9780988883727. At sixteen, Wendy Redbird Dancing flies her freak flag high; shes a scary-smart white girl with a hippie mom, a missing father, and a rarefied Michael Jackson obsession. It doesnt help that her mother just uprooted them yet again, this time from California to North Carolina. Now Wendy has to survive a new school and fight bullies who rule this Southern roost. But one black girl reaches outTanayand she and Wendy forge a friendship to help her fight back. Her mothers new boyfriend, Shaye, turns out to be decentnot the usual sleaze, but instead, a charming and attractive guy. As he gains her trust, Wendys crush ignites, and her hopes for a stable future soar. When Shaye starts flirting, Wendy is flattered but confused. When things take a terrible turn, she must go underground, waiting for the day she can escape to London for Jacksons final tour. All seems lost when the King of Pop dies. But Wendy suddenly hears his ethereal voice, offering guidance and sending her west. Is St. Michael now the only one she can trust? Lyn Fairchild Hawkss debut novel melds modern teen life with a parable of betrayal and trust, sharing the light and the dark of human relationships.

[O'Leary, Kat and Cary Grant: Adventures with a Paranormal Cat, Audrey McClellan](#) , 2010, 0981986005, 9780981986005.

Kat Hennessey is a writer looking for the right cat and the right man. Cary Rodrigo Grant is the most eligible man Kat's met in a cat's age. Kat has a lot of worries. There's the Great American Novel she's writing that won't come together in her mind, there's the sneaky student slut seeking to steal her husband Cary, there's the Faculty Wives Committee that wants her to get excited about evergreens. And then there's the crack in the basement wall of her house, and what she and her Burmese cat O'Leary find when they go through it into alternative realities . . . everything from giant rats to vampires to ancient Roman assassins to a two-headed fire-breathing Etruscan monster. Cat and Kat form a tight feline/human bond as they leap from one adventure to another. And soon they suspect that if they can get out through the crack in the basement wall, something seriously unpleasant can get in . . . All cats are nice, and some cats are special, and one was the most special of all, my pal O'Leary.Kat Hennessey

[The Shape of Green: Aesthetics, Ecology, and Design, Lance Hosey](#) , 2012, 1610912144, 9781610912143. Does going green change the face of design or only its content? The first book to outline principles for the aesthetics of sustainable design, The Shape of Green argues that beauty is inherent to sustainability, for how things look and feel is as important as how theyre made. In addition to examining what makes something attractive or emotionally pleasing, Hosey connects these questions with practical design challenges. Can the shape of a car make it more aerodynamic and more attractive at the same time? Could buildings be constructed of porous materials that simultaneously clean the air and soothe the skin? Can cities become verdant, productive landscapes instead of wastelands of concrete? Drawing from a wealth of scientific research, Hosey demonstrates that form and image can enhance conservation, comfort, and community at

every scale of design, from products to buildings to cities. Fully embracing the principles of ecology could revolutionize every aspect of design, in substance and in style. Aesthetic attraction isn't a superficial concern it's an environmental imperative. Beauty could save the planet.

The Second World War was turned on its head at the moment Admiral Kolhammer s ultra-modern stealth warships were hurled back through time from 2021. But no one could have predicted just how much of a nightmare would ensue . . . Only months after the Transition, the great powers scramble to develop the weapons of tomorrow. The year 1942 is now a world of crude jet fighters, monstrous attack helicopters, and unholy dirty bombs a mongrel technology, born decades prematurely. Then,

in a radical rewriting of history, Japanese forces sweep into Australia, foreign agents begin a campaign of terror in the USA, and Germany prepares for an all-out attack on Britain. The twenty-first-century forces must resort to the most extreme measures yet and face a future rife with possibilities all of them apocalyptic . . . [The Grove of the Eumenides: Essays on Literature, Criticism, and Culture, Frederick Glaysher](#) , , 0982677847, 9780982677841. East and West meet in a new synthesis of a global vision of humankind ranging over classic literature, ancient and modern, both Western and non-Western, from the dilemmas of modernity to mimesis and the United Nations, with extensive essays on Chinese, Japanese, and South-Asian literature. Clearly the work of a poet-critic attempting to embrace a larger portion of human experience than the personal postmodern self, reaching toward an epic vision of the twenty-first century. All the muck and glory of American and international experience and history mix in the complex tension of a mind struggling with itself and its Age. Acutely perceptive of the spiritual and moral nuances of literature, criticism, and culture, Glaysher confronts the loss of religious faith in the modern world and breaks through to a vision of the unity of the human longing for transcendence. "Poet Frederick Glaysher in these essays comments on a variety of literary and social issues, ranging from the plays of Sophocles, and the major works of Japanese literature, to the loss of religion and spirituality in modern society and literature." *New Titles Elected for Essay and General Literature Index*, H. W. Wilson Co., September 2007 "Intriguing because I stop and think about his arguments. What is the role of the universal, of epic poetry, and how has postmodernism dealt with mimesis? This book contains selections from Shah Mubarak Abroo (1683-1733), the most prominent North Indian poet of Eighteenth century. He was born in 1683 at Gwalior. His full name was Najam ud Din Shah Mubarak and his 'nom de plume' was Abroo. He was the grandson of the famous saint Muhammad Ghaus Gwaliori. Delhi was the centre of literary activities at that time. So he moved to Delhi, where he spent the rest of his life and died in 1733. A notable part of his works consist of mystic poetry, likely because he was from a mystic family. Most of his poetry consists of Ghazals but he also wrote Masnavis, Marsiyah and Mokhammas also. One of his Masnavi, Dar Mau''izah Ara'ish Ma'shooq is a written description of an important cultural rite.

A clue about her mother's death finally comes in the form of four teenage girls--or at least, that's what Brie thought they were when she met them on the first day of high school. The girls are not normal teenagers, but Hallows--descendants of archangels and humans--with supernatural powers that allow them to manipulate matter and cross miles of beach in seconds. Brie learns that she is a Hallow too, just like her late mother. But Brie's family has enemies--specifically the New Order, a group that killed most of Brie's family before the last survivors went into hiding one hundred years ago. Brie's new friends don't think the New Order killed Brie's mother, but that begs the question--who did? Now, Brie faces a choice--she can follow the clues her mother has left behind, and risk exposing her family to a death sentence from the New Order; or she can stay on Honolulu and keep her family safe, but miss the opportunity to stop the New Order from terrorizing the entire Hallow race.

[Innovative Methods of Teaching and Learning Chemistry in Higher Education, Ingo Eilks, Bill Byers](#) , 2009, 1847559581, 9781847559586. Two recent initiatives from the EU, namely the Bologna Process and the Lisbon Agenda are likely to have a major influence on European Higher Education. It seems unlikely that traditional teaching approaches, which supported the elitist system of the past, will promote the mobility, widened participation and culture of 'life-long learning' that will provide the foundations for a future knowledge-based economy. There is therefore a clear need to seek new approaches to support the changes which will inevitably occur. The European Chemistry Thematic Network (ECTN) is a network of some 160 university chemistry departments from throughout the EU as well as a number of National Chemical Societies (including the RSC) which provides a discussion forum for all aspects of higher education in chemistry. This handbook is a result of one of their working groups, who identified and collated good practice with respect to innovative methods in Higher Level Chemistry Education. It provides a comprehensive overview of innovations in university chemistry teaching from a broad European perspective. The generation of this book through a European Network, with major national chemical societies and a large number of chemistry departments as members make the book unique. The wide variety of scholars who have contributed to the book, make it interesting and invaluable reading for both new and experienced chemistry lecturers throughout the EU and beyond. The book is aimed at chemistry education at universities and other higher level institutions and at all academic staff and anyone interested in the teaching of chemistry at the tertiary level. Although newly appointed teaching staff are a clear target for the book, the innovative aspects of the topics

covered are likely to prove interesting to all committed chemistry lecturers.

Demos saw Nina walking off the Rundal ship in chains and Rai her would be protector covered in bruises. Never had he seen a female so brave, so able to defend herself before. He instantly is attracted to her. It is more than her beauty that captivates him, it is her spirit. He challenges Rai to become Nina's protector and wins. Her reluctance to accept him confuses but intrigues him. Nina must adjust to the male dominated world of Malka without losing who she is. Demos both infuriates and excites her, and shows her an unconditional love she has never felt before. Will they be able to overcome the many obstacles that stand in the way of their happiness? Or are they to different?

"The book is an excellent addition to those already available in the area and provides a very practical guide that students can pick up and use for reference throughout their dissertation process."-ESCalate (a Higher Education Academy Network publication)Like the previous editions of this bestselling text, Surviving Your

Dissertation: A Comprehensive Guide to Content and Process, Third Edition offers readers guidance that other dissertation guides often miss, from ways to improve one's writing, to identifying one's learning preferences, to dealing with emotional blocks. Using examples from a wide range of disciplines, the authors give readers expert advice on the entire dissertation process: selecting a suitable topic; conducting a literature review; managing data overload; building an argument; presenting the material, data, and results; and working with faculty committees. The entire text has been updated and fresh examples have been added to it. This edition features an up-to-the-minute discussion of online research and the use of software packages. The authors have expanded their coverage of qualitative work, and added information about the use of mixed methods to the book. These updates and more make the Third Edition of *Surviving Your Dissertation* a must have resource for graduate students. Key Features of the Third Edition: Walks readers through the dissertation process as an ideal mentor would. Devotes more attention to qualitative work, and touches upon mixed methods. Discusses online library resources and completing one's dissertation via the Internet. Features new material on the use of graphics. Includes information about informed consent forms.

[The Self As Symbolic Space: Constructing Identity and Community at Qumran, Volume 52, Carol Ann Newsom](#) , 2004, 900413803X, 9789004138032. This volume investigates critical practices by which the Qumran community constituted itself as a sectarian society. Key to the formation of the community was the reconstruction of the identity of individual members. In this way the "self" became an important symbolic space for the development of the ideology of the sect. Persons who came to experience themselves in light of the narratives and symbolic structures embedded in the community practices would have developed the dispositions of affinity and estrangement necessary for the constitution of a sectarian society. Drawing on various theories of discourse and practice in rhetoric, philosophy, and anthropology, the book examines the construction of the self in two central documents: the *Serek ha-Yahad* and the *Hodayot*.

[Camp 4: Recollections of a Yosemite Rockclimber, Steve Roper](#) , 2013, 1594852820, 9781594852824. * Includes stories of such greats as Royal Robbins, Yvon Chouinard, Allen Steck, and Warren Harding * Captures the raucous, outrageous, innovative spirit of climbing in Yosemite during this period * Portrays the advances in equipment and style that revolutionized big-wall climbing In the 1960's, California's Yosemite Valley was the center of the rock-climbing universe. Young nonconformists -- many of them the finest rock climbers in the world -- channeled their energy toward the largely untouched walls and cracks. Soon climbers from around the globe were coming to Camp 4 -- gathering spot for the creators of the Golden Age of Yosemite climbing -- to see what all the fuss was about. Climber and author Steve Roper spent most of 10 years living in the Yosemite Valley with its intriguing inhabitants. "Camp 4" is his take on the era's top climbers and the influences behind their achievements. The text is full of stories both hilarious and revealing about the likes of bolt-disdaining Royal Robbins; fun-loving, big-wall expert Warren Harding; free-climber Frank Sacherer; multi-talented Chuck Pratt; master craftsman Yvon Chouinard; and ill-fated Mark Powell. Roper also tips his hat to the elder statesmen of the 1930s and 1940s who pioneered early, important climbs in the valley. "Camp 4" looks at the most significant climbs, and the most riveting controversies of a legendary era. With more than 50 fascinating historical photographs, most never before published, "Camp 4" is the definitive history of Yosemite climbing during this period.

Written during the 1890s, the stories in this selection brilliantly recreate vivid images of Bengali life and landscapes in their depiction of peasantry and gentry, casteism, corrupt officialdom and dehumanizing poverty. Yet Tagore is first and foremost India's supreme Romantic poet, and in these stories he can be seen reaching beyond mere documentary realism towards his own profoundly original vision.

[How Few Remain, Harry Turtledove](#) , 2008, 0307531015, 9780307531018. From the master of alternate history comes an epic of the Second Civil War. It was an epoch of glory and success, of disaster and despair. Twenty years after the South won the Civil War, America writhed once more in the bloody throes of battle. Furious over the annexation of key Mexican territory, the United States declared total war against the Confederate States of America. And so, in 1883, the fragile peace was shattered. But this was a new kind of war, fought on a lawless frontier where the blue and gray battled not only each other, but the Apache, the outlaw, and even the redcoat. Along with France, England entered the fray on the side of the South, with blockades and invasions from Canada. Out of this tragic struggle emerged figures great and small. The disgraced Abraham Lincoln crisscrossed the nation championing socialist ideals. Confederate cavalry leader Jeb Stuart sought to prevent wholesale slaughter in the desert Southwest, while cocky young Theodore Roosevelt and stodgy George Custer bickered over modern weapons--even as they drove the British back into western Canada. Thanks to the efforts of journalists like Samuel Clemens, the nation witnessed the clash of human dreams and passions. Confederate genius Stonewall Jackson again soared to the heights of military expertise, while the North's McClellan proved sadly undeserving of his once shining reputation as the "young Napoleon." For in the Second War Between the States, the times, the stakes, and the battle lines had changed . . . and so would history. Once again, Harry Turtledove has created a thoroughly engrossing alternate history novel, a profoundly original epic of blood and honor, courage and sacrifice, set amidst the raw beauty of young America's frontier wilderness. [A Serious Character: The Life of Ezra Pound, Humphrey Carpenter](#) , 2010, 0571269095, 9780571269099. Ezra Pounds greatness as a man of letters poet, translator, critic, editor, pedagogue, universal correspondent made him a central figure in the literature of the twentieth century. He was an exotic and controversial character throughout his life, and his public career achieved melodrama in 1945 when he was indicted on a charge of treason, for broadcasting Axis propaganda on Rome radio during the war. He was eventually confined to a Washington psychiatric hospital for thirteen years. The final period of his life, after his release and return to Italy, was as dramatic and tragic as anything that had gone before. In this vigorous and fully documented biography Humphrey Carpenter carefully scrutinizes and often takes issue with the accepted valuation of Pounds achievements and his personality. He had access to Pounds vast

correspondence including highly revealing letters to his parents and to medical records and confidential American government memoranda relating to Pounds indictment and trial. A Serious Character is rich in fascinating detail and acutely challenging in its judgements and commentary. Its title is taken from one of Pounds favourite sayings (first recorded in 1913): Are you or are you not, a serious character?.

[Sleeping With the Devil: How Washington Sold Our Soul for Saudi Crude, Robert Baer](#) , 2004, 1400052688, 9781400052684. Saudi Arabia is more and more an irrational statea place that spawns global terrorism even as it succumbs to an ancient and deeply seated isolationism, a kingdom led by a royal family that cant get out of the way of its own greed. Is this the fulcrum we want the global economy to balance on? In his explosive New York Times bestseller, See No Evil, former CIA operative Robert Baer exposed how Washington politics drastically compromised the CIAs efforts to fight global terrorism. Now in his powerful new book, Sleeping with the Devil, Baer turns his attention to Saudi Arabia, revealing how our governments cynical relationship with our Middle Eastern ally and America s dependence on Saudi oil make us increasingly vulnerable to economic disaster and put us at risk for further acts of terrorism. For decades, the United States and Saudi Arabia have been locked in a harmony of interests. America counted on the Saudis for cheap oil, political stability in the Middle East, and lucrative business relationships for the United States, while providing a voracious market for the kingdom s vast oil reserves. With money and oil flowing freely between Washington and Riyadh, the United States has felt secure in its relationship with the Saudis and the ruling Al Saud family. But the rot

at the core of our friendship with the Saudis was dramatically revealed when it became apparent that fifteen of the nineteen September 11 hijackers proved to be Saudi citizens. In *Sleeping with the Devil*, Baer documents with chilling clarity how our addiction to cheap oil and Saudi petrodollars caused us to turn a blind eye to the Al Sauds culture of bribery, its abysmal human rights record, and its financial support of fundamentalist Islamic groups that have been directly linked to international acts of terror, including those against the United States. Drawing on his experience as a field operative who was on the ground in the Middle East for much of his twenty years with the agency, as well as the large network of sources he has cultivated in the region and in the U.S. intelligence community, Baer vividly portrays our decades-old relationship with the increasingly dysfunctional and corrupt Al Saud family, the fierce anti-Western sentiment that is sweeping the kingdom, and the desperate link between the two. In hopes of saving its own neck, the royal family has been shoveling money as fast as it can to mosque schools that preach hatred of America and to militant fundamentalist groups an end game just waiting to play out. Baer not only reveals the outrageous excesses of a Saudi royal family completely out of touch with the people of its kingdom, he also takes readers on a highly personal search for the deeper roots of modern terrorism, a journey that returns time again and again to Saudi Arabia: to the Wahhabis, the powerful Islamic sect that rules the Saudi street; to the Taliban and al Qaeda, both of which Saudi Arabia helped to underwrite; and to the Muslim Brotherhood, one of the most active and effective terrorist groups in existence, which the Al Saud have sheltered and funded. The money and arms that we send to Saudi Arabia are, in effect, being used to cut our own throat, Baer writes, but America might have only itself to blame. So long as we continue to encourage the highly volatile Saudi state to bank our oil under its sand and so long as we continue to grab at the Al Sauds money we are laying the groundwork for a potential global economic catastrophe. From the Hardcover edition.

[Women's America: Refocusing the Past, Linda K. Kerber, Jane S De Hart](#) , 2000, 0195121805, 9780195121803. *Women's America*, now in its fifth edition is divided into four sections which cover the span of women's experiences in the US from colonial times to the present. Each section begins with a short introduction by the editors which sums up the particular historical era being covered and the scope of the documents which follow. The editors have carefully selected writings covering a range of aspects on the interaction of race, class, ethnicity, and gender in women's lives. Each of the roughly 90 essays and legal documents presented is prefaced with a brief headnote describing the piece's significance and historical context. This fifth edition has been extensively revised and contains 34 new documents including several original essays written especially for this book. More material has been added about "anti feminist" women and about the impact of ethnicity in American culture. In addition, the bibliographic essay in the Further Readings section has been entirely rewritten to take into account the growing body of recent literature in the field.

For some 20 years at the beginning of the century J. M. Barrie enjoyed enormous commercial success with a wide variety of plays, but he is best known for Peter Pan. It retains its popularity today, both in the original and in adaptations. As well as being the author of the greatest of all children's plays Barrie also wrote sophisticated social comedy and political satire, much of it now newly topical. The Admirable Crichton and What Every Woman Knows are shrewd and entertaining contributions to the politics of class and gender, while Mary Rose is one of the best ghost stories written for the stage. Under the General Editorship of Michael Corder of the University of York, the texts of the plays have been newly edited and are supplemented with a scholarly introduction and detailed annotation.

[Next Generation Telecommunications Networks, Services, and Management, Thomas Plevyak, Veli Sahin](#) , 2011, 1118211421, 9781118211427. An unprecedented look into the present and future of next generation networks, services, and management in the telecommunications industry. The telecommunications industry has advanced in rapid, significant, and unpredictable ways into the twenty-first century. Next Generation Telecommunications Networks, Services, and Management guides the global industry and academia even further by providing an in-depth look at current and developing trends, as well as examining the complex issues of developing, introducing, and managing cutting-edge telecommunications technologies. This is an orchestrated set of original chapters written expressly for this book by topic experts from around the globe. It addresses next generation technologies and architectures, with the focus on networks, services, and management. Key topics include: Opportunities and challenges of next generation telecommunications networks, services, and management; Tri/Quad Play and IP-based networks and services; Fault, Configuration, Accounting, Performance, and Security (FCAPS) requirements; Convergence and an important convergence vehicle, IP Multimedia Subsystem (IMS); Next generation operations and network management architecture; Ad hoc wireless and sensor networks and their management; Next generation operations and network management standards from a strategic perspective. A defining look at the future in this field. This book will serve as a contemporary reference for the growing global community of telecommunication and information professionals in industry, government, and academia. It will be important to faculty and graduate students of telecommunications as a graduate textbook.

Sams Teach Yourself Object Oriented Programming in 21 Days differs from other OOP books in two main ways. Many classic OOP books are designed for software engineers and teach at an academic level. Sams Teach Yourself Object Oriented Programming in 21 Days presents accessible, user-friendly lessons designed with the beginning programmer in mind. Other OOP books work to present both OOP and to teach a programming language (for example: Object-Oriented Programming in C++). Although Sams Teach Yourself Object Oriented Programming in 21 Days uses Java to present the examples, the book is designed to present concepts that apply to any OOP environment.

[Bold Experiment: A Documentary History of Australian Immigration Since 1945, John Lack](#) , 1995, 0195535480, 9780195535488. Australia's post-war immigration confronts historians with perhaps the greatest paradox in our recent history. Policies and programmes of the 1940s and 1950s, designed and adopted to confirm and fortify our identity as a British-European outpost, eventually resulted in a complete abandonment of racial exclusivity. For more than half a century 'White Australia' was the foundation population policy and socio-cultural programme of the Australian Commonwealth. Bold Experiment, the first general collection of source material to describe and analyse the pattern of our immigration history since 1945, traces the undermining and destruction of 'White Australia', and the goals, policies and programmes which have replaced it. Bold Experiment, a collection of documents, examines the development of immigration policy since 1945, the migrant experience, and the host response. It is divided into four roughly chronological, though overlapping, sections. Section One examines the origins of Australia's 'bold experiment', the development of policy and its implementation between 1945 and 1954, and migrant experiences in those years. Section Two explores aspects of the settlement experience of those who were part of the large migrations from Britain, Italy, Greece and other parts of Europe between the 1940s and the 1970s. Section Three focuses upon the decline of the White Australia policy in the 1960s, its overturning as a consequence of the Vietnam War, the refugee crisis, the

settlement experience of migrants from Indochina, and the controversy surrounding their immigration. Section 4 explores the recent debate over desirable and undesirable outcomes of immigration in which one side asserts that it has led to a crisis of national identity, while the other celebrates a new diversity. This section also deals with migrants' perspectives on themselves, their communities and their place in Australian society.

The volume concludes with a comprehensive bibliography, which includes the period 1967-1997, on adsorptive separations, environmental applications, PSA, parametric pumping, ion-exchange and chromatography. [Spring Flowers, Spring Frost: A Novel, Ismail Kadare](#), 2002, 155970635X, 9781559706353. In a small town at the foot of the northern highlands, life appears to go on as it always has, but people are in a state of shock. The robbery of a local bank is seen as a sign of modern times and of westernization in this backward Balkan land. At the same moment, the harsh blood-for-blood law of the mountain folk, the fearsome Kanun, like everything else forbidden under the fifty years of Communist rule, is emerging from hibernation. Other strange things occur. Mysterious events that are two thousand years, two centuries, or even two years old reemerge in daily life. The marriage of a girl and a snake is not just

a legend but a news item - a cyclical event recurring every few hundred years that is as much a part of the modern as of the ancient world. In a desolate spot on the outskirts of the town, some people search for the entrance to a tunnel that is said to lead to the secret archives of the State. They're looking for evidence of their own crimes - or of hypothetical crimes they might have committed. People say that the ghostly likenesses of Hoxha, Brezhnev, Ulbricht, Thorez - and even Oedipus - have been seen lurking there.

[The Last Great Quest: Captain Scott's Antarctic Sacrifice, Max Jones](#) , 2003, 0192804839, 9780192804839. Many have told the story of Sir Robert Scott's dramatic and, ultimately, tragic race to the South Pole. But in *The Last Great Quest*, Max Jones adds a new dimension to the story by probing the nature of heroism in modern Britain as reflected in the strengths and weaknesses of Scott himself. In particular, he charts the cultural reverberations of Scott's death and sacrifice on the eve of the greatest slaughter in British history--the First World War. A dramatic opening leads to a compelling examination of the British traditions of exploration, the scientific ambitions of the expedition, the "race to the South Pole," and the disaster itself. Jones argues that Scott's death was a pivotal moment in British history, and central to this is his extraordinary journal--the ultimate expression of self-control and heroism in the face of death--which was immensely popular in the years before the war. This important and challenging interpretation of Scott's life and death re-evaluates the man and his sacrifice. Indeed, Jones shows that the story of Scott of the Antarctic is a key to understanding modern British history, connecting Scott with Dr. Livingstone, the Titanic disaster, and the ascent of Everest. In particular, Scott's story helps us to fathom the generation who fought and died in the Great War. The most important new contribution to our knowledge of this compelling story in nearly 25 years, and the first account that sets the story in a wider historical context, *The Last Great Quest* brims with original conclusions that are based on previously unavailable evidence.

[The Economics of Ecstasy : Tantra, Secrecy and Power in Colonial Bengal: Tantra, Secrecy and Power in Colonial Bengal, Department of Comparative Studies Ohio State University Hugh B. Urban Assistant Professor of Religious Studies](#) , 2001, 0198031823, 9780198031826. This is a study of the Bengali Kartabhaja sect and its place in the broader movement of Tantrism, an Indian religious movement employing purposely shocking sexual language and rituals. Urban looks closely at the relationship between the rise of the Kartabhajas, who flourished at the turn of the 19th century, and the changing economic context of colonial Bengal. Made up of the poor lower classes laboring in the marketplaces and factories of Calcutta, the Kartabhajas represent "the underworld of the imperial city." Urban shows that their esoteric poetry and songs are in fact saturated with the language of the marketplace and the bazaar, which becomes for them the key metaphor used to communicate secret knowledge and mystical teachings.

[The Osiris Revelations, A. J. Marshall](#) , 2005, 0955188601, 9780955188602. Set in 2049, the novel proposes a realistic scenario for man's fledgling exploration of space. The book starts innocently enough with an interesting, if not hypnotic, discovery on Mars. Thereafter it builds into a pacy thriller, encompassing ancient texts, criminal intent, cyber systems, failed relationships and adrenaline filled action sequences. A good deal of the action takes place on Mars, a planet which always fires the imagination and will continue to do so in the coming decades, as the reality of a manned landing draws nearer. However, other locations including the moon, a space station and a revolutionary space ship all help to cement the storyline into an astonishingly realistic yarn. [An Everlasting Meal: Cooking with Economy and Grace, Tamar Adler](#) , 2012, 1439181888, 9781439181881. In this meditation on cooking and eating, Tamar Adler weaves philosophy and instruction into approachable lessons on feeding ourselves well. An Everlasting Meal demonstrates the implicit frugality in cooking. In essays on forgotten skills such as

boiling, suggestions for what to do when cooking seems like a chore, and strategies for preparing, storing, and transforming ingredients for a weeks worth of satisfying, delicious meals, Tamar reminds us of the practical pleasures of eating. She explains what cooks in the worlds great kitchens know: that the best meals rely on the ends of the meals that came before them. With that in mind, she shows how we often throw away the bones, skins, and peels we need to make our food both more affordable and better. She also reminds readers that almost all kitchen mistakes can be remedied. Summoning respectable meals from the humblest ingredients, Tamar breathes life into the belief that we can start cooking from wherever we are, with whatever we have. An empowering, indispensable work, *An Everlasting Meal* is an elegant testimony to the value of cooking.

Economics: Beyond the Millennium contains articles by leading authorities in various fields of economic theory and econometrics, each of whom gives an account of the current state of the art in their own field and indicate the direction that they think it will take in the next ten years. The fields covered are grouped into three categories: the microfoundations of macroeconomics, where Malinvaud evaluates the theory of resource allocation and Hildenbrand examines the empirical content of economic theories; markets and organizations, where both Gabszewicz and D'Aspremont et al. look at imperfect competition and general equilibrium, Scotchmer and Thies consider spatial economics, Ponsard the future of managerial economics, while Van Damme looks at the next stage of game theory; and econometrics, where Gourieroux reviews econometric modelling in general, Maravall looks at time series, Lubrand and Bauwens examine Bayesian analysis, and Blundell looks at the rapidly expanding area of microeconometrics.

[Sea of Many Returns, Arnold Zable](#) , 2010, 192179948X, 9781921799488. The island of Homer's Odyssey has beguiled readers for millennia. Master storyteller Arnold Zable takes us to modern-day Ithaca, to its mountains, its villages and its harbours, and into the houses of its people. Xanthe is drawn to Ithaca, the birthplace of her father Manoli and her maternal grandfather Mentor. She is translating Mentor's manuscript, his story of leaving Ithaca and his life in Australia: fleeing the Kalgoorlie riots, working in Melbourne coffee houses with his compatriots, studying in the State Library, and learning to dream his way back to Ithaca and back to his lost son. Slowly she begins to understand her father's dark moods: the lure of the sea, the promise of fortune. And the ache for the hum of the Ionian winds, the rhythm of the looms and the silence of the rocky Ithacan soil. Sea of Many Returns is a profound meditation on displacement, nostalgia and exile—a story that affirms the enduring resonance of the Odyssey for voyagers of all times. 'Here, once again, Zable embraces restless and heartsore characters, people whose deep longings are sketched with a few reverent gestures—the effect on the reader is profound.' Age

[Portland: People, Politics, And Power, 1851-2001, Jewel Lansing](#) , 2005, 0870711180, 9780870711183. This is the definitive book on Portland's political history, beginning in 1845 when a 16-lot townsite was laid out on the bank of the Willamette River and continuing through the sesquicentennial of Portland city government. Jewel Lansing has amassed a treasure trove of information on Portland's civic and political life, which she presents in a lively volume, organized around accounts of the successive reigns of Portland's mayors. The story is rich in anecdotes that bring to life the unique individuals and controversial issues of Portland's distant and more recent past. Lansing shows that Portland's path to its present place as the twenty-eighth largest city in the United States, with a deserved reputation as one of the nation's most livable cities, has not always been smooth. Corruption, profiteering, and wide-open vice characterized the City of Roses at the turn of the twentieth century, and every era has had its own controversies and rivalries: disputes over railroad franchises and rights-of-way, women's suffrage, public versus private power, the Chinese Exclusion Act,

Prohibition, and the sitting of freeways, to name just a few. Colorful personalities, from Populist governor-turned-mayor Sylvester Pennoyer to tavern-owner-turned-mayor Bud Clark, have emerged in every period, as the city has grown and its government evolved from a small group of volunteers to a complex bureaucracy with 8,000 employees and a billion-dollar budget. Anyone with an interest in Portland, and in learning more about the individuals, events, and issues that have shaped it, will find this comprehensive history fascinating and extremely informative.

[Business Plan to Business Reality: The Practical Guide to Working for Yourself in Canada, James R. Skinner \(James Ross\)](#) , 2003, 013039095X, 9780130390950. This text fills the need for a brief, modular text on small business and entrepreneurship at the college level. In Business Plan to Business Reality, the process of planning a small business has been reduced to five modules that correspond to the five components of a simplified business plan - Concept, Feasibility, Marketing, Operations, and Finances. This realistic business plan is sufficient for the vast majority of ventures that would be undertaken by graduates of college business programs. These businesses are almost always 1- or 2-owner, service- or retail-oriented firms with a few employees - rather than the large-scale ventures focused on by most of the leading books on the market.

[Understanding Rock: Essays in Musical Analysis, John Rudolph Covach, Graeme MacDonald Boone](#) , 1997, 0195100050, 9780195100051. Amid the recent increase in scholarly attention to rock music, Understanding Rock stands out as one of the first books that subjects diverse aspects of the music itself to close and sophisticated analytical scrutiny. Written by some of the best young scholars in musicology and music theory, the essays in this volume use harmonic, melodic, rhythmic, formal, and textual approaches in order to show how and why rock music works as music. Topics of discussion include the adaptation of blues and other styles to rock; the craft of songwriting; techniques and strategies of improvisation; the reinterpretation of older songs; and the use of the recording studio as a compositional tool. A broad range of styles and groups is covered, including Yes, the Beach Boys, Cream, k.d. lang, Paul Simon, Jimi Hendrix, and the Grateful Dead.

[Debating the Earth: The Environmental Politics Reader, John S. Dryzek, David Schlossberg](#) , 1998, 0198782276, 9780198782278. Debating the Earth highlights the diversity of political responses to environmental issues by bringing together forty essential readings in environmental politics. These readings cover various definitions of environmental crisis, its causes and effects, responses to it in institutions, politics, policies, community organizing, and lifestyle. They are organized in a way that emphasizes the differences and debates across the various schools of thought on environmental affairs. The key debates cover: The Severity of Environmental Problems: How real are ecological limits? Reformist Responses to Environmental Issues: Can expert administrators or liberal democratic institutions respond effectively? Environment and Economics: Is there a clash between economic and environmental values? Can sustainable development reconcile them? Green Critiques: What sorts of radical changes are advocated by deep ecologists, socialist ecologists, ecofeminists, environmental justice activists and others? Society, the State, and the Environment: How can green critiques be put into political practice in social movements and democratic structures? The book offers a comprehensive introduction to environmental politics and will be a valuable text for all students of environmental politics and policy, and anyone with an interest in environmental issues.

In The House of Bernarda Alba, a tyrannical matriarch rules over her house and five daughters, cruelly crushing their hopes and needs. The other plays here also portray female characters whose desires are tragically and violently frustrated: a woman longing for a child in Yerma, and a bride yearning for her lover in Blood Wedding. All appeal for freedom and sexual and social equality, and are also passionate defences of the imagination: in Christopher Maurers words, poetic drama unsurpassed by any writer of our time.

Vatis, Markle Foundation Task Force, Brookings Institution, Center for Strategic and International Studies \(Washington, D.C.\)](#) , 2003, 0974780901, 9780974780900. Report concludes that by using currently available technology, the government can set up a network that substantially improves our ability to prevent terrorist attacks and protect civil liberties. It provided details for the necessary elements of a proposed System-wide Homeland Analysis and Resource Exchange (SHARE) Network that would more effectively combat terrorism than our current system, while protecting privacy. The public's trust in a governmental network that makes use of information about its own people can be achieved only if government-wide guidelines for information sharing and privacy protection are established after open public debates on the issue. The Task Force therefore proposed that the President set the goal of creating such a network, and issue clear government-wide policy guidelines for the collection and use of information about people in the U.S., including private sector information.

[The Nibelungenlied, none](#) , 2004, 0140441379, 9780140441376. Written by an unknown author in the twelfth century, this powerful tale of murder and revenge reaches back to the earliest epochs of German antiquity, transforming centuries-old legend into a masterpiece of chivalric drama. Siegfried, a great prince of the Netherlands, wins the hand of the beautiful princess Kriemhild of Burgundy, by aiding her brother Gunther in his struggle to seduce a powerful Icelandic Queen. But the two women quarrel, and Siegfried is ultimately destroyed by those he trusts the most. Comparable in scope to the Iliad, this skilfully crafted work combines the fragments of half-forgotten myths to create one of the greatest epic poems - the principal version of the heroic legends used by Richard Wagner, in The Ring.

[Narrative Medicine: Honoring the Stories of Illness, Rita Charon](#) , 2006, 0199883211, 9780199883219. Narrative medicine has emerged in response to a commodified health care system that places corporate and bureaucratic concerns

over the needs of the patient. Generated from a confluence of sources including humanities and medicine, primary care medicine, narratology, and the study of doctor-patient relationships, narrative medicine is medicine practiced with the competence to recognize, absorb, interpret, and be moved by the stories of illness. By placing events in temporal order, with beginnings, middles, and ends, and by establishing connections among things using metaphor and figural language, narrative medicine helps doctors to recognize patients and diseases, convey knowledge, accompany patients through the ordeals of illness--and according to Rita Charon, can ultimately lead to more humane, ethical, and effective health care. Trained in medicine and in literary studies, Rita Charon is a pioneer of and authority on the emerging field of narrative medicine. In this important and long-awaited book she provides a comprehensive and systematic introduction to the conceptual principles underlying narrative medicine, as well as a practical guide for implementing narrative methods in health care. A true milestone in the field, it will interest general readers, and experts in medicine and humanities, and literary theory.

No one in town ever talks about this mystery but Bobby wants to know what happened then and if it was the reason why her grandmother always had a sad, faraway look in her eyes. Red-haired, hot-tempered Bobby is an ultra-modern twelve-year-old girl from a Celtic background with ideas that could be described as alternative. Raised to be open-minded and confident by a single, working mother who holds angel card readings and is interested in new age beliefs, Bobby is fiercely independent in her own thinking and behaviour. When she meets another homeschooler, David, who is from a big, highly educated Italian family and has been raised to have more conservative, mainstream beliefs and old-fashioned values, it is difficult to imagine how they could ever be friends. However, they do have something in common. David too has a mystery that he wants to solve about his own heritage. Bobby is determined that she will solve the mystery of the missing children whether the wary David is prepared to be involved or not. But David does not have much choice. With the help of a crystal ball possessing magical powers that Bobby has just stumbled across, the two are transported through a wormhole into another time dimension where they make startling discoveries, not only about their own ancestries but also about themselves. Join them on an adventure where an evil workhouse oracle and her orc slaves threaten to overrun the idyllic island paradise which has now become their new home.

When counterfeit prescription medicine started turning up in the nation's supply and threatening some of the sickest and weakest patients, Katherine Eban went in search of the story. What she found was an unlikely and irresistible group of heroes - five aging South Florida investigators who dubbed themselves the Horsemen of the Apocalypse and held their meetings at Hooters. Working around the clock on cases no one else wanted to tackle, they followed the trail of stolen and contaminated medicine in a takedown eventually dubbed Operation Stone Cold. This riveting page-turner takes us along with the Horsemen as they wade into "more rank Florida unseemliness than a Carl Hiaasen novel" ("Salon") to ultimately uncover \$33 million in bad medicine and make more than sixty arrests. "In a style reminiscent of some of the best detective storytellers, Eban takes us breathlessly through robberies, back-room deals, cluttered and dirty warehouses, crooked dealers, sociopathic profiteers, shell companies, and state and federal laws so porous that convicted felons can become prescription-drug brokers."--"The Boston Globe" "In her vibrant tale, Eban introduces us to these people and makes the message clear: It shouldn't happen to anyone, and it could happen to you."--"The Washington Post Book World" Katherine Eban, an investigative medical reporter and a Rhodes Scholar, has worked for the "New York Times, New York, New York Observer, "and "ABC News." Her articles have appeared in the "Nation," "Playboy," the "New Yorker," "Vogue," and "Glamour," and she is the recipient of an Alicia Patterson Fellowship. She lives in Brooklyn.

[Custom Kicks, Kim Smits, Matthijs Maat](#) , 2008, 1856695425, 9781856695428. Customizing is hot. Everything can be customized: from pimped cars to retro furniture. This major trend is especially popular in footwear. Customizing your own shoes is a way of stepping out of the crowd, of showing your personality. Just about every sneaker brand has found a way to put street art into their products; rain boots have never been more hip; and there are even customize festivals and exhibitions. By inviting 150 artists and illustrators to show/create customized shoes the book will appeal not only to sneaker freaks, fashion fetishists, and trend watchers, but also to the graphic design and art audience. The main focus is on the artwork but the text examines the trend and asks: How did it start? What materials do the artists use? There are also tips and tricks on how to create your very own unique shoes.

Uses a unique question-and-answer format to help students understand why cognitive psychologists approach problems as they do. This text explains the questions cognitive psychologists ask, gives clear answers to students, and provides interesting, lively, and comprehensive coverage of controversies in the field. Pedagogical features ask students to apply what they have learned to their daily lives. "Neuroscience Boxes" in each chapter offer supplemental material for instructors to cover neuroscience in their courses if they choose.

[Public Procurement in the EU: A Practitioner's Guide, Peter Armin Trepte](#) , 2007, 0199286914, 9780199286911. This is a detailed and practical guide to the January 2006 EC Procurement Directives in the public and utilities sectors, which set out the minimum standards to be provided by the EU member states in guaranteeing a level playing field for regulating public procurement. It clearly explains the legal provisions that must be complied with in order to compete successfully for public contracts throughout the European Community, including those involving the Community institutions

themselves.

This is Module 5 of Goltech Therapy. Goltech is a revolutionary and advanced approach to the remediation of musculo-skeletal disorders. Its fundamental premise is that most neck, back and other joint problems originate with soft-tissue difficulties. Based on that premise, two essential and core features of its approach are: 1. Development of correct posture and lifestyle habits. 2. Ensuring each and every part of the soft-tissue (muscle, tendon & ligament) is strong and flexible, and working synergistically with other soft tissue structures in a balanced way.

[Seven Men Who Rule the World From the Grave, Dave Breese](#) , 1992, 1575675854, 9781575675855. Though their bodies lie cold and dormant, the grave cannot contain the influence these seven men have had on today's world. They continue to rule because they have altered the thinking of society. They generated philosophies that have been ardently grasped by masses of people but are erroneous and antisciptural. Today these ideas pervade our schools, businesses, homes, and even the church. As we continue to unknowingly subscribe to their philosophies, we keep the grave open for Charles Darwin, Karl Marx, Julius Wellhausen, John Dewey, Sigmund Freud, John Maynard Keynes, and Soren Kierkegaard. Dave Breese warns us of the dangers of believing unreservedly the ideas of these seven men. He also reminds us of the only man whose life and words we can trust completely- Jesus Christ.

[One man's justice, Akira Yoshimura](#) , 2001, 0151006393, 9780151006397. Japan just after World War II is the setting for this searching and provocative novel. Takuya, an officer in the former Imperial Army, is only mildly surprised when he receives a postcard asking him to report to the U.S. Regional Command Headquarters in Tokyo. He assumes that the occupying authorities have learned of his involvement in the execution of American prisoners-of-war. Now he is a fugitive in his own country. As he travels on crowded trains through a land of defeat, humiliation, and hunger, he is haunted by dark memories of the war. With newspapers denouncing the Imperial Army and widespread talk of prosecution for war crimes, he fears that his past will be revealed. And yet Takuya doesn't feel like a criminal. Why should an honest and

dutiful man like him be prosecuted by the very people who dropped atomic bombs on Hiroshima and Nagasaki, slaughtering thousands? As he soon learns, truth and justice have no place in a world where the victors determine the rules of the game. *One Man's Justice* is an unnerving story of timeless relevance from a master of the psychological novel.
