

An underwater photograph of a shipwreck covered in coral and algae, with several fish swimming around it. The scene is set in clear blue water.

SEA PIXELS PHOTOGRAPHY COMPETITION

Win a short escape to one of SA's beautiful national parks and help us learn more about the State's maritime heritage!

There are so many great shipwrecks and stories associated with South Australia's maritime heritage (over 800 historic shipwrecks!), but we simply don't have enough good images of them.

The winner from each category will be awarded a certificate to recognise their winning entry, while the overall winner will win an escape to stay at one of DEWNR's accommodation options in a South Australian national park to the value of \$450!

Entering is easy. Simply upload a photo of our State's maritime heritage, select which category you wish to enter in, and tell us what the photo is and where you took it! Plus you can enter more than once!
