**2014**

## "Open Hardware And Open Source Community"

"Open Hardware And Open Source Community" is our theme for MOSCMY 2014 which reflect our objective to share and explore the avenues on why and how Open Source Software and technology have contributed as the foundation and catalyst for mobility initiatives.

### Focus For MOSCMY 2014

Our focus for MOSCMY 2014 will be around the utilization of Open Source in Open Hardware and Open Source Community in Malaysia, and how we could leverage in enhancing your business values and operational efficiency. Our keynote sessions will be focusing in the trends for both Open Source and open hardware and the outlook for the near futures. Other sessions cover experience sharing with showcase of Open Source related solutions' functionalities and capabilities.

**Menara SSM @ Sentral,  
Kuala Lumpur  
24 - 25 Sept, 2014**

Join us on 24th and 25th September 2014 at the 6th Malaysia Open Source Conference for Year 2014 (MOSCMY 2014) in Kuala Lumpur, Malaysia. Being the ONLY private and brand independent gathering for Open Source Software (OSS) in Malaysia, MOSCMY 2014 has always been the key event for OSS providers, system integrators, government agencies, IT users, educators, consultants and technical aficionados.
