

One Day Conference on “Role of ICT in Education”

SM Foundation Nepal together with High Level Commission for Information Technology, Computer Association of Nepal, FIT Nepal, ITS Nepal, FOSS Nepal, SeaGate Institute of Technology and other supporting organizations are organizing a one day national conference on “**Role of ICT in Education**” in order to create awareness on recent developments in ICT. SM Foundation is a non profit organization helping children through ICT Education.

Today, technological implementations may reach across campuses, institutions, departments, offices and other workplaces and often require the integration of systems involving both academic and business units. It is a collaborative approach, that needs not only technology, but also strong leaders who know how to engage whole communities as well as top-level strategists. The conference follows ICT in Education. It will provide a unique opportunity to interact with education leaders and decision makers from around the country and beyond, who have a shared interest in improving educational achievements with the integration of ICTs.
