Thirty-seven-year-old American journalist Sally Goodchild quite literally married her hero. Both foreign correspondents, both on assignment in Cairo, they quickly fell in love and settled into domestic life in London. From the outset, Sally's relationship with both Tony and his hometown was an uneasy one as she found both to be far more unfamiliar than imagined. But her adjustment problems are soon overshadowed by a troubled pregnancy. When

she goes into premature labor, there are doubts whether her child will survive unscathed. And then, out of nowhere, Sally is hit by an appalling postpartum depressiona descent into a temporary, but very personal hell, which even sees her articulating a homicidal thought against her baby. However, when she does manage to extricate herself from this desperate state, she finds herself in a fresh new nightmare, as she discovers that the man she thought knew her better than anyone loved her more than anyone now considers her an unfit mother and wants to bar her from ever seeing her child again.

[Tibet: Writings on History and Politics, Parshotam Mehra](#) , 2011, 019806862X, 9780198068624. Drawing from a wide range of scholarship from mid-nineteenth to early twentieth century, this book looks at the history and politics of Tibet from a fresh perspective. Addressing the current debates on Tibet with intense academic rigour, the author is able to focus on the issues of autonomy, the exodus of Tibetan refugees both to India and across the globe, human rights, and India's role vis--vis Tibet. He juxtaposes contemporary literature on Tibet against analyses of its history and politics. He examines both the institutions of the Dalai Lama and Panchen Lama as well as Tibet's ties with Imperial China, Communist China, the former British rulers of India, and the Tsars of Russia. In doing so, he uncovers the various complexities of the current debates on Tibet. This volume is crucial as it boldly takes up the question of Tibetan sovereignty and the possible direction of conflict resolution in this disputed land.

[Human liberty and freedom of speech, C. Edwin Baker](#) , 1989, 0195057775, 9780195057775. Although an inchoate liberty theory of freedom of speech has deep roots in Supreme Court decisions and political history, it has been overshadowed in judicial decisions and scholarly commentary by the marketplace of ideas theory. In this book, Baker critiques the assumptions required by the marketplace of ideas theory and develops the liberty theory, showing its philosophical soundness, persuasiveness, and ability to protect free speech. He argues that First Amendment liberty rights (as well as Fourteenth Amendment equality rights) required by political or moral theory are central to the possibility of progressive change. Problem areas are examined, including the question of whether individual political and

civil rights can in principle be distinguished from property rights, freedom of the press, and the use of public spaces for expressive purposes.

[Leading Change in a Web 2.1 World: How ChangeCasting Builds Trust, Creates Understanding, and Accelerates](#)

[Organizational Change, Jackson A. Nickerson](#) , 2010, 0815704852, 9780815704850. Recent advances in Web 2.0

technology enable new leadership processes and guidelines that can create great value for organizations. In this

important new book --the first title in the new Brookings series on Innovations in Leadership --management expert

Jackson Nickerson proposes a combination of processes and guidelines utilizing Web 2.0 technology, which he refers to

as Web 2.1, that will not only lead and direct change in an organization but actually accelerate it. He calls this set of

processes and guidelines "ChangeCasting," and it should be an important part of any organization's leadership toolkit.

"Leading Change in a Web 2.1 World" provides fresh insights into why people and organizations are so difficult to engage

in change. It explains how web-based video communications, when used in accordance with ChangeCasting principles,

can be a keyway to building trust and creating understanding in an organization, thereby unlocking and accelerating

organizational change. Nickerson introduces us to two Fortune 1000 firms facing dire economic and competitive

circumstances. Both CEOs attempted extensive organizational change using web-based video communications, but one

used ChangeCasting while the other did not --Nickerson details how ChangeCasting produced positive financial results for

the former. He also discusses how ChangeCasting principles were used so successfully by the Barack Obama presidential

campaign in 2008. The insights presented here will be invaluable to business executives, public officials, students of

management and organizations, and anyone who needs to take organizational change from the drawing board to

successful implementation and replication.

9780195042313. How has television affected our everyday experience? This question has generated endless arguments

and speculations, but no thinker has addressed the issue with such force and originality as Joshua Meyrowitz in No Sense

of Place. Advancing a daring and sophisticated theory, Meyrowitz shows how television and other electronic media create

new social situations that are no longer shaped by where we are or who is "with" us. While other media experts have

limited the debate to program content, Meyrowitz focuses on the ways in which television has rearranged "who knows

what about whom," making it impossible for us to behave with each other in traditional ways. He shows how television

has lifted many of the veils of secrecy between children and adults, men and women, and politicians and average

citizens. The result is a series of revolutionary changes, including the blurring of age, gender, and authority distinctions.

[Fact-Finding without Facts: The Uncertain Evidentiary Foundations of International Criminal Convictions, Nancy A. Combs](#) , 2010, 1139489712, 9781139489713. Fact-Finding Without Facts explores international criminal fact-finding - empirically, conceptually, and normatively. After reviewing thousands of pages of transcripts from various international criminal tribunals, the author reveals that international criminal trials are beset by numerous and severe fact-finding impediments that substantially impair the tribunals' ability to determine who did what to whom. These fact-finding impediments have heretofore received virtually no publicity, let alone scholarly treatment, and they are deeply troubling not only because they raise grave concerns about the accuracy of the judgments currently being issued but because they can be expected to similarly impair the next generation of international trials that will be held at the International Criminal Court. After setting forth her empirical findings, the author considers their conceptual and normative implications. The author concludes that international criminal tribunals purport a fact-finding competence that they do not possess and, as a consequence, base their judgments on a less precise, more amorphous method of fact-finding than they publicly acknowledge.

[Life Lines: Community, Family, and Assimilation Among Asian Indian Immigrants, Jean Leslie Bacon](#) , 1996, 0195099737, 9780195099737. Asian Indians figure prominently among the educated, middle class subset of contemporary immigrants. They move quickly into residences, jobs, and lifestyles that provide little opportunity with fellow migrants, yet they continue to see themselves as a distinctive community within contemporary American society. In Life Lines Bacon chronicles the creation of a community--Indian-born parents and their children living in the Chicago metropolitan area--bound by neither geographic proximity, nor institutional ties, and explores the processes through which ethnic identity is transmitted to the next generation. Bacon's study centers upon the engrossing portraits of five immigrant families, each one a complex tapestry woven from the distinctive voices of its family members. Both extensive field work among community organizations and analyses of ethnic media help Bacon expose the complicated interplay between the private social interactions of family life and the stylized rhetoric of "Indianness" that permeates public life. This inventive analysis suggests that the process of assimilation which these families undergo parallels the assimilation process experienced by anyone who conceives of him or herself as a member of a distinctive community in search of a place in American society.

[Beyond Atonement, Marie von Ebner-Eschenbach](#) , 1997, 1571131132, 9781571131133. Marie von Ebner-Eschenbach (1830-1916) was celebrated even in her own lifetime as Austria's foremost nineteenth-century woman writer. Beyond Atonement (Unshnbar, 1889), loosely based on an actual event in a high-class Austrian family, is a novel about adultery: Maria marries Hermann Dornach, though she is in love with Felix Tessin; two years later, she commits adultery with Tessin, conceiving a child whom she alone knows to be illegitimate; when her husband and their legitimate son die in an accident, she reveals her infidelity. Her unforgiving family and her own remorse set Maria apart from the protagonists of other nineteenth-century novels of adultery such as Goethe's Elective Affinities and Tolstoy's Anna Karenina. Beyond Atonement is a companion piece to Ebner's best-known tale of village life, Their Pavel (Das Gemeindegeld), also

published by Camden House. Dr VANESSA VAN ORNAM is a translator for the city government of Berlin.

[Abraham Lincoln and the Second American Revolution, James M. McPherson](#) , 1991, 0199832056, 9780199832057.

James McPherson has emerged as one of America's finest historians. *Battle Cry of Freedom*, his Pulitzer Prize-winning account of the Civil War, was a national bestseller that Hugh Brogan, in *The New York Times Book Review*, called "history writing of the highest order." In that volume, McPherson gathered in the broad sweep of events, the political, social, and cultural forces at work during the Civil War era. Now, in *Abraham Lincoln and the Second American Revolution*, he offers a series of thoughtful and engaging essays on aspects of Lincoln and the war that have rarely been discussed in depth. McPherson again displays his keen insight and sterling prose as he examines several critical themes in American history. He looks closely at the President's role as Commander-in-Chief of the Union forces, showing how Lincoln forged a national military strategy for victory. He explores the importance of Lincoln's great rhetorical skills, uncovering how--through parables and figurative language--he was uniquely able to communicate both the purpose of the war and a new meaning of liberty to the people of the North. In another section, McPherson examines the Civil War as a Second American Revolution, describing how the Republican Congress elected in 1860 passed an astonishing blitz of new laws

(rivaling the first hundred days of the New Deal), and how the war not only destroyed the social structure of the old South, but radically altered the balance of power in America, ending 70 years of Southern power in the national government. The Civil War was the single most transforming and defining experience in American history, and Abraham Lincoln remains the most important figure in the pantheon of our mythology. These graceful essays, written by one of America's leading historians, offer fresh and unusual perspectives on both.

These, along with the introduction of the oral contraceptive, have altered all of our lives. There has also been an increase in the recreational use and abuse of drugs in the Western world. The book reviews both legal (alcohol, nicotine, and caffeine) and illegal drugs and discusses current ideas about why some are addictive, and whether drug laws need reform. Since the end of the Iran-Iraq war in the 1980s, conflict in the Middle East has been increasingly wrought with internal struggles, driven by ethnic, inter-communal, and religious differences. Islamic radicalism has grown as an internal threat, and foreign intervention is now a potential catalyst. Since 1990, the Middle East has twice witnessed the introduction of foreign armies, first to halt Iraqi expansionism, and more recently, to bring about regime change in Iraq. This perfect storm of factors has brought about a heightened level of instability, with numerous conflicts simmering in hot spots throughout the region. Explosive, in-depth chapters explore each conflict or latent conflict, including the history, the nature of the conflict, the factors involved, and any steps toward resolution. Hot spots covered include: The movement for Berber rights in Morocco; Shi'a opposition in Bahrain; Iraqi civil war and internal struggle for power; Iran's interstate conflict with the United States; and Islamic insurgency throughout the region. This volume is a must-have for up-to-the-minute coverage of hot spots in one of the world's most volatile regions.

[Trade in Goods, Petros Mavroidis](#) , 2012, 0191636606, 9780191636608. This new edition of Trade in Goods is an authoritative work on international trade by one of the most influential scholars in the field. It provides a comprehensive and detailed analysis of every WTO agreement dealing with trade in goods. The focus of the book is on the reasoning behind the various WTO agreements and their provisions, and the manner in which they have been understood in practice. It introduces both the historic as well as the economic rationale for the emergence of the multilateral trading system, before dealing with WTO practice in all areas involving trade in goods. It contests the claim that the international trade agreements themselves represent 'incomplete contracts', realized through interpretation by the WTO and other judicial bodies. The book comprehensively analyses the WTO's case law, and it argues that a more rigorous theoretical

approach is needed to ensure a greater coherence in the interpretation of the core provisions regulating trade in goods. This second edition readdresses and moves beyond the discussion of the GATT presented in the first edition to assess in significant detail every trade in goods agreement at the WTO, both multilateral as well as plurilateral. The book is written to be accessible to those new to the field, with an authoritative level of detail and analysis that makes it essential reading for lawyers and economists alike.

[The Golem's Mighty Swing, James Sturm](#) , 2003, 1896597718, 9781896597713. James Sturm pens this richly evocative graphic novel set in the 1920s. The Stars of David, a barnstorming Jewish baseball team, travel from town to town earning a living by playing local squads. They all sport beards, a gimmick to attract patrons but when financial difficulties threaten to end their season they cast their lot with a Chicago promoter who has just seen the hugely successful German silent film Der Golem... With the golem, a baseball game is transformed into a mythical pageant. Fear and curiosity fills the stadium, but it also stokes the flames of anti-Semitism. Winning the game for the Stars of David becomes less important than surviving it. With a sepia-tinted cinematic style, this compelling book reminds us that making it home is at the heart of baseball.

[From Tradition to Gospel, Martin Dibelius](#) , 1971, 0227677528, 9780227677520. "The method of Formgeschichte seeks to help in answering the historical questions as to the nature and trustworthiness of our knowledge of Jesus, and also in

solving a theological problem properly so-called. It shows in what way the earliest testimony about Jesus was interwoven with the earliest testimony about the salvation which had appeared in Jesus Christ. Thereby it attempts to emphasise and illuminate the chief elements of the message upon which Christianity was founded." From the Author's Preface Ably translated by Bertram Lee Woolf, this is the classic exposition of the German school of theology known as Formgeschichte or the criticism of literary form, which through literary and historical analysis seeks to understand the origins of the traditions of the New Testament, and in so doing bring to light the original intentions and interests of those earliest traditions.

[World Enough: Poems, Maureen N. McLane](#) , 2011, 0374532788, 9780374532789. In *World Enough*, Maureen N. McLane maps a universe of feeling and thought via skylines, city strolls, lunar vistas, and passages through environments given and built. These poems explore how we come to know ourselves sensually, intellectually, politically, biologically, historically, and anthropologically. Moving from the most delicate address to the broadest salutation, *World Enough* takes us from New England to New York to France to the moon. McLane fuses song and critique, giving us poetry as musical thought, in Carlyle's phrase. Shuttling between idyll and disaster, between old forms and open experiments, these are restless, probing, exacting poems that aim to take the measure of and to give a measure for where we are. McLane moves through many forms and creates her own, invoking the French Revolution alongside convolutions of the heart and revolutions of the moon. Shifting effortlessly between the species and the self, between the sentient surround and the peculiar pulse within, *World Enough* attests to experience both singular and shared: not that I was alive / but that we were.

[Organizational Behaviour in a Global Context, Jean C. Helm Mills, John Bratton, Carolyn Forshaw](#) , 2006, 1551930579, 9781551930572. In today's world we rely on formal organizations for almost everything that we do. These organizations in turn shape our expectations of how people should behave. Whether our interaction with an organization is positive or negative will depend on the structure, character, and control of the organization. The text introduces and explains the central theories, concepts, and models of the field of organizational behaviour; at the same time, it advances the key ideas of competing paradigms, integrating many of their main issues. In this way *Organizational Behaviour in a Global Context* offers a unique view into twenty-first century organizations. Featured studies and cases of several major organizations including British Airways, Scandinavian Airlines System, Ontario Hospitals, Pfizer, the Catholic Church, Mountain Equipment Co-operative, Workbrain, Wal-Mart (and many others) allow the reader to understand the context in which to consider specific themes. These themes are also explored in separate chapters including chapters on gender at work and race/ethnicity in the workplace. Finally, the authors use current research to examine aspects of organizational behaviour from a gender, class, or race/ethnicity approach. An instructor's manual, available on CD-ROM, includes chapter-by-chapter PowerPoint presentations, a 500-question test bank, additional discussion questions, and previously unpublished case studies drawn from the Dark Side Competition (on Rwanda, Coca-Cola in India, Bhopal, and Nestle).

[Autos and Progress: The Brazilian Search for Modernity, Joel Wolfe](#) , 2009, 0199798745, 9780199798742. *Autos and Progress* reinterprets twentieth-century Brazilian history through automobiles, using them as a window for understanding the nation's struggle for modernity in the face of its massive geographical size, weak central government, and dependence on agricultural exports. Among the topics Wolfe touches upon are the first sports cars and elite

consumerism; intellectuals' embrace of cars as the key for transformation and unification of Brazil; Henry Ford's building of a company town in the Brazilian jungle; the creation of a transportation infrastructure; democratization and consumer culture; auto workers and their creation of a national political party; and the economic and environmental impact of autos on Brazil. This focus on Brazilians' fascination with automobiles and their reliance on auto production and consumption as keys to their economic and social transformation, explains how Brazil--which enshrined its belief in science and technology in its national slogan of Order and Progress--has differentiated itself from other Latin American nations. *Autos and Progress* engages key issues in Brazil around the meaning and role of race in society and also addresses several classic debates in Brazilian studies about the nature of Brazil's great size and diversity and how they shaped state-making.

[Deals from Hell: M&A Lessons that Rise Above the Ashes, Robert F. Bruner](#) , 2009, 0471737186, 9780471737186. A detailed look at the worst M&A deals ever and the lessons learned from them. It's common knowledge that about half of all merger and acquisition (M&A) transactions destroy value for the buyer's shareholders, and about three-quarters fall short of the expectations prevailing at the time the deal is announced. In *Deals from Hell*, Robert Bruner, one of the foremost thinkers and educators in this field, uncovers the real reasons for these mishaps by taking a closer look at twelve specific instances of M&A failure. Through these real-world examples, he shows readers what went wrong and why, and converts these examples into cautionary tales for executives who need to know how they can successfully navigate their own M&A deals. These page-turning business narratives in M&A failure provide much-needed guidance in this area of business. By addressing the key factors to M&A success and failure, this comprehensive guide illustrates the best ways to analyze, design, and implement M&A deals. Filled with in-depth insights, expert advice, and valuable lessons gleaned from other M&A transactions, *Deals from Hell* helps readers avoid the common pitfalls associated with this field and presents them with a clear framework for thinking about how to make any M&A transaction a success.

[Trap Lines, Eden Robinson](#) , 1996, 0805044469, 9780805044461. The menacing underside of family life is the subject of Eden Robinson's extraordinary debut collection. In crackling prose, Robinson describes homes ruled by bullies, psychopaths, and delinquents; families whose conflict resolution techniques range from grand theft to homicide; and kids

who just can't get a break. A young woman copes with her mother's history as a serial killer. A boy, who slowly realizes that his cousin is deranged, feels torn between the need to eat and the desire to resist his tormentor. Struggling with ambivalent loyalties, a teenager faces the choice of leaving home or staying with abusive, alcoholic parents. Told with icy clarity in the blackest of humors, *Traplines* offers an unsettling look at an urban landscape where the bizarre and twisted coexist naturally with the dull and normal. A master of psychological suspense, Eden Robinson guides us through a world where the fast food, banged-up cars, and grunge of modern adolescence barely camouflage the dark extremes of sex, fear, and desire.

[Broken Treaty: The Story of a Father's Covert Recovery of His Mission Son Out of Mexico,](#) , 2011, 0983826803, 9780983826804. After Steve Fenton's 6-year-old son is taken to Mexico and held illegally by his mother, Fenton is awarded custody by California courts. Then begins a months-long battle in which lawyers and diplomats on both sides of the border try to enforce the U.S. custody order. Under an international treaty to which both countries are a party, the Hague Convention, Mexican federal authorities make half-hearted attempts to recover the child. When it becomes clear

that legal means will never bring the boy home, Fenton takes matters into his own hands. Posing as tourists, he and a world renowned specialist in recovering missing children execute a plan that involves taking the missing boy from a school bus, and, after various car changes, flying out of Mexico in a single-engine plane after filing a false flight plan. Mexican officials apparently can move fast when they want to and when the plane landed in Brownsville, the Fenton and his son were soon met by the FBI and a Mexican consular official. The Mexicans very nearly had the boy returned after telling the FBI that automatic weapons were used to attack the school bus, that the plane had been commandeered and that the custody documents from California were false. This is the story of the rescue, of useless government bureaucrats on both sides of the border, and how the father and son and his then-fugitive mother dealt with the aftermath.

[Defending Humanity: When Force is Justified and Why, George P. Fletcher, Jens David Ohlin](#) , 2008, 0195183088, 9780195183085. In *Defending Humanity*, internationally acclaimed legal scholar George P. Fletcher and Jens David Ohlin, a leading expert on international criminal law, tackle one of the most important and controversial questions of our time: When is war justified? When a nation is attacked, few would deny that it has the right to respond with force. But what about preemptive and preventive wars, or crossing another state's border to stop genocide? Was Israel justified in initiating the Six Day War, and was NATO's intervention in Kosovo legal? What about the U.S. invasion of Iraq? In their provocative book, Fletcher and Ohlin offer a groundbreaking theory on the legality of war with clear guidelines for evaluating these interventions. The authors argue that much of the confusion on the subject stems from a persistent misunderstanding of the United Nations Charter. The Charter appears to be very clear on the use of military force: it is only allowed when authorized by the Security Council or in self-defense. Unfortunately, this has led to the problem of justifying force when the Security Council refuses to act or when self-defense is thought not to apply--and to the difficult dilemma of declaring such interventions illegal or ignoring the UN Charter altogether. Fletcher and Ohlin suggest that the answer lies in going back to the domestic criminal law concepts upon which the UN Charter was originally based, in particular, the concept of "legitimate defense," which encompasses not only self-defense but defense of others. Lost in the English-language version of the Charter but a vital part of the French and other non-English versions, the concept of legitimate defense will enable political leaders, courts, and scholars to see the solid basis under international law for states to intervene with force--not just to protect themselves against an imminent attack but also to defend other national groups.

Now he's also married to Cynthia, his vivacious next-door neighbor. For Father Tim, life in Mitford has never been so full of surprises. His wife is "aging" his already ancient kitchen walls, not to mention burning his draperies. The mountain boy he's learned to love as his own makes a heartrending decision. And the agony of mastering the church computer system is as boggling as the pandemonium that breaks loose when his quiet rectory becomes a nursery. All this, however, is small potatoes compared to what happens on a wilderness camping trip that sends him home a changed man. In *These High, Green Hills*, Jan Karon takes her readers on a heartwarming and hilarious visit to Mitford, where her lovable characters always inspire laughter, tears, and fresh hope.

Biblical Economics offers clear, straightforward, and biblically grounded explanations of the basic principles of economic activity. Dr. Sproul examines the many way in which God provides us with our daily bread and helps the reader discover certainty in uncertain times. -

[Awakening Children's Minds: How Parents and Teachers Can Make a Difference, Laura E. Berk](#) , 2001, 0199883734, 9780199883738. Parents and teachers today face a swirl of conflicting theories about child rearing and educational practice. Indeed, current guides are contradictory, oversimplified, and at odds with current scientific knowledge. Now, in *Awakening Children's Minds*, Laura Berk cuts through the confusion of competing theories, offering a new way of thinking about the roles of parents and teachers and how they can make a difference in children's lives. This is the first book to bring to a general audience, in lucid prose richly laced with examples, truly state-of-the-art thinking about child rearing and early education. Berk's central message is that parents and teachers contribute profoundly to the development of competent, caring, well-adjusted children. In particular, she argues that adult-child communication in shared activities is the wellspring of psychological development. These dialogues enhance language skills, reasoning ability, problem-solving strategies, the capacity to bring action under the control of thought, and the child's cultural and moral values. Berk explains how children weave the voices of more expert cultural members into dialogues with themselves. When puzzling, difficult, or stressful circumstances arise, children call on this private speech to guide and control their thinking and behavior. In addition to providing clear roles for parents and teachers, Berk also offers concrete suggestions for creating and evaluating quality educational environments--at home, in child care, in preschool, and in primary school--and addresses the unique challenges of helping children with special needs. Parents, Berk writes, need a consistent way of thinking about their role in children's lives, one that can guide them in making effective child-rearing decisions. *Awakening Children's Minds* gives us the basic guidance we need to raise caring, thoughtful, intelligent children.

The competition for Pamphlet Architecture 33 asked previous authors in the series to nominate the architects and theorists whose work represents the most exciting design and research in the field today. The second of two winning entries the first was published in Spring 2013 as PA 33 was submitted by architects and educators Perry Kulper and Nat Chard. Pamphlet Architecture 34 speculates on how architecture might discuss indeterminate conditions of production

through a generative agency of representation. Kulper and Chard explore the indeterminacy of architectural research through drawings that exceed the traditional drawing space. Located in two different countries, the authors communicate by shipping each drawing across geographical borders. As a result, the drawing acts, as a tactical and conversational medium, providing the architects with new opportunities for the confluence of the uncertain.

[Imperfect Spirituality: Extraordinary Enlightenment for Ordinary People, Polly Campbell](#) , 2013, 1936740273, 9781936740277. Pulling a raisin out of a two-year-olds nose probably wasnt on Buddhas path toward enlightenment, but it was one of the obstacles for author Polly Campbell. For many, stuck raisins and other real-life moments provide sometimes the only opportunity for spiritual growth in a day. Imperfect Spirituality shows readers how to integrate those every-day moments with traditional spiritual techniques to experience personal growth and greater well-being all in the course of your regular routine. Any activity can be transformed into a spiritual practice. Dont have a half-hour to meditate? Can't drop everything ala Elizabeth Gilbert and trek to Italy or India? Do a mini-meditation while stopped at a red light. Working to be mindful and present? Start by brushing your teeth. Imperfect Spirituality is filled with practical tips and dozens of examples like these, as well as anecdotes from real people who are striving to grow both spiritually and personally. Each chapter features fascinating research about how the mind body spirit connection really works as well as illuminating ,quotes, and informative, easy-to-do takeaways from leading-edge academic and spiritual experts who both study and practice the techniques explored in the book. Popular blogger and workshopper Polly Campbell, a favorite journalist for Daily Om and Psychology Today, emerges here as a fresh and important new voice in spirituality who offers a path to enlightenment for "the rest of us."

[Living on Angel Hair Pasta: How You CAN Live on a Thinner-Than-A-Shoestring Budget, Joy Elaine](#) , 2006, 0976791331, 9780976791331. Living on Angel Hair Pasta is a simplified guidebook to surviving on very little income. Unfortunately, many people today are financially struggling or in so much debt they do not have enough money coming in to pay their normal bills, let alone the ability to relieve their large debt load. Written by a true "Angel Hair Adventurer," this book teaches you how to live on a thinner-than-a-shoestring budget. You will not only stretch your money farther than you thought it would go, but will have extra to put toward your debt. Use the simple checklists at the end of each chapter to keep track of where you are in your own Angel Hair Adventure. An angel hair pasta budget is an interesting thing. You can chop it up to make it spread farther. You may need to "cook it" longer so it gets as fat as angel hair pasta can. Or you might have to stretch it until it nearly breaks. And what happens when you reach the bottom of the plate and there's no pasta left? You pray. Really, really hard. And somehow God will provide.

[The Unknown Gulag: The Lost World of Stalin's Special Settlements, Lynne Viola](#) , 2007, 0195187695, 9780195187694. One of Stalin's most heinous acts was the ruthless repression of millions of peasants in the early 1930s, an act that established the very foundations of the gulag. Solzhenitsyn barely touched upon this brutal episode in his magisterial Gulag Archipelago and subsequent writers passed over the subject in silence. Now, with the opening of Soviet archives, an entirely new dimension of Stalin's brutality has been uncovered. The Unknown Gulag is the first book in English to explore this untold story. Historian Lynne Viola reveals how, in one of the most egregious episodes of Soviet repression, Stalin drove two million peasants into internal exile, to work as forced laborers. The book shows how entire families were callously thrown out of their homes, banished from their villages, and sent to the icy hinterlands of the Soviet Union, where in the course of a decade, almost a half million would die as a result of disease, starvation, or exhaustion. Drawing on pioneering research in the previously closed archives of the central and provincial Communist Party, the Soviet state, and the secret police, Viola documents the history of this tragic episode. She delves into what long remained an entirely hidden world within the gulag, throwing new light on Stalin's consolidation of power, the rise of the secret police as a state within the state, and the complex workings of the Soviet system. But first and foremost, she movingly captures the day-to-day life of Stalin's first victims, telling the stories of the peasant families who experienced one of the twentieth century's most horrific instances of mass repression. A compelling story of human suffering and survival in Stalin's Soviet Union, here is a new chapter in the history of the gulag, virtually hidden from sight until now.

[, Ghazali](#) , 2005, 0946621624, 9780946621620. 'Work for your terrestrial life in proportion to your location in it, and work for your afterlife in proportion to your eternity in it.' This is part of the advice that the great theologian and mystic Abu Hamid al-Ghazali (1058-1111 AD) put down in his Letter to a Disciple. An old disciple of al-Ghazali had studied the Islamic sciences, including the many works of his master, for most of his life. Faced with the proximity of death, he turns again to his master this time asking for a summary of all his teachings. Letter to a Disciple is al-Ghazali's response. The emphasis in this short treatise is on religious and spiritual action and on putting into practice the knowledge that one has acquired. Letter to a Disciple can be considered as the last testament of he who is regarded as Hujjat al-Islam, the 'Proof of Islam'. This new translation is presented here as a bilingual, English-Arabic, edition.

[Kissin' Hell Goodbye, Charlotte Russell Johnson](#) , 2010, 0974189375, 9780974189376. Kissin' Hell Goodbye is the eighth book in author Charlotte Johnson's series of motivational texts. This book is the well awaited return to the lives of Charlotte and Buck that has been anticipated since book five in the series, Mama May I. This time when we return to Charlotte and Buck, the readers learn that they have not obtained the idyllic happy ending longed for by all true romantics. Dr. Johnson introduces the audience to a new and explosive literary technique. Rather than simply describing the emotions of her characters, she uses the poetry in songs to convey their feelings and inner turmoil, specific plot points, and to weave together the entire drama. This is a very pithy way of providing the reader knowledge about the character's feelings while invoking an emotional response from them based on their own past experiences with the songs in the book. Puritanical, conventional, and conservative readers may be shocked and tempted to focus on the weaknesses and flaws of the central characters. By having their own past experiences and emotions stimulated by song, it allows the reader to show grace and mercy to the characters because they also have felt or been weak, vulnerable, or in love. The love shared by Charlotte and Buck is so persistent despite their challenges and the disapproval of their families that inevitably Shakespeare's Romeo and Juliet comes to mind. A love that has the potential to flourish beautifully continues to be denied, tragically. Unlike Romeo and Juliet, these lovers complicate their own romance as much as their well intentioned families. The reader will enjoy this very passionate, provocative, chaotic, and sensual love.

If you are looking for a safe romance, this is not the book. These lovers are as refreshing, evocative, and as shocking as Janie and Teacake in Zora Neale Hurston's *Their Eyes Were Watching God*. The powerful intoxicating nature of the kiss in both books is a strong symbol. The theme of a woman giving up and risking everything to defy society's conventional beliefs, roles, norms, and mores in order to experience life and love is essential in both books. This is an opportunity to experience an exhilarating and passionate love that defies the reason and understanding of others, but leaves the couple feeling ecstatic and aware of the importance of living and loving in a wild, reckless, and carefree manner even if it ends. You will examine yourself to see if you have had a true love or just a lover. They say it is better to have loved and lost than never to have loved at all. After reading this book, I wonder if experiencing love can ever really be considered a loss. Love persists even in separation. The experience leaves us enriched and changed. Dr. Johnson continues to offer Biblical teaching by using her own life as an example of the struggles we all face on the road to salvation. This is an excellent book for those who have loved, are in love, yearn to love and be loved, or are seeking to rekindle love. It deals with the themes of overcoming adversity and familial pressure. Dr. Johnson shares in a way that is rarely done by public or religious leaders. She is open in order to teach others about God's willingness to love and use imperfect people so that He gets the glory. I implore readers to remember that all have sinned and fallen short of God's glory.

[Against the Odds: Politicians, Institutions and the Struggle Against Poverty, Marcus Andre Melo, Njuguna Ng'ethe, James Manor](#) , 2012, 0199327459, 9780199327454. Against the Odds is a Machiavellian study of the machinations of three senior politicians in quite different developing countries who adroitly played the tough political game in ways that reduced poverty. The three--former President Fernando Henrique Cardoso of Brazil, President Yoweri Museveni of Uganda, and

Chief Minister Digvijay Singh in the Indian state of Madhya Pradesh--had scarcely heard of one another, and never communicated. And yet they used a broadly similar repertoire of political devices - persuasion, distractions, bargaining, stealth and pressure - to pursue broadly similar goals. They demonstrated two crucial things: poverty reduction is politically feasible, even in the teeth of daunting economic and political constraints; and it is politically beneficial to those who achieve it, since it enhances their popularity, legitimacy and influence. If leaders in other developing countries who are naturally preoccupied with their own political interests recognise these things, then serious efforts to reduce poverty will become more common elsewhere.

Drawing on a wealth of new material and featuring a thoughtful synthesis of historical and archaeological approaches, Wickham argues that these centuries were critical in the formulation of European identity. From Ireland to Constantinople, the Baltic to the Mediterranean, the narrative constructs a vivid portrait of the vast and varied world of Goths, Franks, Vandals, Arabs, Saxons, and Vikings. Groundbreaking and full of fascinating revelations, The Inheritance of Rome offers a fresh understanding of the crucible in which Europe would ultimately be created.

[Thomas Moran: The Field Sketches, 1856-1923, Thomas Moran, Anne Morand](#) , 1996, 080612704X, 9780806127040. This extensively revised edition of Thurman Wilkins's masterful and engaging biography - well illustrated in color and black-and-white - draws on new information and recent scholarship to place Thomas Moran more securely in the milieu of the Gilded Age. It also portrays more fully the controversies that surrounded the art of Moran's time, as he became "the Dean of American Painters."The American West was the subject of Thomas Moran's greatest artistic triumphs - Yosemite, the Grand Canyon of the Colorado, Zion Canyon, the Virgin River, Colorado's Mountain of the Holy Cross, and the Grand Tetons - but his travels with Ferdinand V. Hayden's geological surveys of the Upper Yellowstone were matched by trips to his native Britain and to Venice, Florida, the Spanish Southwest, and Old Mexico. These scenes inspired memorable landscapes and seascapes, as did the sojourns of the Moran family in Pennsylvania, New Jersey, and East

Hampton, Long Island, when they retreated from the demands of the New York art scene. In the 1880s Moran and his artist wife, Mary Nimmo Moran, also threw themselves into the etching craze of the period, creating some of the finest prints produced in the United States. Moran was an artist happy in his work. He wrote, "I have always held that the grandest, most beautiful, or wonderful in nature, would, in capable hands, make the grandest, most beautiful, or wonderful pictures." The New York Times said of the first edition of this unique account of his life, "Moran's mastery comes through clearly and awesomely and often, pleasurably." Readers will find the new edition equally enjoyable.

[New Beginnings: The Skirball Museum Collections and Inaugural Exhibition, Skirball Museum](#) , 1996, 0965164004, 9780965164009. In 1996 The Skirball Museum in Los Angeles opens its doors to a new era. Now the central component of the recently completed Skirball Cultural Center, the museum is home to one of the most significant Judaica art collections in the Western Hemisphere, which encompasses four thousand years of Jewish historical experience. Full-color illustrations showing objects from each of the museum's collection categories are accompanied by essays explaining the significance of the art. The museum's long-term inaugural exhibition, Visions and Values: Jewish Life from Antiquity to America, and the ancient Near Eastern history and archaeology exhibits of the Discovery Center are also documented in this comprehensive book. The museum preserves more than 25,000 objects that reveal much about daily life, beliefs, customs, worship, human yearnings, and artistic achievement from biblical to contemporary times. They reflect Jewish life in virtually every corner of the globe as well as the museum's commitment to exploring American Jewish life in the context of American society as a whole. Over the years the Skirball Museum has continually expanded its meaning and purpose in a changing world. The reshaping and reopening of this valuable repository of Jewish cultural history in the Skirball Cultural Center is a signal event for art historians and Judaica scholars, and it also offers rich learning opportunities for anyone seeking to understand the human spirit through art.

[Biological Diversity: Exploiters and Exploited, Paul Hatcher, Nick Battey](#) , 2011, 0470979860, 9780470979860. Biological Diversity takes a fresh, innovative approach to the teaching of biodiversity. Rather than detailing and cataloguing the major taxa and their evolutionary relationships, the authors have selected 18 groups of organisms and used these as a framework in which to discuss the species and their interactions with man and each other. There is a strong narrative theme throughout the exploited and the exploiters - and, in many cases, there is emphasis on the historical context. A wide range of organisms are covered, from the unicellular to birds and mammals and with an equal consideration of plants and animals. Species have been chosen for their ability to best illustrate particular biological principles, and for their strong interaction with other species. After an introduction the book is divided into two parts: Exploited and Exploiters. Each of the chapters, although linked to each other, forms a stand-alone essay. They are scientifically rigorous, up-to-date and do not shy away from addressing some controversial issues. Chapters have text boxes highlighting important issues and concepts, lists of further reading and references. In addition to tables and figures the book has a selection of original illustrations drawn by leading artist Steven Appleby. This fresh approach will appeal to all those interested in the biological sciences, and aims to be accessible to people with a diversity of backgrounds. It will prove particularly useful to biology students, enabling them to get to grips with important biological principles and concepts that underpin the diversity of life, and the interrelationship of humans with other groups of organisms.
