[Everything Arrives at the Light, Lorna Crozier](#) , 1995, 0771024797, 9780771024795. Lorna Crozier's new collection contains a community of poems whose words are lit from within. The book is a home that holds children and adults, the living and the dead. It is a brilliant gathering of poems with a richly dark seam of terrors, populated with lovers, friends,

and relations both difficult and dear. Among its other loves are mimulus, prickly pear, a cockatoo, a stallion, lilacs, literal and magical, Waskesieu, and carpenter ants in leather aprons. Details, surfaces, shine in these poems which are nevertheless obsessed with the invisible. They move with great tenderness through the luminous quotidian, and, still deeply respecting the literal, shift into myth. The breadth and warmth of Everything Arrives at the Light will confirm and extend Lorna Crozier's reputation as one of Canada's most popular and accomplished poets.

[Beyond Brawn: The Insider's Encyclopedia on How to Build Muscle & Might, Stuart McRobert](#) , 2012, 9963916384, 9789963916382. 'Beyond Brawn' is one of the all-time finest bodybuilding books, now in its third edition. It's the same as the second edition except for hundreds of changes in the details of the content, together with hundreds of minor changes in style. As a result, the third edition is even more complete, up-to-date and readable than the earlier editions. But the substance of the third edition is the same as for the earlier editions. So, any reviews you read of the first and second editions of 'Beyond Brawn' are still applicable to the third edition. 'Beyond Brawn' is 512 pages and 23 chapters of information about every facet of bodybuilding, and strength training in general. This book is not just for novices. It can save you years of wasted toil regardless of your level of training experience. It will propel you into the detailed, practical know-how needed to turn you into an expertly informed bodybuilder or strength trainee. The book will take you right "inside" weight training, to study the practical reality of applying knowledge. It is not a theoretical treatise, or a pack of pseudo-scientific hokum. By acknowledging the individuality of each person, this book teaches people precisely how to become their own expert personal trainers. Whether readers are male or female, beginners or very advanced, young or not-so-young, want to train at home or in a public gym, this book offers outstanding guidance. The famous deadlift cycle that Stuart did, which culminated in 400 pounds for 20 reps, is detailed in Chapter 17.

[Return of the Revolutionaries: The Case for Reincarnation and Soul Groups Reunited, Walter Semkiw](#) , 2003, 1612832857, 9781612832852. Two hundred and twenty-five years ago a political revolution took place in this country which swept power from the English monarchy and gave it to the people of the New World. Today, a spiritual revolution is underway in which spiritual power and responsibility are passing from institution to individuals. You'll be shocked to learn that the same people are at the heart of both world-changing movements. John Adams, Thomas Paine, Samuel Adams, the justices of the first Supreme Court and numerous other American Revolutionaries have been reincarnated as the political and spiritual leaders of today, including George W. Bush, Bill Clinton, Al Gore, Marianne Williamson, Shirley MacLaine, and others. Semkiw presents ample evidence that physical appearance, character traits, modes of thinking and expression, as well as family and karmic groups, often stay the same from lifetime to lifetime. He's also included photographs demonstrating the startling physical similarities the individuals of the American Revolution share with today's

revolutionaries. As further support of the basic premise and reality of reincarnation, Semkiw has included Dr. Ian Stevenson's groundbreaking findings of children who report past lives, as well as other case studies of individuals who have researched and written on their own past lives. Discusses new research into using DNA to prove reincarnation. Find out how physical appearance, character traits, synchronistic events, karmic groups, and spiritual guidance can be used to detect one's past lives. Includes numerous black & white photographs, dramatically illustrating the similar physical appearance of revolutionaries, past and present.

[Free speech for me--but not for thee: how the American left and right relentlessly censor each other, Nat Hentoff](#) , 1992,

. For years now, Nat Hentoff has been the best-known lay guardian of the magnificent spirit and letter of the First Amendment to the Constitution of the United States. His principled advocacy of free expression for all seems to be needed more than ever today, at a time of appalling assaults on expression not only by traditional opponents on the political right - those offended by what they consider obscene or radical or otherwise taboo - but also from the left - radical feminists calling for the suppression of pornography, members of minorities banning language they consider psychologically damaging, and various other proponents of so-called political correctness. These more recently minted censors are now to be found within such former bastions of free speech as the universities and even the American Civil Liberties Union. This urgently important book is not a mere collection of legal cases; neither is it a history of free expression or a polemic from either left or right. It is rather a wide-ranging report on - and analysis of - the many kinds of conflicts throughout our country between the illusion that this is a land of unfettered free speech and the reality when

that illusion is acted upon. It is a book of many stories - of the continuing efforts to deprive students of Mark Twain's masterpiece, Huckleberry Finn, and of attempts to deprive other students of the right not to read books that offend them; of the well-intentioned rulings that result in speech codes and loyalty oaths; of the wide-spread lack of understanding, over the years, of such basic concepts as the marketplace of ideas and of the overriding value of untrammelled speech. *Free Speech for Me - But Not for Thee* is a book about fear, duplicity, some courage, a lot of hypocrisy, and a good deal of irony. It is a book of dramatic confrontations, of people acting, for better or for worse, on one of the most important of our domestic battlefields. And above all, it presents hopeful, practical suggestions for ways toward saving perhaps the most fragile of our cherished freedoms.

[FYI: Bean Counters Have Sexy Ideas Too, Terry Marolt](#) , 2006, 0977737608, 9780977737604. "FYI: Bean Counters Have Sexy Ideas Too -- histories and mysteries of words used in the office" is a light-hearted exploration of interesting words and phrases used in the office such as: 800-pound gorilla, ASAP, bells and whistles, blue chip, boilerplate, re-boot, breadwinner, can of worms, cash cow, caveat, cursor, CYA, devil's advocate, downsize, empowerment, FYI, glass ceiling, glitch, grain of salt, hatchet man, head honcho, headhunter, headquarters, jump through hoops, metrics, outside the box, paradigm, per diem, Post-it, pro forma, push the envelope, rat race, red ink, rule of thumb, SKU, skunkworks, SNAFU, snake oil, spam, status quo, and synergy. The book includes chapters on people, locations, airlines, analogies, animals, the body, brand names, common errors, computers, corporate speak, customer service, foreign words and phrases, formalization and sophistication, gestures, and intimacy. Each exploration of a word typically contains a definition, a light-hearted made-up quote using the word, the word's history, interesting quotes from real people using the word, and the author's commentary. The book is designed for fun browsing and light reference. The author's (or narrator's) personality comes out clearly in humorous references to his career. Introductions to chapters include fun vignettes about the author's first day on the job, a family of cat's discussing their day in metaphors that make the reader think about humans' use of metaphors, a history of brand names, a discussion of acronyms vs. initialisms, the difference between a preposition and a proposition, a conversation between an employee and an angry manager -- conducted completely in gesture, and the story of a lonely business man trying to interest a European beauty at a business conference. Thirty charming, delightful drawings accompany the text. They include a cat pulling on his pajamas, Archimedes running naked down the street yelling "Eureka!," the cover drawing of a bean counter sweating at his abacus, Johnnie Cochran using foreign terms to describe an office conflict, the lonely business man, looking like Mickey Spillane, speaking with the European beauty, who looks like Sophia Loren -- and many others.

[Enacting Others: Politics of Identity in Eleanor Antin, Nikki S. Lee, Adrian Piper, and Anna Deavere Smith, Cherise Smith](#) , 2011, 0822347997, 9780822347996. The artists Adrian Piper, Eleanor Antin, Anna Deavere Smith, and Nikki S. Lee have all crossed racial, ethnic, gender, and class boundaries in works that they have conceived and performed. Cherise Smith

analyzes their complex engagements with issues of identity through close readings of a significant performance, or series of performances, by each artist. She examines Pipers public embodiment of the Mythic Being, a working-class black man, during the early 1970s; Antins full-time existence as the fictitious black ballerina Eleanora Antinova for several weeks in 1981; and Smiths shifting among more than twenty characters of different ages and racial, ethnic, gender, and class backgrounds in *Twilight: Los Angeles*. She also considers Lees performances of membership in cultural groups including swing dancers, hip-hop devotees, skateboarders, drag queens, and yuppies in her *Projects* series (1997/2001). The author historicizes the politics of identity by exploring each performance in relation to the discourses prevalent in the United States at the time of its development. She is attentive to how the artists manipulated clothing, mannerisms, voice, and other signs to negotiate their assumed identities. Cherise Smith argues that by drawing on conventions such as passing, blackface, minstrelsy, cross-dressing, and drag, they highlighted the constructedness and fluidity of identity and identifications. *Enacting Others* provides a provocative account of how race informs contemporary art and feminist performance practices.

[The Golden Shore: California's Love Affair with the Sea, David Helvarg](#) , 2013, 1250027527, 9781250027528. A Denver Post Bestseller A Booklist Top Literary Travel Book of the Year From the first human settlements to the latest marine explorations, *The Golden Shore* tells the tale of the history, culture, and changing nature of Californias coasts and ocean. Author David Helvarg takes the reader on both a geographic and literary journey along the 1,100-mile Pacific coastline, from the Oregon border to the San Diego/Tijuana international border fence and out into its whale-, seal-, and shark-rich offshore seamounts, rock isles, and kelp forests. Part history, part travelogue, part love letter, *The Golden Shore* tells the story of Californias majestic coastline and ocean. Helvarg captures the spirit of the Californian coast, its mythic place in American culture, and its role in a state whose ongoing natural disasters and unremitting sense of renewal are intimately linked to its deep connection with an ever-changing sea.

Perfect for the man or woman who intimately knows or desires to know what it truly means to be in love.

[14-Day Herbal Cleansing, Laurel Vukovic](#) , 1997, 013602582X, 9780136025825. 14-Day Herbal Cleansing is a powerful two-week body purification program that cleanses your system as it boosts your immune power, helping your body create an "inner shield" to block out the harmful toxins that lead to health breakdowns and disease. Combining an

enjoyable diet with nutritional advice, detoxifying herbal treatments, light exercise and stretching, this revitalizing program is an all-natural alternative to dangerous drugs, expensive treatments, or difficult regimens for preventing and healing dozens of health conditions, including allergies, arthritis, asthma, cancer, clogged arteries, depression, diabetes, digestive disorders, excess weight, fatigue, headaches, heart disease, hypertension, hypoglycemia, insomnia, lung disease, premature aging, and skin disorders. Let 14-Day Herbal Cleansing help you experience a "total healing" that helps your body achieve its natural balance ... one of complete well-being and vitality of body, mind, and spirit!

[Violent Attachments, J. Reid Meloy](#) , 1997, 0765700611, 9780765700612. In this startling and complex investigation, Dr. Meloy begins with a simple, but profound question: why does most human violence occur between those who are emotionally involved, or more technically, within an attachment paradigm? He finds answers by applying attachment theory in the tradition of Bowlby and Ainsworth, and object relations theory in the tradition of Klein, Jacobson, Mahler, and Kernberg, to case studies of bizarre and unusual homicides. These idiographic portraits illustrate erotomanic delusional disorder, chronic catathymia, the psychopath as love object, and assassination as a form of pathological attachment. He elucidates the ways in which certain psychodynamics that inexorably move toward murder can only exist within a fixated or regressed preoedipal personality structure. Such individuals are organized at a borderline or psychotic level, and most often utilize defenses of projection, projective identification, and omnipotent control. This book is written for psychotherapists, psychologists, psychoanalysts, psychiatrists, and social workers in clinical or forensic practice. Biological foci include concepts about the deep limbic structures of the brain and the biochemistry that inhibits or disinhibits such violence. Psychological patterns include both psychoanalytic constructs and the specific psychological test data from the case studies that support such constructs. Social factors include the behavior of the victim and, in the case of assassination, the political acts that contribute to predatory violence. Dr. Meloy emphasizes the crucial need for mental health professionals to go beyond descriptive diagnoses and find the motivation and meaning of such acts. The professional's causal and purposive formulations about such violent attachments lead to more effective evaluation, treatment, and intervention, and perhaps testimony in subsequent criminal and civil litigation.

[Power and Terror, Noam Chomsky](#) , 2003, 1919931597, 9781919931593. In Power & Terror, the author presents his latest thoughts on terrorism, US foreign policy, and the meaning and true impact of militarism in the world today. He challenges the United States to apply to itself the moral standards it demands of others.

[Vail: The First 50 Years, Shirley Welch](#) , 2012, 0738595322, 9780738595320. Prior to 1962, sheep ranchers and homesteaders occupied Gore Creek Valley. A sleepy place studded with aspen and pine groves, the valley lay ripe for discovery. Two men, Pete Seibert and Earl Eaton, had a dream to build the perfect ski area. Earl knew of a mountain,

and they climbed No-Name Mountain in 1957. Although the mountain seemed unpretentious, when Pete reached the top and saw the treeless back bowls, he smiled at Earl. The men had found their mountain. That day, Vail was born. With the spirit of adventure, the dream shaped the mountain, the mountain shaped the village, and the village prospered. As American skiing grew, it became a sport and then a lifestyle, and Vail is now the largest ski resort in America. Winter is why people come and summer is why they stay. How this all happened in 50 years is a story of dreams, perseverance, creativity, and unforgettable people.

[For Cause and Comrades: Why Men Fought in the Civil War, James M. McPherson](#) , 1997, 0199741050, 9780199741052.

General John A. Wickham, commander of the famous 101st Airborne Division in the 1970s and subsequently Army Chief of Staff, once visited Antietam battlefield. Gazing at Bloody Lane where, in 1862, several Union assaults were brutally repulsed before they finally broke through, he marveled, "You couldn't get American soldiers today to make an attack like that." Why did those men risk certain death, over and over again, through countless bloody battles and four long, awful years? Why did the conventional wisdom -- that soldiers become increasingly cynical and disillusioned as war progresses -- not hold true in the Civil War? It is to this question--why did they fight--that James McPherson, America's preeminent Civil War historian, now turns his attention. He shows that, contrary to what many scholars believe, the soldiers of the Civil War remained powerfully convinced of the ideals for which they fought throughout the conflict. Motivated by duty and honor, and often by religious faith, these men wrote frequently of their firm belief in the cause for which they fought: the principles of liberty, freedom, justice, and patriotism. Soldiers on both sides harkened back to the Founding Fathers, and the ideals of the American Revolution. They fought to defend their country, either the Union--"the best Government ever made"--or the Confederate states, where their very homes and families were under siege. And they fought to defend their honor and manhood. "I should not like to go home with the name of a coward," one Massachusetts private wrote, and another private from Ohio said, "My wife would sooner hear of my death than my disgrace." Even after three years of bloody battles, more than half of the Union soldiers reenlisted voluntarily. "While duty calls me here and my country demands my services I should be willing to make the sacrifice," one man wrote to his protesting parents. And another soldier said simply, "I still love my country." McPherson draws on more than 25,000 letters and nearly 250 private diaries from men on both sides. Civil War soldiers were among the most literate soldiers in history, and most of them wrote home frequently, as it was the only way for them to keep in touch with homes that many of them had left for the first time in their lives. Significantly, their letters were also uncensored by military authorities, and are uniquely frank in their criticism and detailed in their reports of marches and battles, relations between officers and men, political debates, and morale. For Cause and Comrades lets these soldiers tell their own stories in their own words to create an account that is both deeply moving and far truer than most books on war. Battle Cry of Freedom, McPherson's Pulitzer Prize-winning account of the Civil War, was a national bestseller that Hugh Brogan, in The New York Times, called

"history writing of the highest order." For Cause and Comrades deserves similar accolades, as McPherson's masterful prose and the soldiers' own words combine to create both an important book on an often-overlooked aspect of our bloody Civil War, and a powerfully moving account of the men who fought it.

[Criminology: The Basics, Sandra Walklate](#) , 2006, 1134309090, 9781134309092. As crime continues to be a high profile issue troubling politicians, the public and the media alike, the study of criminology has boomed. Providing an international and comparative introduction to the discipline, this informative book is an accessible guide to the theoretical and practical approaches to the phenomena of crime. Topics covered include: popular myths and the fear of crime crime in the workplace victims, offenders and questions of justice public policy and practice around the world the future of crime prevention. Easy to read, concise and supported by a glossary of terms and pointers to further reading, Criminology: The Basics is a perfect introduction to this important and popular subject.

[Card Game Roundup: Play Your Way to Math Success, Josh Rappaport, Trudy Bortz](#) , 2002, 0965911306, 9780965911306. In Card Game Roundup, Singing Turtle Press rustles up a passel of fun card games that teachers and

parents can use to teach young children vital math skills. The book is aimed at both teachers and parents working with children in grades 3 - 5. The games, created by veteran teachers Trudy Bortz and Josh Rappaport (author of the Parents Choice award-winning Algebra Survival Guide), are so much fun that kids won't even realize they're learning math as they play. In "Annie Oakley", children learn about measurement and data analysis. In "Mysterious Bandits", children solve for variables in addition and subtraction problems. And in "Land Grab", they learn how to sort objects into the sections of a Venn Diagram. The book is beautifully illustrated by artist Sally Blakemore (winner of the 2002 Children's Literature Award). This is the second book in the Card Game Roundup series. The first title features games for children in the K-2 age bracket.

This book confronts these dilemmas, tracing arguments of moral thinkers, including Socrates, Plato, Aristotle, and brings us up to date with postmodern critics.

[Presenting The Fly: A Practical Guide to the Most Important Element of Fly Fishing, Lefty Kreh](#) , 1999, 1558217886, 9781558217881. Nothing is as important in fly fishing than successfully presenting the fly. No matter what rod, reel, line, and fly are used, the fish will not take if the fly is presented with a splash or out of target. In this comprehensive book on the art of presentation, Lefty Kreh explains that presentation is much more than dropping the fly in the best position -- it also involves the clothes you wear, the methods you use to rig your tackle, how and where you approach the fish, the types of fly lines and reels you use, the direction of the light, the type of cover, and the retrieve method used, among other factors. Lefty delves into each of these subjects with his usual knowledgeable vigor. Lefty also describes the different methods of presentation for the various species of fish -- from trout and other freshwater species to fish that inhabit back-country and inshore waters to exciting saltwater species like permit and even sharks. With over one hundred photographs and line drawings, "Presenting The Fly" belongs on every angler's bookshelf.

[War Plan Crimson: A Novel of Alternate History, Michael Cnudde](#) , 2011, .

[Optimization and Control of Bilinear Systems: Theory, Algorithms, and Applications, Panos Pardalos, Vitaliy A. Yatsenko](#) , 2010, 0387736697, 9780387736693. The purpose of this book is to acquaint the reader with the developments in bilinear

systems theory and its applications. Bilinear systems can be used to represent a wide range of physical, chemical, biological, and social systems, as well as manufacturing processes, which cannot be effectively modeled under the assumption of linearity. This book provides a unified approach for the identification and control of nonlinear complex objects that can be transformed into bilinear systems, with a focus on the control of open physical processes functioning in a non-equilibrium mode. A wide class of non-linear control systems can be approximated using novel algorithms motivated by bilinear models. The goal of this book is to describe new methods, heuristics, and optimality criteria with less demanding computational complexity than exact criteria that result in robust adaptive algorithms. Emphasis is placed on three primary disciplines influencing bilinear systems theory: modern differential geometry, control of dynamical systems, and optimization theory.

[Student Solutions Guide: Chemistry, Sixth Edition, Steven S. Zumdahl, Susan Arena Zumdahl, Steven S. Zumdahl, Thomas J. Hummel, Susan Arena Zumdahl](#) , 2002, 0618221638, 9780618221639. Provides carefully worked out, complete solutions for all odd-numbered questions and exercises in the text. Uses the same solutions methods as examples in the text.

[Library Technical Services: Operations and Management, Irene P. Godden](#) , 1984, 0122870409, 9780122870408. This revised Second Edition addresses developments that have transformed library operations in the recent past. In the technical services administration chapter there is a new section on leadership and management style, strategic planning, managerial accounting, and output measures. The bibliography has been expanded to include more management literature. At the same time, in the automation chapter, expanded sections on downloading bibliographic data into personal files, full text-access, and implications for libraries of the emerging high-speed electronic highways for information have been added. The entire acquisitions chapter has been reordered to reflect new approaches to acquisitions work in an automated environment and the chapter on bibliographic control has been refocused to emphasize the online environment, and to reflect recent developments in cataloguing tools and rules. Because there has been a tremendous increase in preservation-related activities in the last ten years or so, the preservation chapter has been expanded, with a concurrent shift in emphasis from materials processing to preservation. Key Features \* This second edition addresses developments that have transformed library operations in the recent past. The following revisions have been made: \* In the technical services administration chapter, a new section on leadership and

management style, strategic planning, managerial accounting, and output measures has been added; the bibliography has been expanded to include more management literature \* In the automation chapter, expanded sections on downloading bibliographic data into personal files, full text-access, and implications for libraries of the emerging high-speed electronic highways for scholarly information, that is, regional networks linked by the internet, and the emerging NREN (National Research and Education Network), have been added \* The entire acquisitions chapter was reordered to reflect new approaches to acquisitions work in an automated environment \* The chapter on bibliographic control has been generally refocused to emphasize the online environment, and to reflect recent developments in cataloging tools and rules \* Because there has been a tremendous increase in preservation-related activities in the last ten years or so, the preservation chapter has been substantially expanded, with a concurrent shift in emphasis from materials processing to preservation

[The Shadow of the Torturer, Gene Wolfe](#) , 2011, 0575114150, 9780575114159. Severian is a torturer, born to the guild and with an exceptionally promising career ahead of him . . . until he falls in love with one of his victims, a beautiful young noblewoman. Her excruciations are delayed for some months and, out of love, Severian helps her commit suicide and escape her fate. For a torturer, there is no more unforgivable act. In punishment he is exiled from the guild and his home city to the distant metropolis of Thrax with little more than Terminus Est, a fabled sword, to his name. Along the way he has to learn to survive in a wider world without the guild - a world in which he has already made both allies and enemies. And a strange gem is about to fall into his possession, which will only make his enemies pursue him with ever-more determination . . .

[Wuhu Diary: On Taking My Adopted Daughter Back to Her Hometown in China, Emily Prager](#) , 2007, 0307430324, 9780307430328. In 1994 an American writer named Emily Prager met her new daughter LuLu. All she knew about her was that the baby had been born in Wuhu, a city in southern China, and left near a police station in her first three days of life. Her birth mother had left a note with Lulu's western and lunar birth dates. In 1999 Emily and her daughter now a

happy, fearless four-year-old--returned to China to find out more. That journey and its discoveries unfold in this lovely, touching and sensitively observed book. In *Wuhu Diary*, we follow Emily and LuLu through a country where children are doted on yet often summarily abandoned and where immense human friendliness can coexist with outbursts of state-orchestrated hostility particularly after the U. S. accidentally bombs the Chinese embassy in Belgrade. We see Emily unearthing precious details of her child's past and LuLu coming to terms with who she is. The result is a book that will delight anyone interested in China, and that will move and instruct anyone who has ever adopted--or considered adopting--a child. From the Trade Paperback edition.

[Understanding Contracts, Jeffrey Thomas Ferriell](#) , 2009, 1422429628, 9781422429624. This Understanding treatise is designed for first-year law students enrolled in Contracts. The text explains common law principles of contract law using cases and examples that students commonly encounter in this first-year course. It draws illustrations from the Restatement (Second) of Contracts, and from Article 2 of the Uniform Commercial Code as it has been adopted in all fifty states. This edition includes expanded material on the United Nations Convention on the International Sale of Goods, and the UNIDROIT Principles of International Commercial Contracts, appropriate to a basic course in Contracts, and on modern statutes regarding electronic contracting. Understanding Contracts was written with the understanding that Contracts will be one of the most challenging courses first-year law students will take. It explains how key concepts apply in several recurring basic fact patterns. It then builds on those fact patterns to explain how the law is more difficult to apply in business transactions with more complex facts. A key feature of Understanding Contracts, that is not found in other similar books, is its conscious incorporation of basic explanations of the common business practices to which the law of contracts applies. The feature helps students, many of whom have not had any background in the business world, understand contract law in the business settings in which it frequently applies. The book also provides detailed topic headings that students can use to develop their own comprehensive course outline.

The work falls into six main product areas: decision support, defence enterprise management support,

support to operations, innovative capability and systems concepts, innovative technology exploitation, science and technology services.

[A Cat of a Different Color: An Alice Nestleton Mystery \(InterMix\), Lydia Adamson](#) , 2012, 1101599243, 9781101599242.

Available Digitally for the First Time. A mystery cat takes talented actress-turned-sleuth Alice Nestleton behind the scenes for murder... Beautiful Off-Off Broadway actress-sleuth Alice Nestleton gasps as a sinister shadow looms at the top of her apartment house stairs. But it's only a moonstruck student from her acting class who comes bearing a gift: a gorgeous white Abyssinian-like cat. That is strange enough, but stranger still, just days later the young Lothario is killed in a Manhattan bar and the exotic kitty is cat-napped! Alice's own two cats, the regal Bushy and the harum-scarum Pancho, have helped her catch criminals before. But the trap she devises to corner the perpetrator of the cat theft may entangle her instead in a dead actor's secrets and murderous drama of love and revenge. Curl up with a copy of *A Cat Tells Two Tales*, available October 2012 in trade paperback from Obsidian.

[Taste What You're Missing: The Passionate Eater's Guide to Why Good Food Tastes Good, Barb Stuckey](#) , 2012, 1439190739, 9781439190739. Whether it's a grilled cheese sandwich with tomato soup, maple-cured bacon sizzling hot from the pan, or a salted caramel coated in dark chocolate, you know when food tastes good to you. But you may not know the amazing story behind why you love some foods and can't tolerate others. Now, in *Taste What You're Missing*, the first book that demystifies the science of taste, you'll learn how your individual biology, genetics, and brain create a personal experience of everything you taste and how you can make the most of it. A seasoned food developer to whom food companies turn for help in creating delicious new products, Barb Stuckey reveals that much of what we think we

know about how taste works is wrong. And the truth is much more fascinating for instance, your tongue is not divided into quadrants for sweet, sour, salt, and bitter and only a fraction of what you taste happens in your mouth. As Stuckey explains how our five senses work together to form flavor perceptions, she tells intriguing stories about people who have lost the sense of smell or taste and the unexpected ways their experience of food changes as a result. You'll learn why kids (and some adults) turn up their noses at Brussels sprouts and broccoli, how salt makes grapefruit sweet, and why you drink your coffee black while your spouse loads it with cream and sugar. Stuckey also provides eye-opening experiments in which you can discover your unique taster type and learn why you react instinctively to certain foods, in particular why your response to bitterness is unique. You'll find ways to improve your ability to discern flavors, detect ingredients, and devise taste combinations in your own kitchen for delectable results. *Taste What You're Missing* gives curious eaters, Food Network watchers, kitchen tinkerers, and armchair Top Chefs the understanding and language to impress friends and families with insider knowledge about everything edible. What Harold McGee did for the science of cooking Barb Stuckey does for the science of taste in *Taste What You're Missing*, a calorie-free way to get more pleasure from every bite.

Can we stop this new national nightmare? YES WE CAN! It's time to set aside our partisan differences and petty bickering and unite behind "Ba-rot" Obama, the one man that can bring hope to our troubled shores. When the outgoing administration's plan to shore up our depleted military's troop numbers goes awry, Washington D.C. becomes ground zero for all-you-can-eat action, destruction, and some change you can believe in!

[My Long Flight from Freedom, Sandy Geyer](#) , 2009, 0958298726, 9780958298728. *My Long Flight From Freedom* is Sandy Geyer's honest, humorous and courageous account of her journey as a white South African woman growing up in, and then ultimately leaving her beloved homeland. Her personal experiences and challenges provide many insights into why so many South Africans' new found freedom has simply led to heartbreaking sacrifices made as they felt powerless to stay behind in a country ravaged by violence. Sandy describes genuine experiences of the turbulent times before the fall of Apartheid and the rise of the ANC government, including her brief but inspirational meeting with Nelson Mandela soon after his freedom was granted. This book is a must read, and has been described as 'un-put-down-able' by all who

have reviewed it.

[Quest for the Red Sulphur: The Life of Ibn Arab, Claude Addas](#) , 1993, 0946621446, 9780946621446. Quest for the Red Sulphur: The Life of Ibn Arabi is undoubtedly a landmark in Ibn Arabi studies. Until the publication of this book, anyone

who wanted to learn about the life of Ibn Arabi has had little choice of material to work from. This major study by Claude Addas is based on a detailed analysis of a whole range of Ibn Arabi's own writings as well as a vast amount of secondary literature in both Arabic and Persian. The result is the first-ever attempt to reconstruct what proves to have been a double itinerary: on the one hand, the journey that took Ibn Arabi from his native Andalusia to Damascus - and on the other hand, the 'Night Journey' which carried him along the paths of asceticism and prayer to the ultimate stage of revelation of his mystic quest.

An exciting series that covers selected topics from the Higher Level options in the IB History syllabus. This coursebook covers Higher Level option 3, Topic 10, The Cold War and the Americas 1945-81. The text is divided into clear sections following the IB syllabus structure and content specifications. It offers a sound historical account along with detailed explanations and analysis, and an emphasis on historical debate to prepare students for the in-depth, extended essay required in the Paper 3 examination. It also provides plenty of exam practice including student answers with

examiner's comments, simplified mark schemes and practical advice on approaching the Paper 3 examination.

[Swindle 9: Miss Van, Shepard Fairey, Roger Gastman](#) , 2007, 0979162106, 9780979162107. Swindle is the definitive popular culture and lifestyle publication for women and men of ages 18 to 34. More than just reporting on culture, Swindle is dedicated to influencing culture through content unlike anything else on newsstands. It aims to be a magazine that readers will want to read over and over; a magazine that's truly a cultural almanac, full of stories that will captivate anyone and everyone; a magazine that can be treasured as a work of art in itself. Swindle fills a void for readers who desire a well-balanced periodical, one that is sophisticated but not too serious, intelligent and whimsical, progressive yet timeless, all at once. As both a product of the times and a documentation of them, Swindle manages to stay modern and culturally relevant without falling into the endless recycling bin of trendiness. Instead of reporting on the biggest stories of the day, it digs deeper, bringing new stories to the forefront. Covering a vast assortment of topics, from the core areas of music, art, and fashion to eclectic pop culture tidbits ranging from paranormal research to political activism to Lego toys. This issue features an exclusive interview with Banksy, plus articles on Boxing, Art of Noise and Cherry Bombs! 01 Miss Van INTERVIEW BY CALEB NEELON When the Toulouse native and current Barcelona resident MISS VAN's sultry female characters began to pop up on city center walls in the mid 1990s, they instantly possessed a timeless quality, as if women had always painted such graffiti in the streets. Her wide-eyed female characters-whom she calls Les poupees de MISS VAN-have a rare appeal that transcends genders. 02 ROCKIN' STEADY: THE LEGENDS OF SKA BY DAVID JIRO, INTERVIEWS BY JOEY ALTRUDA The year was 1956, and Jamaica's DJs-turned-producers Prince Buster, Clement Sir Coxsonne Dodd, and Duke Reid took it upon themselves to develop a sincerely Jamaican style of music that captured the essence of R & B. They ditched the steel drums of calypso for electric guitars and horns. To them it was the new sound of the island, informally known as ska. 03 WEST SIDE STORY PHOTOS BY ELIZABETH PERRIN, STYLING BY PALOMA The pathos and ecstasy of New York's teenage gangsters, epitomized by the classic musical West Side Story, is the inspiration for this breathtaking spread. Lushly layered fashions in eye-popping colors burst from a gritty backdrop of fire escapes and urban backstreets.

[7 Weeks to Safe Social Drinking: How to Effectively Moderate Your Alcohol Intake, Donna J. Cornett](#) , 2005, 0976372002, 9780976372004. Based on the revolutionary Drink/Link Moderate Drinking Program, this book teaches drinkers to modify their drinking habits, reduce alcohol consumption and prevent alcoholism on their own at home - no meetings, belief in a higher power or professional help are required! First, you learn five safe-drinking guidelines, then each week you learn clinically-proven behavioral, cognitive, motivational and lifestyle strategies and techniques to stay within those guidelines. Beating alcohol craving, pacing your drinking, mastering the art of social drinking and learning from drinking "mistakes" are all covered. 7 Weeks to Safe Social Drinking is a breakthrough for drinkers, alcohol abuse and healthcare professionals and an attractive early treatment program to prevent alcohol abuse.

[Guidebook to the Homeobox Genes, Denis Duboule](#) , 1994, 0198599404, 9780198599401. This much-needed guidebook provides research workers with the most up-to-date reference available on homeobox genes. As the tenth anniversary of the discovery of the homeobox fast approaches, these genes are being isolated from an ever-widening group of organisms and are now understood as critical to numerous developmental processes. But the rapidly increasing pool of information on homeobox genes has often resulted in a lack of coordination in the use of nomenclature and classification systems. As a result, the field has been sometimes characterized by its confusing and scattered literature. This book provides an overview of the subject by summarizing the dispersed findings and by listing key references. The first two chapters give a brief historical account of the discovery of the homeobox and introduce the reader to its role in development. The third chapter provides comprehensive coverage to the classification and structural organization of the homeobox genes. Finally, short descriptions of individual homeobox genes are provided in alphabetical order at the end of the book. Guidebook to the Homeobox Genes, with its easy-to-use format, offers a quick and simple way to learn about the essentials of each gene with cogent descriptions and helpful references . It will be welcomed by students and professionals in developmental biology, molecular genetics, and molecular biology.

[Precalculus Access Code Only: A Unit Circle Approach, Kirk Trigsted](#) , 2011, 0131992635, 9780131992634. Kirk Trigsted revolutionized the way this course is taught when he created College Algebra, a completely clickable eText that was written from the ground up within MyMathLab. Recognizing that today's students start with the homework instead of

reading the text, Trigsted created an online learning environment that is a seamless mix of exposition, videos, interactive animations, tutorials, and assessment. This approach leverages the power of MyMathLab and leads students to interact with course materials in a way that is proving to be more effective. With *Precalculus: A Unit Circle Approach*, Trigsted continues to innovate with a revised design that improves navigation and usability, expanded videos, and increased animation coverage. All multimedia elements, exercises, feedback, and content are written by the author himself so that the students have a consistent voice throughout. Starting in 2011, the MyMathLab eCourse series expands to include College Algebra, Trigonometry, Algebra & Trigonometry, and *Precalculus: A Unit Approach*.

[Report of the Leader's Group on Working Practices: report, session 2010-12, Great Britain: Parliament: House of Lords: Leader's Group on Working Practices](#) , 2011, 010847335X, 9780108473357. The report of the Leader's Group examining the working practices of the House of Lords and the operation of self-regulation was published today (Tuesday 26 April). Recommendations in the report include changes to enable the Lords better to fulfil its core functions of scrutinising government, testing out and reviewing legislation, and debating important issues. The report also suggests ways in which the House of Lords could make the most of its unique strengths and resources, including its Members' skills and experience.

[Clockwiser: Book 2 in the Clockwise Series, Elle Strauss](#) , 2012, 1475206690, 9781475206692. The last year has been smooth sailing for Casey Donovan. She and her boyfriend Nate are doing better than ever, and things at home are good, too. Everything's been so calm, she hasn't "tripped" back to the nineteenth century in ages. Then the unthinkable happens and she accidentally takes her rebellious brother Tim back in time. It's 1862 with the Civil War brewing, and for Tim this spells adventure and excitement. Finding himself stuck in the past, he enlists in the Union army, but it doesn't take long before he discovers real life war is no fun and games. Casey and Nate race against the clock to find Tim, but the strain wears on their relationship. It doesn't help that the intriguing new boy next door has his sights on Casey, and isn't shy to let her know it. Can Nate and Casey find Tim in time to save him? And is it too late to save their love?

[Devil's Knot: The True Story of the West Memphis Three, Mara Leveritt](#) , 2002, 0743417615, 9780743417617. \*SOON TO BE A MAJOR MOTION PICTURE STARRING REESE WITHERSPOON AND COLIN FIRTH \* The West Memphis Three. Accused, convicted and set free. Do you know their story? In 2011, one of the greatest miscarriages of justice in American legal history was set right when Damien Echols, Jason Baldwin, and Jessie Misskelley were released after eighteen years

in prison. Award-winning journalist Mara Leveritts *The Devils Knot* remains the most comprehensive, insightful reporting ever done on the investigation, trials, and convictions of three teenage boys who became known as the West Memphis Three. For weeks in 1993, after the murders of three eight-year-old boys, police in West Memphis, Arkansas seemed stymied. Then suddenly, detectives charged three teenagers alleged members of a satanic cult with the killings. Despite the witch-hunt atmosphere of the trials, and a case which included stunning investigative blunders, a confession riddled with errors, and an absence of physical evidence linking any of the accused to the crime, the teenagers were convicted. Jurors sentenced Jason Baldwin and Jessie Misskelley to life in prison and Damien Echols, the accused ringleader, to death. The guilty verdicts were popular in their home state even upheld on appeal and all three remained in prison until their unprecedented release in August 2011. With close-up views of its key participants, this award-winning account unravels the many tangled knots of this endlessly shocking case, one which will shape the American legal landscape for years to come.

[Gabriel's Inferno, Sylvain Reynard](#) , 2012, 1742538371, 9781742538372. From bestselling author Sylvain Reynard comes the haunting, unforgettable tale of one man's salvation and one woman's sensual awakening . . . Enigmatic and sexy, Professor Gabriel Emerson is a well-respected Dante specialist by day, but by night he devotes himself to an uninhibited life of pleasure. He uses his notorious good looks and sophisticated charm to gratify his every whim, but is secretly tortured by his dark past and consumed by the profound belief that he is beyond all hope of redemption. When the sweet and innocent Julia Mitchell enrolls as his graduate student, his attraction and mysterious connection to her not only jeopardizes his career, but sends him on a journey in which his past and his present collide. An intriguing and sinful exploration of seduction, forbidden love, and redemption, Gabriel's Inferno is a captivating and wildly passionate tale of one man's escape from his own personal hell as he tries to earn the impossible forgiveness and love.

[Out of the Nursery,](#) , 2008, 0982081200, 9780982081204. Out of the nursery is a refreshing and funny addition to the world of nursery rhymes. It takes only one turn of the page to see what makes this book stand apart from the rest. Done in white on black, the humorous illustrations seem to jump off the pages. Paired with whimsical and quick witted verse this book is sure to please both adults and children alike. From the first story, where we are taken into the interworking of a clock where a mouse hides, to a cows trip to the moon the reader is taken on a silly journey over the 32 fun filled pages. In Out of the Nursery an egg falling off a wall is only the beginning of the story what about who had to clean him up? Or more importantly what did they do with all that egg? What about the baker, sure he may bake wonderful cakes but what happens when he gets an order wrong or if he gets a little hungry himself? And candlesticks by the time we see our brave friend he has become famous for his talents and is attempting a much larger jump. Designed with story time in mind, adults will enjoy the modern twists on their old favorites while children giggle at the strange situations these beloved characters find themselves in. The illustrations of this delightful book were done on scratch board. The material

was intentionally picked to once again show the contrast between the traditional and the modern. As with all of our titles, Out of the Nursery was both printed and bound in the USA. Sure to become a story time classic, this is a perfect book for all ages! Reviews: Out of the Nursery is a delight to read in the classroom. The best thing about it is its appropriate for any age even mine! --Gretchen- Pre-school Director. Out of the Nursery is an enjoyable read for adults and children alike. It is a new twist on the old classics bringing imagination and creativity to life. The drawings are wonderful and very artistic. This will be a new classic on my shelf and should be on yours as well. --Jennifer, Mother of 2

[Incompleteness: The Proof and Paradox of Kurt Gdel \(Great Discoveries\), Rebecca Goldstein](#) , 2006, 0393327604, 9780393327601. "A gem. . . . [Knowing from Words: Western and Indian Philosophical Analysis of Understanding and Testimony, Bimal K. Matilal, A. Chakrabarti](#) , 1994, 0792323459, 9780792323457. Never before, in any anthology, have contemporary epistemologists and philosophers of language come together to address the single most neglected important issue at the confluence of these two branches of philosophy, namely: Can we know facts from reliable reports? Besides Hume's subversive discussion of miracles and the literature thereon, testimony has been bypassed by most Western philosophers; whereas in classical Indian (Pramana) theories of evidence and knowledge philosophical debates have raged for centuries about the status of word-generated knowledge. `Is the response "I was told by an expert on the subject" as respectable as "I saw" or "I inferred" in answer to "How do you know?" is a question answered in diverse and subtle ways by Buddhists, Vaisesikas and Naiyayikas. For the first time this book makes available the riches of those debates, translating from Sanskrit some contemporary Indian Pandits' reactions to Western analytic accounts of meaning and knowledge. For advanced undergraduates in philosophy, for researchers - in Australia, Asia, Europe or America - on epistemology, theory of meaning, Indian or comparative philosophy, as well as for specialists interested in this relatively fresh topic of knowledge transmission and epistemic dependence this book will be a feast. After its publication analytic philosophy and Indian philosophy will have no excuse for shunning each other.

[World hunger and morality, William Aiken, Hugh LaFollette](#) , 1996, 0134482840, 9780134482842. World Hunger and Morality contains the best current thinking about the appropriate moral response to world hunger. KEY TOPICS: The focus and content of this second edition is radically different from the first. Most of the essays are new to this volume. In fact, most of the new essays were written especially for this volume. It presents essays which helped shape the changing understanding of world hunger; includes work by some of today's pre-eminent ethicists; discusses the problem of intra-national as well as international hunger; and considers how gender differences play a part in understanding, and solving world hunger.

[Ship Breaker, Paolo Bacigalupi](#) , 2011, 0748129383, 9780748129386. In America's Gulf Coast region, where grounded oil tankers are being broken down for parts, Nailer, a teenage boy, works the light crew, scavenging for copper wiring just to make quota - and hopefully live to see another day. But when he discovers an exquisite clipper ship beached during a recent hurricane, Nailer faces the most important decision of his life: Strip the ship for all it's worth or rescue its lone survivor, a beautiful and wealthy girl who could lead him to a better life. . . .

[Salt of the Earth, My Story, Lester Moyer](#) , 2009, .

[Visible Here and Now: The Buddhist Teachings on the Rewards of Spiritual Practice, Ayya Khema](#) , 2001, 1570624925, 9781570624926. This practical commentary on one of the most important scriptures of the Pali canon will provide essential sustenance for Buddhist practitioners. Ayya Khema is a mountain of strength, encouragement, and tough love as she pours out down-to-earth practical instruction on the journey to enlightenment, following the framework set forth in the Samannaphala-sutta, the Buddha's discourse on the rewards of spiritual life. The sutta included here in the translation by Bhikkhu Bodhi contains the Buddha's teachings in response to questions posed by King Ajatasattu. Why, the king asked, should we give up the satisfactions of worldly life and devote ourselves to meditation? What are the tangible benefits to be gained from following the Buddha's way? In answering this question, the Buddha provides a compact synopsis of the entirety of the spiritual path, and Ayya Khema expands on this with her characteristic approach simple, direct, experiential, and loving. An important aspect of the sutta is an account of the eight meditative absorptions, or jhanas states of mind that bring joy, serenity, and peace and that open the way to clarity and liberation. Ayya Khema, who was herself adept at the eight absorptions, confidently leads the reader to, through, and beyond the jhanas, following the Buddha's plan. Her words have the effect of inspiring us to roll up our sleeves and get to work so that we may grasp the insights, accomplish the meditative goals, and become enlightened to the highest extent of our talents and efforts.

[Community care, ideology and social policy, Harry Cowen](#) , 1998, 0137278438, 9780137278435. This book offers a comprehensive evaluation of community care strategies within the context of government social policy, and assesses the

recent shifts of political power from Conservative to Labour towards the end of the century. Unlike the majority of texts in the field of community care, it makes explicit the historical, philosophical, social and political inter-connections, and therefore provides an in-depth understanding of changing policy issues for students, practitioners and managers in health and social care.

[The Dwarf, Cho Se-Hui](#) , 2006, 0824831012, 9780824831011. The dark side of South Korea's economic miracle emerges in *The Dwarf*, Cho Se-hui's enormously popular and critically acclaimed work. First published in 1978, it speaks to the painful social costs of reckless industrialization, even as it tellingly portrays the spiritual malaise of the newly rich and powerful and a working class subject to forces beyond its control. Cho's lean, clipped, deceptively simple style, the rapidly shifting points of view, terse dialogue, and subtle irony evoke the particularities of life in 1970s South Korea in the presence of global economic forces. The desperate realities of life for the dwarf, the proverbial little guy upon whose back Korea's economic transformation largely took place, are emotively rendered in twelve linked stories examining the lives of a laboring family, a family of the newly emerging middle class, and that of a wealthy industrialist.

[Tend to Your Garden Within: A Personal Spiritual Journey to Know Self, Inspect Beliefs,contemplate Life and Lead a More Joyful Life, Shervin Hojat](#) , 2008, 0981896987, 9780981896984. This book arose from many years of searching by the author to uncover his spirituality and life's purpose. The catalyst for this book was his father's fatal accident in 2006. Thoughts, emotions and "aha" moments are documented through poems and short essays. Readers can identify with the author's spiritual journey to delve into their own layers of beliefs, thoughts and emotions to experience their own "aha" moments which resonate within. A novel and reflective writing style provides the reader with a fresh and thought-provoking view of life as we experience it everyday. Each writing is a glimpse of what possibly the reader or someone else in their life may be experiencing.

[Brick By Red Brick, T T Ram Mohan](#) , , 8129123177, 9788129123176. IIM Ahmedabad, which will soon completely fifty years of existence, has been the nations pre-eminent management institution for several decades now. A little over three years after it was set up, Vikram Sarabhai chose a young corporate executive, Ravi Matthai, to head the team of academics he had assembled at IIMA, many of them trained at Harvard Business School. Matthai was all of thirty-eighty years old when he was appointed the Institutes first full-time director. He was not an academic by training. And yet, Matthai turned out to be absolutely the right choice. Building on the foundation laid by Sarabhai, Matthai went on to create a vibrant institution using principles that were highly evolved for his time and quite unique in the world of education. This book tells the story of how IIMA was conceived, its distinctive governance structure, its unique culture and how a highly gifted manager created the conditions for its enduring success. It gives the reader a peep into the inner workings of one of Indias most admired academic institutions. It shows how IIMAs success was no accident but the result of the vision and dedicated effort of a remarkable leader, a pioneer in management education in India.

The best and newest big-wave surfing stories from the sports insiders More than a decade ago, John Long published his now classic *The Big Drop*, an unprecedented look at the larger-than-life frontier of big wave surfing. Since then, the sport has exploded in popularity. The big wave bar keeps rising as extreme surfers continue to seek out, surf, and survive a ride on the elusive 100-foot wave. The incredible stories of a new generation of thrill-seeking, death-defying surfers and stunning, full-color photography of monster waves fill the pages of this new collection by John Long and former surfing pro Sam George. A powerful, contemporary look at the men and women who live and breathe for the next big wave and the bigger, more dangerous challenge, *The Big Juice* presents a rich history of characters, controversies, heroism, humor, and tragedy that define the sport. With contributions from: - Ben Marcus, author of *The Surfing Handbook* and *The Art of Stand Up Paddling*- Chris Dixon, writer, *Surfer* magazine - Kimball Taylor, writer, ESPN - Bruce Jenkins, author of *North Shore Chronicles*; writer, *Sports Illustrated*- Drew Kampion, former editor of *Surfer*, *Surfing*, *Wind Surf*, and *Wind Tracks* magazines; author of *The Book of Waves: Form and Beauty on the Ocean* - James Hollmer-Cross, writer, *Surfing* magazine . . . and big-wave surfers: - Laird Hamilton - Dave Kalama - Evan Slater - Shane Dorian - Greg

[Subversive Spiritualities: How Rituals Enact the World, Frederique Apffel-Marglin](#) , 2012, 0199793867, 9780199793860.

Even in the twenty-first century some two-thirds of the world's people the world's social majority quietly live in non-modern, non-cosmopolitan places. In such places the multitudinous voices of the spirits, deities, and other denizens of the other-than-human world continue to be heard, continue to be loved or feared or both, continue to accompany the human beings in all their activities. In this book, Frederique Apffel-Marglin draws on a lifetime of work with the indigenous peoples of Peru and India to support her argument that the beliefs, values, and practices of such traditional peoples are "eco-metaphysically true." In other words, they recognize that human beings are in communion with other beings in nature that have agency and are kinds of spiritual intelligences, with whom humans can be in relationship and communion. Ritual is the medium for communicating, reciprocating, creating and working with the other-than-humans, who daily remind the humans that the world is not for humans' exclusive use. Apffel-Marglin argues moreover, that when such relationships are appropriately robust, human lifeways are rich, rewarding, and in the contemporary jargon, environmentally sustainable. Her ultimate objective is to "re-entangle" humans in nature she is, in the final analysis, promoting a spirituality and ecology of belonging and connection to nature, and an appreciation of animistic perception and ecologies. Along the way she offers provocative and poignant critiques of many assumptions, including of the "development" paradigm as benign (including feminist forms of development advocacy), of the majority of anthropological and other social scientific understandings of indigenous religions, and of common views about peasant and indigenous agronomy. She concludes with a case study of the fair trade movement, illuminating both its shortcomings (how it echoes some of the assumptions in the development paradigms) and its promise as a way to rekindle community between humans as well as between humans and the other-than-human world.

[Shoe-tying Made Simple, Kelly Wilk](#) , 2004, 0970998015, 9780970998019. This classic, stand-up, flip-bound instructional tool has real pictures of each step of the process of shoe tying. [Moral Clarity: A Guide for Grown-Up Idealists, Susan Neiman](#) , 2009, 0156033143, 9780156033145. Susan Neiman is a moral philosopher committed to making the tools of her trade relevant to real life. In *Moral Clarity*, she shows how resurrecting a moral vocabulary good and evil, heroism and nobility can steer us clear of the dogmas of the right and the helpless pragmatism of the left. In search of a framework for forming clear opinions and taking responsible action on today's urgent political and social questions, Neiman reaches back to the eighteenth century, retrieving a set of virtues happiness, reason, reverence, and hope that were held high by every Enlightenment thinker. She shows that the pursuit of moral clarity is not a matter of religious faith but is open to all who are committed to these ideals, believers and nonbelievers alike. And she draws on literature, evolutionary theory, and other contemporary research to show why, by keeping before us the distinction between the real and the possible, these ideals continue to guide and inspire.

[Digital Broadcasting: Policy and Practice in the Americas, Europe and Japan, Martin Cave, Kiyoshi Nakamura](#) , 2006, 1847201601, 9781847201607. . . . the authors succeed in presenting an excellent overview of the evolution of most of the general issues and challenges currently facing policymakers and regulators in virtually every area of the media industries. . . This volume will definitely be on my own required reading list the next time I teach a course in media policy and strategy. Richard Hawkins, *Communications and Strategies* This volume offers broad coverage of the economic and commercial issues involved in digital television in major regions and countries around the world. Regulators, executives and consultants in the broadcasting and communities sectors will find much of interest in the volume. It can also be

useful additional reading for students in media or business studies. The bibliographies appearing at the end of each chapter will stimulate academic debate. Madely du Preez, *Online Information Review* Digital television is transforming both broadcasting and, as a result of convergence, the larger world of communications. The impending analogue switch-off will have a major impact on households all over the developed world. *Digital Broadcasting* considers the effects of digital television on the availability, price and nature of broadcast services in the Americas, Europe and Japan. It shows how this depends upon what platforms cable, satellite, fixed or wireless broadband countries have available for use and also upon government policies and regulatory interventions. The authors show how policies towards digital television are also closely linked with spectrum for example, whether to use spectrum released from analogue broadcasting for mobile communications or for broadcasting, including the newly developed mobile broadcasting. This is one of the key technological changes of the early 21st century and its development will affect many countries economies and societies. The book has an invaluable broad coverage of the economic and commercial issues involved in digital television in major regions and countries around the world. Regulators, executives and consultants in the broadcasting and communications sector will find much to engage them within the book. Researchers and academics of industrial and public sector economics will also find the book of great interest. Students in media studies or business courses can also use the book as additional reading.

[Identity and Control: How Social Formations Emerge, Harrison C. White](#) , 2008, 0691137153, 9780691137155. In this completely revised edition of one of the foundational texts of network sociology, Harrison White refines and enlarges his groundbreaking theory of how social structure and culture emerge from the chaos and uncertainty of social life. Incorporating new contributions from a group of young sociologists and many fascinating and novel case studies, *Identity and Control* is the only major book of social theory that links social structure with the lived experience of individuals, providing a rich perspective on the kinds of social formations that develop in the process. Going beyond traditional sociological dichotomies such as agency/structure, individual/society, or micro/macro, *Identity and Control* presents a toolbox of concepts that will be useful to a wide range of social scientists, as well as those working in public policy, management, or associational life and, beyond, to any reader who is interested in understanding the dynamics of social life.

[Blue Book: General Explanation of Tax Legislation Enacted in the 109th Congress, Joint Committee on Taxation](#) , 2007, 0160777852, 9780160777851.

[Buried Prey, , John Sandford](#) , 2012, 184983900X, 9781849839006. When a whole block is torn down in central Minneapolis to make way for a new housing development, an unpleasant surprise is unearthed. The bodies of two girls, wrapped in plastic, are discovered underneath an old house. It looks like they've been down there a long time. Lucas Davenport knows exactly how long. In 1985, Davenport was a young cop just about to be promoted out of uniform,

despite a reputation for playing fast and loose with the rules. A superb undercover guy, he was part of the massive police effort that followed the kidnapping of two girls who were never found again, dead or alive. The searches turned up nothing, so when the suspected kidnapper was killed in a shoot-out, the case was closed. But not for Davenport. He'd gotten deep into the case, and while he was convinced the suspect knew something, he didn't think he was the perpetrator - something just felt off. He argued hard about it to his bosses, but nobody wanted to hear. Until now. With the bodies discovered, the case is dusted off, just to tie a bow around it - but there's something wrong with the evidence. There are indications of tampering. Police tampering. And as Davenport investigates, it becomes clear: It wasn't just the bodies that were buried, but the truth - and there are a lot of people with a very strong stake in that truth never being uncovered.

[Foundations of Christianity: A Study in Christian Origins, Karl Kautsky](#) , 2007, 0902869930, 9780902869936. Karl Kautsky is probably the first Marxist to interest himself both in the movement and the enigmatic personality of the crucified prophet. His 1908 book *The Foundations of Christianity* is a rather impressive attempt at a Marxist analysis. The book is rather original, innovative and has been translated into nine languages. Kautsky made his *Foundations of Christianity* into one of the most popular Marxist theoretical works. Its popular success is probably due to the interest of socialist militants to see a vision of the origins of Christianity which permits the modern workers' movement to appropriate to itself the figure of Jesus as a prophet and martyr for the proletarian cause. Kautsky wanted to interpret early Christianity as a precursor of the contemporary working class socialist movement. His friend, and later his opponent, Rosa Luxemburg, in an article of 1905 called "The Church and Socialism insisted that the first Christian apostles were Communists who denounced injustice and the cult of the Golden Calf," He counterposed a materialist account of the new religion against the Christian mythology and showed the capacity of the Marxist method to give an account of a complex historical process, interpreting a religious phenomenon in terms of the class struggle. The book is divided into four sections: 1) Society at the time of the Roman Empire: the slave economy, the absolutist forms of the state, the different manifestations of cultural and religious crisis. 2) Judaism: the class conflicts of Israelite society and the various political-religious currents (Sadducees, Pharisees, Zealots and Essene. 3) The beginnings of Christianity: the early Christian communities, the idea of the messianic Christ and Christian communism. 4) The fourth section is dedicated to the "personality of Jesus," According to Kautsky, what distinguishes Jesus' messianism from the other rebellious Jewish prophets of the era - all of whom had a strictly national character - is its social character, its calling as an international redeemer. "Only the social Messiah, not the national, could transcend the limits of Judaism," survive the destruction of the temple in Jerusalem and, above all, find a hearing among the poor of all nations. By associating the hostility of the oppressed classes to the rich with proletarian solidarity, the messianism of the Christian communities promised the redemption of the poor, and so it could gain followers beyond the Jewish world. In the last analysis, Jesus, "the crucified

proletarian Messiah" managed to defeat Rome and conquer the world, but in the course of this process the Christian movement suffered an "inverse dialectic": it lost its proletarian and communist character and was transformed into a state religion, under the control of a vast dominating and exploiting apparatus - the Church.

[Kanban, David J. Anderson](#) , 2010, 0984521402, 9780984521401. "Kanban is becoming a popular way to visualize and limit work-in-progress in software development and information technology work. Teams around the world are adding Kanban around their existing processes to catalyze cultural change and deliver better business agility. David J. Anderson pioneered the Kanban Method. Hear how this happened and what you can do to succeed using Kanban."--Publisher's website.

[Greek philosophers, Christopher Charles Whiston Taylor, Richard Mervyn Hare, Jonathan Barnes](#) , 1999, 0192876961, 9780192876966. Greek Philosophers contains essays on three of the most important figures in the history of Western philosophy: Socrates, Plato, and Aristotle. Socrates wrote nothing himself, and our knowledge of his philosophical opinions and method is derived mainly from the engaging and infuriating figure who appears in Plato's dialogues. The philosophy of Socrates and Plato is therefore closely interconnected, and the most powerful elements of Plato's mature thought form the basis of an interpretation of knowledge, reality, and morality which is still held and debated by philosophers today. Aristotle's scientific explorations and systematic philosophical investigation have been instrumental in the development of Western philosophy. Each of this book's three authors provides a thorough section on a single philosopher, and the confluence of these studies will help readers understand these great thinkers both individually and in the context of each other.

[Family Farm: Haiku for a Place of Moons, Carol Purington](#) , 1999, 0974385611, 9780974385617.

[Ancient Philosophy: A Very Short Introduction, Julia Annas](#) , 2000, 0192853570, 9780192853578. The tradition of ancient philosophy is a long, rich and varied one, in which a constant note is that of discussion and argument. This book introduces readers to some ancient debates to engage with the ancient developments of some themes. Getting away from the presentation of ancient philosophy as a succession of Great Thinkers, the book gives readers a sense of the freshness and liveliness of ancient philosophy, and of its wide variety of themes and styles. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[Claudio Bravo and Morocco: exhibition presented at the Institut du Monde Arabe from March 16 to May 16, 2004, Claudio](#)

[Bravo, Institut du monde arabe \(France\)](#) , 2004, 0897972627, 9780897972628. Realist painter Claudio Bravo has lived and worked in Morocco for over thirty years and has been greatly influenced by his adopted country. The Moroccan people as well as the country's textiles, pottery, architecture, plants, and flowers form the subjects of many of Bravo's exquisite paintings and drawings. Suffused with the special light of Morocco, they testify to a grand lineage of artistic inspiration and exploration between Western and Arabic worlds. But along with dazzling technique and refined beauty, Bravo's paintings also manifest a transcendental spirituality and an exceptional fidelity to both the magnificent and the homely. Claudio Bravo and Morocco is the English-language edition of the important catalogue published on the occasion of the artist's solo exhibition at the Institut du Monde Arabe in Paris. This major exhibition presented 67 paintings that specifically related to Bravo's relationship with Morocco--all are reproduced here. Included as well are an illustrated biography, scholarly essays, and an extensive interview conducted especially for this publication.

[Quilts: Unfinished Stories With New Endings, Gyleen X. Fitzgerald](#) , 2008, 0976821508, 9780976821502. During the tough times of the 1930s, women created beauty in the form of quilts to keep their families warm and hand-pinned letters to friends in far away places. Some of these quilts were never finished, left as orphans for another generation. Addressing the questions Can today's quilter pay homage to those they so admire by finishing what they started?and Is it possible to add today's style of simple lines and contemporary fabric without compromising the original intent?, the volume helps gather pieces of the past and patches together fragments of stories for a new ending--creating a living legacy.

[Time and Fate, Lance Price](#) , 2005, 0954913744, 9780954913748. Reveals what life is really like at the top of British politics. This book combines an insider's view of 10 Downing Street with a cast of characters that includes ruthless politicians, hard-drinking journalists, and incompetent revolutionaries. It is a story of how power, principles and passions collide.

[CMDB and Configuration Management Process, Software Tools Creation and Maintenance, Planning, Implementation Guide, Gerard Blokdiik](#) , 2008, 0980497140, 9780980497144. Learn Configuration and CMDB management the right way with this unique, thoroughly modern guide to today's Configuration Management challenges and opportunities. Written by an in-the-trenches practitioner, this book goes beyond concepts and definitions to challenge prevalent thinking about the field and provide a step-by-step guide to implementing a successful CMDB strategy. Discover how to move beyond mainstream analysis, why qualitative data should be your focus, and more insights and techniques that will help you develop a customer-centric mindset without sacrificing your company's bottom line. You have more information at hand about your Configuration and its business environment than ever before. But are you using it to "out-think" your rivals? If not, you may be missing out on a potent competitive tool.

[The Art of the Infinite: The Pleasures of Mathematics,](#) , 2004, 0195176065, 9780195176063. Robert Kaplan's *The Nothing That Is: A Natural History of Zero* was an international best-seller, translated into ten languages. *The Times* called it "elegant, discursive, and littered with quotes and allusions from Aquinas via Gershwin to Woolf" and *The Philadelphia Inquirer* praised it as "absolutely scintillating." In this delightful new book, Robert Kaplan, writing together with his wife Ellen Kaplan, once again takes us on a witty, literate, and accessible tour of the world of mathematics. Where *The Nothing That Is* looked at math through the lens of zero, *The Art of the Infinite* takes infinity, in its countless guises, as a touchstone for understanding mathematical thinking. Tracing a path from Pythagoras, whose great Theorem led inexorably to a discovery that his followers tried in vain to keep secret (the existence of irrational numbers); through Descartes and Leibniz; to the brilliant, haunted Georg Cantor, who proved that infinity can come in different sizes, the Kaplans show how the attempt to grasp the ungraspable embodies the essence of mathematics. The Kaplans guide us through the "Republic of Numbers," where we meet both its upstanding citizens and more shadowy dwellers; and we travel across the plane of geometry into the unlikely realm where parallel lines meet. Along the way, deft character studies of great mathematicians (and equally colorful lesser ones) illustrate the opposed yet intertwined modes of mathematical thinking: the intuitionist notion that we discover mathematical truth as it exists, and the formalist belief that math is true because we invent consistent rules for it. "Less than All," wrote William Blake, "cannot satisfy Man." *The Art of the Infinite* shows us some of the ways that Man has grappled with All, and reveals mathematics as one of the most exhilarating expressions of the human imagination.

[Hazel Soan's African Watercolours, Hazel Soan](#) , 2008, 0007273436, 9780007273430. Popular TV artist and teacher Hazel Soan is well known for her stunning watercolours of Africa. This superbly illustrated guide is both a safari through her beloved southern Africa and an instructional journey through a range of subjects, showing different ways to see and paint them. Aimed at the more practised painter, *Hazel Soan's African Watercolours* is an ideal book for the reader

looking to add adventure to their painting. Focusing on the popular medium of watercolour, Hazel travels through South Africa, Namibia, Botswana and Zimbabwe, getting to know her destinations by painting them. As the journey unfolds, she presents a series of exciting painting projects. The contents include: Introduction: A Tale of Two Journeys Dramatic Seascapes: The Cape Peninsula Creating the third dimension The Desert in Flower: Namaqualand Vibrant colour Red Dunes, Cool Mists: The Namib Desert The strength of simplicity Desolate Coastline: The Skeleton Coast Conveying an atmosphere Heat and Dust: Etosha The suggestion of movement Rivers of Life: The Chobe River Deep darks and reflections The Lake of Drowned Trees: Lake Kariba Exploring shape and line Kingdom of the Cats: The Kalahari Desert Responding to the subject The Riches of Emptiness: The Karoo Tapestries of texture Heartbeat of Africa: The People of the South Breathing life into paintings Both a stunning collection of watercolours and an invaluable source of expert instruction, Hazel Soan's African Watercolours will inspire readers, wherever they paint.

[Marketing Management: Analysis, Planning, Implementation, and Control, Philip Kotler](#) , 1997, 0132435101, 9780132435109. This book, worldwide best seller, highlights the most recent trends and developments in global marketing. It emphasizes the importance of teamwork between marketing and all the other functions of the business; introduces new perspectives in successful strategic market planning; and presents additional company examples of creative, market-focused, and customer-driven action. The author underscores the importance of computers, telecommunications, and other new technologies in improving marketing planning and performance. A special focus on the 21st Century acknowledges the accelerating pace of change in the marketplace, and illustrates what leading companies are doing to meet the challenges of the new environment and the new millennium.

Advanced Level - Book 1 of 3 titled Modes in Q&A Form of The ABCs of Keyboard Musicianship series by CCRiddles%u2122 reviews the basic concepts of the church modal system, and its relationship with the Western European scales: Ionian, Dorian, Phrygian, Lydian, Mixolydian, Aeolian, and Locrian.

[The Language of the Body, Alexander Lowen](#) , 2012, 1938485165, 9781938485169. The Language of the Body, originally published in 1958 as Physical Dynamics of Character Structure remains one of the most influential books in psychology. It is an essential book for psychiatrists, therapists, and everyone interested in understanding body-psychotherapy. In this groundbreaking work, Alexander Lowen outlines the foundations of character structure and describes how personality is expressed in the form and function of the body.

[Modeling Axisymmetric Flows: Dynamics of Films, Jets, and Drops, Stanley Middleman](#) , 1995, 0124949509, 9780124949508. This concise book is intended to fulfill two purposes: to provide an important supplement to classic texts by carrying fluid dynamics students on into the realm of free boundary flows; and to demonstrate the art of mathematical modeling based on knowledge, intuition, and observation. In the authors words, the overall goal is make the complex simple, without losing the essence--the virtue--of the complexity. Modeling Axisymmetric Flows: Dynamics of Films, Jets, and Drops is the first book to cover the topics of axisymmetric laminar flows; free-boundary flows; and dynamics of drops, jets, and films. The text also features comparisons of models to experiments, and it includes a large selection of problems at the end of each chapter. Key Features \* Contains problems at the end of each chapter \* Compares real-world experimental data to theory \* Provides one of the first comprehensive examinations of axisymmetric laminar flows, free-boundary flows, and dynamics of drops, jets, and films \* Includes development of basic equations \* Written in a style suitable for use as a textbook

[Double Exposure, Michael Lister](#) , 2009, 098252093X, 9780982520932. A 2010 Florida Book Award finalist! One fateful fall evening, as the sun sinks and the darkness expands, wildlife photographer Remington James ventures deep into the river swamp to try out some new equipment and check his camera traps. While checking his camera traps, scanning the eerie images of overexposed deer and bats and foxes, Remington comes across the most haunting images of his life--the frame-by-frame capture of a shocking crime. By exposing the criminal, Remington has exposed himself to danger, even possible extinction. Hunted like an animal by the predator and his psychotic friends, Remington must do two things: make it through the night and make it to the river--and the odds of doing either are slim to none."Double Exposure" is

absolutely riveting! I sat down, plugged in and didn't get up until the last page. With elegiac prose, insightful characterization and a wonderfully ingenious plot, Michael Lister has squeezed every ounce of terror and thrills out of a dark night in the woods."--Michael Connelly, author of "The Scarecrow""A Hitchcockian thriller. A spellbinding page-turner." -"Booklist""Lyrical, evocative prose, reminiscent of Cormac McCarthy's 'The Road.'"-Panama City News Herald""Mr. Lister's eloquent evocation of the beauty of the area and its non-human inhabitants makes clear to the reader what has drawn his protagonist back and easily explains James' return to the profession on which he had turned his back. The threats to the region's ecosystem are made equally vivid. The novel is thought-provoking, while at the same time the author deftly maintains and steadily builds suspense. Mr. Lister's writing is stylistically fresh, frequently alliterative, and distinctive. "Double Exposure" is a wholly original and ultimately haunting work, and it is highly recommended."-Gloria Feit

[Benares Illustrated, James Prinsep](#) , 2009, 8177694006, 9788177694000. If ever there has been an unsung genius, it is James Prinsep. Born in 1799, he had a short life of only forty years, dying in 1840. And yet, considering his wide variety of interests and his seminal contributions in many of these areas, it can, with some confidence, be stated that he was one of the greatest geniuses born in human history. Thus, he was at the same time a physicist, a chemist, an anthropologist, a geologist, a meteorologist, a numismatist, an epigraphist, a town-planner, a cartographer and an architect and one may not have exhausted the list. Actually, his one achievement, that of deciphering the Brahmi script, through which India and the world came to know of that unique figure in world history Emperor Ashoka would have entitled him to a place among the greats of intellectual history. And when one considers that James deciphered not one, but two ancient scripts Brahmi and Kharoshthi through which was revealed the existence of a whole line of Indo-Scythian kings, one stands in awe of the man. But among all these varied interests, it was Benares, which was his passion. He spent only ten years here, but in this short span, considering his work, one can say that no individual contributed more to this holy and ancient city than James Prinsep. For consider these: he was the first to determine its latitude and longitude, the first to carry out an authentic census; and the first to construct a bridge over the river Karmanasa, a feat which had defied engineers and architects for nearly a century. He was also the person to lay the underground drainage system one that still serves the city. As a family memoir says: to extend the catalogue to a detail of the roads, bridges, drains and other works of every variety of description (in Benares), which were put in hand and completed would fatigue the reader. Amidst all this hectic activity, one can almost picture him sitting on a winter afternoon on one of the ghats, with the river (which he fondly calls our Ganga) flowing quietly by, looking around and then conceiving of this magnificent work Benares Illustrated. As you turn these pages, you not only travel with him from ghat to ghat, but also participate though in a limited way, in the life of the city. One can only marvel at the three dimensional portrayal of the various sites and the play of light and shade in these marvellous sketches. With this edition, one hopes that James will also come to

occupy a place among the great artists of his age. This volume is further enhanced by a write-up entitled James Prinsep and Benares by O.P.Kejariwal, Considered an authority on James Prinsep, his write-up is based on material which has not been available previously. The present volume also has nine Appendices comprising articles which Prinsep wrote while in Benares. Included among these is the Benares Directory reproduced here in full and which lists all the important families of Benares in Prinsep's time. Some of the present generation, in all probability, will be able to find their ancestors included in this Directory.

[Cases and Materials on Employment Law, Richard W. Painter, Ann E. M. Holmes](#) , 2002, 0199254818, 9780199254811.

This is the latest edition of the established and widely recommended Cases and Materials on Employment Law. The fifth edition offers comprehensive and accurate coverage of this dynamic and controversial subject. Clearly written and well researched this text provides a complete source of reference for students.

[Principles of Geographical Information Systems, Peter A. Burrough, Rachael A. McDonnell, Christopher D. Lloyd](#) , 2013,

0198742843, 9780198742845. Geographical data are used in so many aspects of our lives today, ranging from disaster relief operations through to finding directions on our mobile phones. We can all be data collectors, adding locational information as we capture digitally our day-to-day experiences. Geographical Information Systems (GIS) are the software tools that facilitate this, turning the raw data into useful information that can help us understand our worlds better.

Principles of Geographical Information Systems presents a thorough overview of the subject, exploring both the theoretical basis of GIS, and their use in practice. It explains how data on the world are converted into digital form and the analytical capabilities used to bring understanding to a range of areas of interest and issues. Spatial data are usually based on two, dichotomous paradigms: exactly defined entities in space, such as land parcels and urban structures, or the continuous variation of single attributes, such as temperature or rainfall. The adoption of one or the other influences how the geographical data are structured in the GIS and the types of analysis possible. A further area of focus in the book concerns the problems of data quality and how statistical errors in spatial data can affect the results of spatial modelling based on the two paradigms of space. Fuzzy logic and continuous classification methods are presented as methods for linking the two spatial paradigms. The book concludes with an overview of current developments and trends in providing spatial data to an ever-expanding global community of users. Online Resource Centre The Online Resource Centre to accompany Principles of Geographical Information Systems features: For students: Links to useful software and software providers for GIS Datasets with instructions of how to repeat analyses presented in the book using widely-used software For registered adopters of the book: Figures from the book, available for download

[The Golden Asse, Apuleius](#) , 1933, 1593774826, 9781593774820.

[The Wrong Man, William Ingsley](#) , 2012, 0982688776, 9780982688779. When Sam Schuler's lifelong friend involves him

prisoners, the expansion of the prison system, the public nature of punishment by forced labor, and the abandonment of the idea of reform and rehabilitation of prisoners all contributed to a national consensus that certain categories of criminals should be permanently disfranchised. As racial barriers to suffrage were challenged and fell, rights remained restricted for persons targeted by such infamy laws. Criminal convictions-in place of race-continued the disparity in legal status between whites and African Americans. Decades later, after race-based disfranchisement has officially ended, legislation steeped in a legacy of racial discrimination continues to perpetuate a dichotomy of suffrage and citizenship that is still effecting our election outcomes today.

[Murder Mile, Mike Mulloy](#) , 2001, 0099415992, 9780099415992. A gripping first-hand account of the work of a dedicated detective and his team - true crimes from the busy heart of Liverpool, a place where so many violent crimes were committed, it became known as Murder Mile. During a long and distinguished career that saw him rise to the rank of Detective Chief Inspector, Mike Mulloy investigated many of the crimes committed on Murder Mile - murder, rape, arson, armed robbery, drug dealing, burglary and bombing. Murder Mile is his fascinating first-hand account of these investigations, and of the continuous thread that linked him and his partners in the course of their work. With a real insight into the stresses of front-line policing, Mike Mulloy tells his story with the immediacy and authenticity that only an insider can provide.

[Shoah: The Complete Text Of The Acclaimed Holocaust Film, Claude Lanzmann](#) , 1995, 0306806657, 9780306806650. A nine-and-a-half-hour documentary on the Nazi extermination camps, Shoah (the Hebrew word for "Holocaust") was internationally hailed as a masterpiece upon its release in 1985. Shunning any re-creation, archival footage, or visual documentation of the events, filmmaker Claude Lanzmann relied on the words of witnesses Jewish, Polish, and German to describe in ruthless detail the bureaucratic machinery of the Final Solution, so that the remote experiences of the Holocaust became fresh and immediate. This book presents in an accessible and vivid format the testimony of survivors, participants, witnesses, and scholars. This tenth anniversary edition, published on the fiftieth anniversary of the liberation of the camps, is newly revised and corrected in order to more accurately present the actual testimony of those interviewed. Shoah is an unparalleled oral history of the Holocaust, an intensely readable journey through the twentieth century's greatest horror.

[Understanding Identity, Kath Woodward](#) , 2002, 0340808497, 9780340808498. Identity has become a buzzword that we hear about in a range of contexts, from concern with the self expressed through therapy, to identity crises that operate on the global arena. This book offers the first introduction to the lively debates surrounding the concept of identity.

Drawing on examples of gender, ethnic, age and work identities, as well as those linked to place and nation, this collection explores personal, social and cultural identities. Taking an interdisciplinary approach, the book maps out contemporary debates about identity within sociology, cultural studies, media studies, social psychology and political science. Each chapter addresses the variety of ways in which theories about identity seek to resolve the tension between viewing identity as being fixed and stable, or fluid and changing.
