

# IQTCRAWLER

## INVITATION Follower group meeting #1

This project has received funding from  
the European Union's Horizon 2020  
research and innovation programme  
under grant agreement No 779852

We would like to see you to the first meeting in the IoTcrawler follower group.

Come and meet the international partners from the IoTcrawler project – the leading experts within the Smart City field. The partners will present the project, the underlying vision and purpose with a search engine for Internet of Things as well as the first potential use cases, which could be implemented in your city. The use cases present a view of the future for Internet of Things where access and discoverability of data is made easy for everyone.

You will have the possibility to influence the direction that IoTcrawler will take and participate in an informal debate.

**IoT**CRAWLER

## **WHAT**

17.30 – 17.45: Welcome by Michelle Bach, City of Aarhus

17.45 – 18.15: Introduction to lotCrawler by Antonio Skarmeta, University of Murcia and Payam Banarghi, University of Surrey
