems and ways to improve the availability and accessibility of food for city dwellers. It looks at methods to improve community-supported agriculture and cooperation between urban and rural populations. It explores what existing marketing and distribution structures can do to improve accessibility and what the emerging forms of food-distribution systems are, and how they can contribute to alleviating hunger in the cities. Finally, the book discusses the underlying structures that create poverty and inequality and examines the role of emergency food systems, such as food banks. A French version will be available in 1999.

[Billboard: art on the road : a retrospective exhibition of artists' billboards of the last 30 years, Laura Steward Heon, Peggy](#)

[Diggs, Joseph Thompson, Massachusetts Museum of Contemporary Art](#) , 1999, . foreword by Joseph Thompson This book accompanies the exhibition of artists' billboards that opens the Massachusetts Museum of Contemporary Art's (MASS MoCA's) inaugural season. The exhibition comprises a twenty-work retrospective of billboards designed by artists over the past three decades as well as five newly commissioned ones. The retrospective includes works by, among others, John Baldessari, Genevieve Cadieux, Felix Gonzalez-Torres, Gran Fury, Group Material, the Guerrilla Girls, Jenny Holzer, Joseph Kosuth, and Barbara Kruger. The new works, made in cooperation with the communities where they will be installed, are by Julie Ault and Martin Beck, Lothar Baumgarten, Sue Coe, Leon Golub, and Gary Simmons. In addition to the descriptions and color images of the historic and new billboards, the book contains almost three hundred short entries, offering the first broad survey of the medium. More than half of these entries include a small color image. The book also contains three essays. In "Disturbances in the Field of Mammon: Toward a History of Artists' Billboards," Harriet Senie finds precursors for contemporary billboards in European art posters (Toulouse-Lautrec), modern political posters (Rodchenko), and war billboards ("Uncle Sam Wants You"). She looks at the subject matter of contemporary artists' billboards: racism, feminism, environmental issues, war and peace, consumerism, and AIDS and at artists' strategies and site choices. Public artist Peggy Diggs discusses the process through which billboards are made and the problems encountered by billboard artists, and curator Laura Heon writes about works in the exhibition, in particular the (often conceptual) billboards that do not "sell" any political message. Copublished with the Massachusetts Museum of Contemporary Art.

[Sita's Ramayana, Samhita Arni](#) , 2012, 9380340036, 9789380340036. The Ramayana is an epic poem by the Hindu sage Valmiki, written in ancient Sanskrit sometime after 300 BC. It is an allegorical story that contains important Hindu teachings, and it has had great influence on Indian life and culture over the centuries. Children are often encouraged to emulate the virtues of the two main characters -- Rama and Sita. The Ramayana is frequently performed as theater or dance, and two Indian festivals -- Dussehra and Divali -- celebrate events in the story. This version of The Ramayana is told from the perspective of Sita, the queen. After she, her husband Rama and his brother are exiled from their kingdom, Sita is captured by the proud and arrogant king Ravana and imprisoned in a garden across the ocean. Ravana never stops trying to convince Sita to be his wife, but she steadfastly refuses his advances. Eventually Rama comes to her rescue with the help of the monkey Hanuman and his army. But Rama feels he can't trust Sita again. He forces Sita to undergo an ordeal by fire to prove herself to be true and pure. She is shocked and in grief and anger does so. She emerges unscathed and they return home to their kingdom as king and queen. However, suspicion haunts their relationship, and Sita once more finds herself in the forest, but this time she is pregnant. She has twins and continues to live in the forest with them. The story is exciting and dramatic, with many turns of plot. Magic animals, snakes, divine gods, demons, sorcerers and a vast cast of characters all play a part in the fierce battles fought to win Sita back. And in the process the story explores ideas of right vs. wrong, compassion, loyalty, trust, honor and the terrible price of war.

[Old Legs and Pebbles, Peter Lawlor](#) , 2011, 0964410435, 9780964410435. With his fifth poetry book, Old Legs and Pebbles, Peter Lawlor celebrates his ninetieth year. A British Merchant Navy seaman in World War 2, he also saw service with the American Merchant Marine. Giving up the sea life, he settled in San Francisco, then to Sun Valley Idaho. It was a

couple of years in Devon England, then to Santa Fe New Mexico. Feeling the urge of the sea it had to be an eventual move from the desert to Whidbey Island. He may not stop there. "There are many more poems to be written," he says. He balances a love of mountains with that of the sea and his varied career of mountaineering, fishing guiding, and ski instructing reflect in his poems. His seaman's cottage on Whidbey Island in Puget Sound is ideal for his mission. His recipe for longevity of mind and body: "Write a poem in the morning then go out and chop some wood." Frequent trips to his native New Zealand reflect also in his works. His sister Margaret in Auckland designs the covers of his books. An activist in her artistry, her concern for sustainability of the planet shows in her work. The leg theme of the cover, which also appears in odes and poems like "Legacy," stress that "leg" leads in the impetus of many of our motives. The pebbles theme in the poem "Pebbles" relate to the whale and the concern for its existence. The wave is the whitened bones. The Odes, which show the influence of Pablo Neruda, are a venture into free form that doesn't waste words in capturing the essence of the subject in the title. The moods of concern and nostalgia of the following lyrical poems move quickly into the joy and irreverence of Peter Lawlor's Tomfoolery. The whole is a medley of his daily poems which he likes to call the meat and veggies of a poet's plate.

Olson, et al. authored this V. 3. Consists of two reports. The first report, Logistics, discusses logistics in the Persian Gulf War as it applies to all military operations and in particular to air operations. Includes functions for maintaining an air base and support services. The second report, Support, captures and tells the stories of functional support areas. Focuses on those support areas that project air power.

[Closing the Deal, Richard Kirshenbaum, Daniel Rosenberg](#) , 2009, 0061740519, 9780061740510. In this hip and utterly indispensable guide, two happily married husbands and regular guys reveal the secrets to getting a man down on bended knee -- his most uncomfortable position. Over the years, Richard Kirshenbaum and Daniel Rosenberg have dispensed loads of successful relationship advice to friends, colleagues, and relatives, who then pushed the ex-bachelors to share their lessons with the masses of future brides who need help taking their existing relationships to the next level. These guys have been there and know what it takes to get even the biggest commitment phobes to take the plunge. Closing the Deal will help you make a realistic assessment of your relationship and offers a fresh perspective on how your man's mind works. You'll find a new way to drive your relationship toward marriage without resorting to game playing. The authors promote the importance of truth telling, self-positioning, and the artful use of marketing tactics to reel in your man. You don't have to be the prettiest, thinnest, or richest woman to close the deal -- there is an art to it! Closing the Deal is not about outsmarting your man to the altar -- it's about learning to understand him. Richard and Daniel explain that no matter how much a guy may love his significant other, Change is the Enemy, so wannabe brides everywhere must convince their boyfriends that marriage is man's best friend. Closing the Deal will show you how to do just that. To

help future brides build their matrimonial muscles and monitor their progress, Richard and Daniel include quizzes and real-life scenarios and throw in a glossary for extra clarification. Honest and supportive, funny and straightforward, these ideal big brothers offer a sure cure for the wedding-bell blues.

[Chinese Literature: A Very Short Introduction, Sabina Knight](#), 2012, 0199913137, 9780199913138. Perhaps nowhere else has literature been as conscious a collective endeavor as in China, and China's survival over three thousand years may owe more to its literary traditions than to its political history. This Very Short Introduction tells the story of Chinese literature from antiquity to the present, focusing on the key role literary culture played in supporting social and political concerns. Embracing traditional Chinese understandings of literature as encompassing history and philosophy as well as poetry and poetics, storytelling, drama, and the novel, Sabina Knight discusses the philosophical foundations of literary culture as well as literature's power to address historical trauma and cultivate moral and sensual passions. From ancient historical records through the modernization and globalization of Chinese literature, Knight draws on lively examples to underscore the close relationship between ethics and aesthetics, as well as the diversity of Chinese thought. Knight also illuminates the role of elite patronage; the ways literature has served the interests of specific groups; and questions of canonization, language, nationalism, and cross-cultural understanding. The book includes Chinese characters for names, titles, and key terms.

Using a combination of workplace scenarios, interviews with experts, and informative narration, the program provides valuable insights into the development of good work skills and habits. Emphasis is placed on the basics: being on time, having a positive attitude, taking responsibility, being a team player, maintaining a good attendance record, understanding and following the rules and procedures, and observing dress and safety codes. Practical tips are given on difficult issues such as office politics, relationships with co-workers, balancing work life and personal life, and dealing with childcare and other family responsibilities. The program addresses the importance of maintaining a healthy lifestyle, and demonstrates how good health contributes to success on the job. This is essential viewing for anyone entering the job market, and can also be used as a valuable refresher for more experienced workers.

Autism is no longer considered a rare disease, and the Center for Disease Control now estimates that upwards of 730,000 children in the US struggle with this isolating brain disorder. New research is leading to greater understanding of and ability to treat the disorder at an earlier age. It is hoped that further genetic and imaging studies will lead to biologically based diagnostic techniques that could help speed detection and allow early, more effective intervention. Edited by two leaders in the field, this volume offers a current survey and synthesis of the most important findings of the neuroscience behind autism of the past 20 years. With chapters authored by experts in each topic, the volume explores etiology, neuropathology, imaging, and pathways/models. Offering a broad background of ASDs with a unique focus on neurobiology, the volume offers more than the others on the market with a strictly clinical focus or a single authored perspective that fails to offer expert, comprehensive coverage. Researchers and graduate students alike with an interest in developmental disorders and autism will benefit, as will autism specialists across psychology and medicine looking to expand their expertise. *Uniquely explores ASDs from a neurobiological angle, looking to uncover the molecular/cellular basis rather than to merely catalog the commonly used behavioral interventions*Comprehensive coverage synthesizes widely dispersed research, serving as one-stop shopping for neurodevelopmental disorder researchers and autism specialists*Edited work with chapters authored by leaders in the field around the globe - the broadest, most expert coverage available

[The Problem with Survey Research, George Beam](#) , 2012, 1412846323, 9781412846325. The Problem with Survey Research makes a case against survey research as a primary source of reliable information. George Beam argues that all survey research instruments, all types of asking including polls, face-to-face interviews, and focus groups produce unreliable and potentially inaccurate results. Because those who rely on survey research only see answers to questions, it is impossible for them, or anyone else, to evaluate the results. They cannot know if the answers correspond to respondents actual behaviors (objective phenomena) or to their true beliefs and opinions (subjective phenomena). Reliable information can only be acquired by observation, experimentation, multiple sources of data, formal model building and testing, document analysis, and comparison. In fifteen chapters divided into six parts Ubiquity of Survey Research, The Problem, Asking Instruments, Asking Settings, Askers, and Proper Methods and Research Designs The Problem with Survey Research demonstrates how asking instruments, settings in which asking and answering take place, and survey researchers themselves skew results and thereby make answers unreliable. The last two chapters and appendices examine observation, other methods of data collection and research designs that may produce accurate or correct information, and shows how reliance on survey research can be overcome, and must be.

[Anton Chekhov: A Life, Donald Rayfield](#) , 1998, 0810117959, 9780810117952. dependents and with the tuberculosis that was to kill him at age forty-four. He was one of the greatest playwrights and short-story writers ever born, but he was torn between medicine and literature, as he was between family and friends, between a longing for solitude and a need for company. When he was a child, his family life was at times made a hell by a monstrous father, a possessive sister, and delinquent elder brothers; his own adult life was tortuously balanced between the affections of a series of mistresses and a marriage to an actress that was not as idyllic as it has traditionally been painted. Donald Rayfield's biography strips the whitewash from the image of Chekhov and shows us what lay behind his restrained, ironic facade. The result does not denigrate him but shows him in the full heroism of his brief, prodigiously creative life. Rayfield has spent more than three years combing the Chekhov archives all over Russia (Chekhov was a restless traveler for the whole of his life, going from Siberia to the Cote d'Azur) and has uncovered thousands of documents and letters from Chekhov's lovers, friends, and family, most of them never published before, which cumulatively tell of a life far more entangled and turbulent than we ever previously suspected. The many cuts made in Soviet and foreign editions of Chekhov's and his wife's letters have been restored; what once was hidden is now revealed.

The Soul Tree: Poems and Photographs of the Southern Appalachians presents luminous photographs from the Blue Ridge Parkway and lyric poems written in resonance with the images. Each page presents a unique layout design created to elevate and inspire the reader with both the power of art and the power of nature. While all the images present the vistas and details of the region, the poetry, deeply rooted in the nature imagery of sacred texts, speaks of the universal fusion of internal and external realities. The poems illuminate themes of vision, faith, healing and, ultimately, the vital sacrality of nature. Poet Laura Hope-Gill and photographer John Fletchers stunning renderings of the land capture both the form and spirit of the mountains beloved by so many.

[SAX2, David Brownell](#) , 2002, 0596002378, 9780596002374. This concise book gives you the information you need to effectively use the Simple API for XML (SAX2), the dominant API for efficient XML processing with Java. With the SAX2 API, developers have access to the information in XML documents as they are read, without imposing major memory constraints or a large code footprint. SAX2 is often used by other APIs "under the covers", and provides a foundation for processing and creating both XML and non-XML information. While generally considered the most efficient approach to handling XML document parsing, SAX2 also carries a significant learning curve. In SAX2, author David Brownell explores the many details of managing XML parsers, filtering the information those parsers return, generatingyour own SAX2 events to convert non-XML information to an XML form, and developing strategies for using event-based parsing in a variety of application scenarios. Created in a public process by the XML-Dev mailing list, the SAX2 API is compact and highly functional. SAX2 uses callbacks to report the information in an XML document as the document is read, allowing you to create your ownprogram structures around the content of documents. No intermediary model of an entire XML document is necessary, and the mapping from XML structures to Java structures and back is straightforward. Both developers learning about SAX2 for the first time and developers returning for reference and advanced material about SAX2 will find useful information in this book. Chapters provide detailed explanations and examples of many different aspects of SAX2 development, while appendices provide a reference to the API and an explanation of the relationships between the SAX2 API and the XML Information Set. While the core of the API is quite approachable, many of its more

advanced features are both obscure and powerful. You can use SAX2 to filter, modify, and restructure information in layers of processing which make it easy to reuse generic tools. SAX2 also has some significant limitations that applications need to address in their own ways. This new book gives you the detail and examples required to use SAX2 to its full potential, taking advantage of its power while avoiding its limitations.

[Becoming Ecological : An Expedition into Community Psychology: An Expedition into Community Psychology, Department of Psychology University of Illinois James G. Kelly Professor, Chicago \(Emeritus\)](#) , 2006, 0198038747, 9780198038740.

Community psychology emphasizes an ecological approach to mental health by focusing on the individual in the environment and the influences that shape and change behavior. Becoming Ecological brings together the work of James G. Kelly, one of the founders of community psychology and among the field's national leaders. The volume unites thirteen of Kelly's publications from 1968 to 2002 as well as four new essays on current issues in the field: the theory, research, practice, and education of community psychologists. Kelly introduces the work by offering connections between his

personal experiences and the topics he chose to focus on throughout his long career. He begins each of the thirteen essays with commentary that sets the article in its original context so that the reader has a historical perspective on why certain ideas were salient at a particular time and how they are still timely today. Kelly concludes with a "summing up" section integrating the previously published articles with the four new essays. Throughout, he presents examples of how to plan and carry out research and practice in the community. The principles underlying the examples both enhance the relevance of the research and practice and increase the potential of community residents to use the findings for their own purposes. A compendium of classic statements of community psychology's philosophical and historical underpinnings, *Becoming Ecological* is a must-read for scholars and practitioners of community psychology and for those in the fields of public health, social work, community development, education, and applied anthropology.

Rien apparemment de plus dissemblable que les uvres de Federico Fellini et de Georges Simenon, rien apparemment de plus oppos que ces deux hommes. Comment de tels sentiments ont-ils bien pu natre entre eux ? " Carissimo Simenon - Mon cher Fellini " rassemble 20 annes (1969 1989, date de la mort de Simenon) de la correspondance entre ces deux figures majeures du cinma et de la littrature. Elle trouve son origine en 1960, lorsque le jury du Festival de Cannes, prsid par Georges Simenon, dcerne Federico Fellini la Palme d'Or pour son film La Dolce Vita. Mais elle commence " vraiment " en 1969, la sortie de Satyricon, lorsque Fellini, au cours d'une interview, fait l'loge de Simenon et tablit un lien entre l'criture de ses romans et l'laboration de ses propres films. Simenon lui crit alors pour le conforter dans cette ide et lui dire son admiration de toujours. Ds lors, leurs changes tournent autour du geste de la cration. Fellini se livre en toute confiance, fait part son " an " de ses angoisses et de ses doutes, notamment propos de Casanova et de La Cit des femmes. Trs mu des rsonances qui se font jour entre leurs deux univers, Simenon, g de dix-sept ans de plus que lui, peut lui communiquer une forme d'exprience et de sagesse. [Yang Xiong: A Confucian Hermit in the Han Imperial Court: Philosophy of the Fa Yan, Xiong Yang, Jeffrey S. Bullock](#) , 2011, 0983550204, 9780983550204. "Yang Xiong is the most useless of all. He was truly a rotten Confucian."Zhu Xi (1130-1200 A.D.)With this comment from Song Dynasty Neo-Confucian Zhu Xi, the work of Han Dynasty philosopher Yang Xiong (53 B.C.-18 A.D.) was effectively relegated to the dustbin of Chinese intellectual history. While influential in the Later Han as the clearest expression of the Old Text Confucian school, Yang's Fa yan has received little attention from Western scholars and appears here in a rare annotated English translation.Written during the transition between the Former and Later Han Dynasties, the Fa yan is a notoriously elusive text that was stylistically modeled on the Analects of Confucius. Denigrated by later Neo-Confucians for his association with Han usurper Wang Mang, Yang Xiong served both the Former Han and Xin imperial courts as a court poet and scholar, and was well known for being a reclusive personality, earning him a reputation as a "hermit at court." Most famous for his position that human nature is a mixture

of good and evil, Yang Xiong's philosophy stands in clear contrast to the syncretic Confucianism of his day as a reformer's vision of proper self-cultivation and statecraft. This volume presents an annotated translation of the entire text, focusing on the passages that elucidate Yang's discussion of the core concepts of the Confucian school. The translator's commentary traces the text's major philosophical concepts to their roots in Warring States era philosophy, noting stylistic and conceptual allusions to the Analects and Mencius, among other texts. Also included are a discussion of Yang's biography and the influence of the eremitic ideal on his life and thought.

[The Fear Factor: What Happens When Fear Grips Wall Street, Colin Read](#) , 2009, 0230228461, 9780230228467. This book engages the reader in a fascinating discussion of the role played by fear in financial market panics. Professor Colin Read demonstrates, in easy-to-understand terms, that rising market fear portends to major financial declines. He discusses the science and the economics of fear and shows that the financial market has learned how to capitalize on investor or economic fear. Professor Read devises a measure of fear, called the panic index, and shows how this panic index is closely correlated to market volatility, the decline of returns for small investors and the rising profits in the financial industry. He concludes by offering a series of recommendations that can strengthen financial markets and leave them less prone to manipulation. Throughout the book, readers are provided with the necessary economic tools to enable them to understand the current market turmoil, and the author makes the case for the value of an economically literate society.

[The Fables of Jean de la Fontaine: Bilingual Edition: English-French, Jean de La Fontaine](#) , 2013, . Jean de La Fontaine was one of the most widely read French poets of the 17th century. Born in Chteau-Thierry in 1621, his literary career did not truly begin until he was in his thirties and spending most of his time in the French capital, Paris. Among La Fontaines most famous works are his collections of fables, issued in several volumes between 1668 and 1694. The earliest of these books, from which the current collection was drawn, were mostly adapted from the works of Aesop, Babrius, and Phaedrus. La Fontaine initially wrote his rhyming fables for a sophisticated audience, but the poems were regarded as an excellent source of moral education for children and were used by educators and parents alike to instill proper values in their charges. La Fontaine died in Paris in 1695 at the age of 73. His remains now reside in the famous Pre Lachaise Cemetery. This bilingual edition of some of La Fontaines fables is designed to assist those learning French. The original English text appears on the left-hand pages of the book, with the corresponding French translation on the right-hand pages.

[Ovid in the Middle Ages, , James G. Clark, Frank T. Coulson, Kathryn L. McKinley](#) , 2011, 1107002052, 9781107002050.

Ovid is perhaps the most important surviving Latin poet and his work has influenced writers throughout the world. This volume presents a groundbreaking series of essays on his reception across the Middle Ages. The collection includes contributions from distinguished Ovidians as well as leading specialists in medieval Latin and vernacular literature, clerical and extra-clerical culture and medieval art, and addresses questions of manuscript and textual transmission, translation, adaptation and imitation. It also explores the intersecting cultural contexts of the schools (monastic and secular), courts and literate lay households. It elaborates the scale and scope of the enthusiasm for Ovid in medieval Europe, following readers of the canon from the Carolingian monasteries to the early schools of the Ile de France and on into clerical and curial milieux in Italy, Spain, the British Isles and even the Byzantine Empire.

[Warriors in the Mist: A Medieval Dark Fantasy, Susan D. Kalior](#) , 2007, 0979566312, 9780979566318. Medieval Dark Fantasy: An epic romance is featured in this masterfully written novel that takes place in the mystical, magical Dark Ages. Kamara Lania is a pacifistic priestess whose goal is to unite the realm with the divine love. Meanwhile, a violent self-serving warlord, Kayent Ketola, is acquiring dominion of the realm on his journey to become King. They are both thwarted by a supernatural being "The Cold One" who is consuming the world because good and evil in their extremes, always fall. Mystical interplay, characteristic of Shakespeare, throws the Priestess and the Warlord into a harrowing and complicated, even comical transformation where they each must become more like the other to save the world. This novel impassions the heart, unleashes laughter and pumps adrenaline. The plot erupts with mysticism, magic, and romance as the mystery unravels with unpredictable twists and turns in the spirit of Hitchcock, while richly exposing the psychology of the human struggle, highlighted by entanglements with supernatural beings. This novel promises to entertain and to lighten the darkest most secret corners of the hidden self, while imparting wisdom needed in today's world. Excerpt: She crawled carefully through dancing feet, under clanking swords, and a rain of blood. She heard whisking and whipping, thumps and thuds, grunts and groans, curses, prayers, and the blasting beat of a thousand hearts, the world yet spinning round and round. She prayed the warriors would be too engaged in battle to bother with her. Her gown kept catching under her knees, pulling the neck down around her shoulders. Metal feet slammed down around her. Something wet poured over her neck and dripped down her skin curving around her throat. It smelled like blood. However, everything reeked of blood. She kept moving, forbidding tears, wishing she'd drank a second glass of

wine, for the elixir seemed to distance her somewhat from the horrors she normally felt. Ahead, on the outskirts of the battle, she glimpsed a lone oak tree ahead of her, looming there, a live thing, like a mother bidding her to come and fall upon her breast. Thinking only of the tree, the tree, the beautiful tree, she found herself more quickly there. She dropped her shoulder against the fragrant bark, and curled into a tight ball, very still, afraid to move, lest a knife come flying at her, the way Kayent had once told her it could. Her eyes were closed, but the image of swords and bludgeoned bodies flashed erratically in her mind. This battle was like the one in her nightmare: warriors, swords, arrows, blood; and she curled against a tree in a dirty white gown, trembling. Would The Cold One appear next? Her arm was snatched. Someone pulled her forward so swiftly, she felt like a shooting star. Her vision blurred, so fast they did run. When they stopped, she fell to her hands and knees in the thick foliage, panting hard with burning lungs. Someone stood next to her. Would she now behold The Cold One? What was, was; and what was to be, was to be. She could not change it, so she sat back on her knees and looked up to see dust covered leather pants, and a sword dripping blood. Raising her eyes further, she saw Kayent 's face. It was Kayent who towered over her! Her hand flew to her heart. "You aren't The Cold One." He squatted, resting the sword over his knees. "I don't know about that."

Now, in "Deliver!, " the third book in a series about what's new and really works in business, he shows how to leverage the rich treasure of potential competitive advantage that's hiding in plain view: "your operations." "Deliver!" presents five original, chapter-length case studies of organizations performing at levels that were once viewed as impossible. They range from Campbell's Soup to the U.S. Navy. Their offerings range from industrial tools to premium California wine. What do they share in common? Their success hasn't been grounded in breakthrough strategy: It's built on goals, discipline, details... "and""the grittiness of everyday execution." In an era of highly constrained resources, these organizations offer you the most realistic path to sustainable success: "Increase operational efficiency. Drive real savings. And use those savings not merely to "maintain" your competitive position, but to drive it forward." DRIVE GROWTH & PROFITS THROUGH BETTER OPERATIONS...- How Jarden pays for breakthrough R&D with constant operational innovation - How the U.S. Navy torpedoed cost overruns through huge-scale continuous improvement- How Actuant quadrupled annual sales by building a Lean Enterprise - How Campbell Soup's 10-year recovery plan is revitalizing core businesses- How Clos du Bois combined elegance and efficiency, more mechanization. and better quality

This book is a true story about a lady who experienced rejection at 4 years old and not by a stranger but by her mother. She grew up feeling abandoned, suicidal, depressed most of the time and had very low self-esteem. She had not been able to cry publicly for over 32 years of her teenage and adult life due to the many tears she shed at 4 years old. However, she had a divine revelation from the Holy Spirit one evening in October 2003 right after she had been bombarded with thoughts to end her life by pulling out in front of an 18-wheeler truck. She ignored the voice and made it to her destination where she was immediately told by the Holy Spirit to get a pen and some paper and write what she heard. This is an awesome story of an OVERCOMER in life!!!

"Freshwaters worldwide continue to be severely degraded by human activities, and urgent government action is needed. Angela Arthington is perfectly equipped to advise how to design environmental flows that sustain the biodiversity and ecosystem services provided by our priceless rivers."--Colin Townsend, University of Otago, New Zealand "Professor Arthington is a widely respected and acknowledged leader on environmental flows. Her book is an exceptional compilation and state-of-the-science overview of the subject. Well-written and easy to understand, it is essential reading for educators, scientists, practitioners, and decision-makers addressing river-related flow issues."--Robert J. Naiman, author of *Riparia: Ecology, Conservation, and Management of Streamside Communities* "Environmental Flows is a great gift to rivers and to people striving to protect and restore them. Arthington provides a masterful synthesis of the science and practice of environmental flows--and why their implementation is so urgently needed. Environmental Flows is a must-read for all involved with river science and management, from hydrologists and ecologists to engineers and resource managers. Educators and students will find it invaluable."--Sandra Postel, co-author of *Rivers for Life: Managing Water for People and Nature* "Arthington's life work on understanding riverine ecosystems has produced this knowledgeable, accessible, and insightful book. It gives us hope that our 'enormous human adaptive capacity and the power of innovative science' will help us tackle the urgent and complex problems caused by climate change. *Environmental Flows* is for scientists, students, policy-makers, and water managers; indeed, it is a book for all who work toward protecting healthy ecosystems for ourselves and future generations."--Poh-Ling Tan, International WaterCentre Professor of Water Law and Governance "Managing water to balance direct human use (drinking supply, agriculture, power, and industry) and indirect use (water for river and wetland ecosystems) is a major challenge. Angela Arthington employed her exceptional knowledge and experience to guide us through a complex cross-disciplinary examination of environmental flows to create an indispensable text for people interested in managing and conserving our rivers."--Michael C. Gender, generations, and lineage; faith, hope, and justice; gifts, duties, and debts; affection, responsibility, and generativity; values, secrets, and objectives; transmissions and transitions: these are the primary themes of family. They refer to what the family relationship builds in terms of organizational structure, motives, and objectives. Family assumes different forms and attire according to culture and the passage of time, but there are seeds that pass constantly through the millstone of family relationships and make up its identity. Family Identity: Ties, Symbols, and Transitions is the fruit of many years of research, and of the fertile exchanges with researchers all over the world, through personal contact as well as through their writings. The aim of this volume is to bring into focus all the many themes that help to construct family identity. It provides a conceptualization of the family that is both fresh and traditional. This book will appeal to researchers and students in family studies, developmental psychology, social psychology, and clinical psychology.

[The Grave, James Heneghan](#) , 2002, 0440229480, 9780440229483. "Thirteen-year-old Tom, an unhappy foster child in Liverpool, falls into a massive open grave and is transported to Ireland in 1847 in the middle of the deadly potato famine. Thirteen-year-old Tom Mullen has always been alone, moving about from one disastrous foster home situation to another. He has never known the true meaning of family love. When he hears that a mass grave has been unearthed on his school grounds, he feels drawn to the grave, pulled toward it, but can't explain why. "I sucked in a deep breath to try and calm my bursting chest. The smell from the open grave wasn't bad the way you'd expect from so many dead people. . . . But it wasn't the smell that got to me, it was the feeling that something in the black pit was calling and reaching out

to me, pulling me, that same urge again, the one I'd been getting for the past couple of days, but stronger now and more powerful. It terrified me, if you really want to know the truth. The truth is Tom's life is about to change forever.

We all need help in coping with fear. In this small but powerful book, authors Sarah Quigley and Marilyn Shroyer interviewed over 100 people ages five through eighty-five and distilled their wisdom about fear. The Little Book of Courage guides readers step by step through a threefold process of facing, feeling, and transforming fear and anxiety. Through personal stories, inspiring quotes, and practical suggestions, readers learn that fear is simply a message, not a monster, and that it can be transformed into "courage, kindness, compassion, wisdom, love, patience, serenity, calm awareness, or acceptance."

[Church Girls Are Easy, Eufitis Emery](#) , 2011, 0984656359, 9780984656356. Here we are again and welcome. Have you missed me? I am very pleased with how I have progressed as a writer and I hope that it shows in the books that I so happily write for all of you. I want to thank everyone that has contacted me with kind words telling me how much you like my work and I hope that you continue to enjoy it. Please write me a book review for each one of my books that you read and tell all of your friends. In this book I talk about church girls. Specifically, the sanctified folk. I don't have a problem with organized religion in general mind you. Just the hypocrites who point a finger at everything that they think you're doing wrong when they are doing the same thing. I find that the worst out of the hypocrite lot are the hoers of the church. Now don't get me wrong... I...love... a good ho. They make the world a better place. Yes they do. However, church hoers I can't stand because they will suck you dry, wipe their mouth, and then chastise you for letting them suck your dick. Getting busy with a church ho can become very tiring if you do it long-term. So if you're going to get busy with one do so sparingly. Just every once and awhile because it'll be a major headache each and every time you get it. Although if a church girl is fine I'll take advantage of them in a minute to fill up one or more of their holes. In a way I feel kind of sorry for them because in a sense they have split personalities. Split on one side being a wannabee slut and a virtuous non-physical being on the other. The two just don't go together which is why they have such bi-polar behavior. Thus this story with a particular church girl that I had the pleasure to get to know. Well partial pleasure because she was on that church girl bullshit. Anyway, I hope you enjoy it.

Today's emerging strategic partnership between Russia and China is of profound significance for the United States. Yet

Moscow and Beijing have a centuries-old history of competition and cooperation, the legacy of which will profoundly shape the outcome of the current Sino-Russian strategic entente. *Empires of the Steppe - Russia and China: From Antiquity to 1912*, by AFPC China Reform Monitor editor Al Santoli, explores the intricate interplay between the two countries' competing foreign policies, strategic agendas, and political interests throughout history. This important work is the first in the American Foreign Policy Council's five-monograph series on Sino-Russian relations.
