

Peninsula SunShares

Solar. Simple. Together.

Thinking about installing solar on your home but don't know where to start or think it's just too expensive?

Peninsula SunShares is here to help!

Please join us for a free workshop to learn more about how we can go solar together this summer.

Sunday, June 14th
2:00 pm - 3:30 pm
Our Lady of the Rosary Hall
3233 Cowper Street
Palo Alto, CA

Hosted by the Peninsula Interfaith Climate Action working group

Thirteen neighboring cities throughout San Mateo County have partnered to launch a solar group purchase (bulk-buy) program for homeowners.

Peninsula SunShares pools the power of individual participants to get more competitive pricing from solar companies - with an additional incentive that provides even better savings as more people contract for solar on their homes.

Research shows that people who know somebody with solar, make the choice to go solar themselves 3 times quicker. So, by bringing homeowners together through Peninsula SunShares, you can help Palo Alto and neighboring cities build a huge solar community - faster.

In the last two months more than 520 residents have signed-up for Peninsula SunShares with over 50 contracts in process. In fact, Palo Alto is leading the way with 45% of the total program participants. Nice work!

Here's how it works:

1. Community-sponsored. The program wants to make it easy for residents living throughout the Bay Area to see if their home is right for solar. Sign up by July 31st to schedule a no cost, no obligation site visit today.
2. Below market pricing. Get your discounted solar installation price quote from the programs pre-selected solar installers.
3. Limited time. Sign a contract by August 31st to have your new solar panels installed and save on your monthly electric bill for years to come.

For more information or to sign-up visit:
www.mygroupenergy.com/peninsula

Participating Partners:

San Mateo County and the cities of Belmont, Brisbane, Burlingame, Daly City, East Palo Alto, Foster City, Menlo Park, Millbrae, Palo Alto, Portola Valley, Redwood City and San Carlos
