Deirdre Imus: "My motivation is simple: Children are our most precious natural resource. Their environment shouldn't harm them. They cannot protect themselves."

Who We Are/About Us::

Dear Deirdre: You are correct! Children can not protect themselves -- they need your help and that of your husband, Don Imus, through the publicity you can both can provide.

My website, www.guineapigsrus.org, lists a large number of electric and telephone items that are linked to increases in autism, asthma, epilepsy, poor quality sleep/depression, Alzheimers and Parkinson's diseases, and more..... Childhood Leukemia and immune deficiency has been found to be associated with low level magnetic fields -- \$46 mil EMF RAPID Study (concluded in 1999).

See my letter: "Hazardous substances includes electromagnetic fields...." Link: <http://groups.google.com/group/omeganews/t/5f70aa6d67502d9?hl=de> This is a post of an email exchange re KIDS SAFE CHEMICALS ACT.

The following three VIP appeal letters of mine, are not on my website due to lack of funding:

You may be aware of the congressional hearing in Washington, D.C. this week re cell phones. See also: The "Cellphones and Brain Tumors: 15 Reasons for Concern," report is available online at www.radiationresearch.org.....

Children everywhere depend upon adults who can break through "media wall of silence" (and outright ignorance and neglect) to help inform parents of simple, cost-free action that will begin to reduce the sort of close, chronic, electric field exposures that promote health problems that are known to improve for those who practice "prudent avoidance!"

Are you and Don willing to help? Thanks and take care - Joanne

Dear Judy: Thank you for taking the time to let me know you are encouraged by the impressive list of other concerned activists, researchers and citizens! Each person offers their "uniqueness" in one of many battles I believe will soon lead to "opening many eyes and ears," if not the end of a very long war [the quest for widespread publicity that will finally force proper studies free of industry and government control].....

Your own contributions are invaluable and much appreciated! Best wishes and take care - Joanne
