

Teach!Mi

*Learn, solve, train yourself, achieve good grades
Let's change the way people learn!*

SUMMARY

Teach!Mi is a mobile app aiming to help pupils, students and their parents validate knowledge level and address the attainment' gap, learn practical subjects by solving different tasks and exploring theoretic material.

On top of that you can set goals, take part in events and challenge with friends. It is an appealing pocket tutor available wherever and whenever you want!

PROBLEM

Every student has faced some problems while preparing for exams:

- Studying is usually a boring thing;
- Competitiveness;
- Lack of free time.

At the same time every kiasu parent considers these questions:

- How to track my child's personal progress?
- How to help my child with homework effectively?
- How to cut expenses on educational courses?
- How to figure out my child's real knowledge level?

TARGET MARKET

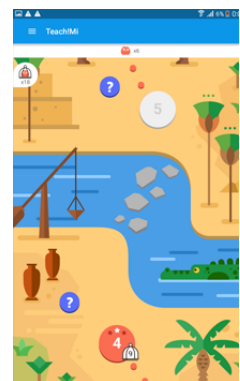

Teach!Mi will be useful for:

- Primary 5-6,
- Secondary 1-5,
- Their parents,
- People preparing for Singapore Cambridge GCE exams.

UNIQUE VALUE PROPOSITION

Teach!Mi is a game-based online tutor for pupils, students and their parents. It helps to validate real knowledge level and prepare for different tests and even GCE "O" exam! Three levels of difficulty, eight various task types, progress tracking, hints and ever-increasing number of themes.

Moreover, parents now can help their children with homework using the "Solve" module. It provides solution for customized tasks (or exams) within seconds with logical step by step explanation.

TEAM

We are different, but close-knit. Mivar technologies have gathered us, our work attitude and life goals have assembled us in a strong team. We are software developers that have skills, knowledge, ideas and will to create something unique and useful for millions of people. We want to see changes! Change the way people learn is our first goal.

Would glad to see you on <http://teachmi.gamp.tech/> !
