

**Success on the Western Seaboard..**

**... and Sunrise on the East Coast**

## Manufacturing Professionals

HAZIRA (Surat)      KATTUPALLI (Chennai)

L&T set up a Modular Fabrication Facility 20 years ago at Hazira (near Surat). It is today one of the finest of its kind in South Asia, manufacturing giant oil platforms and allied equipment.

At Kattupalli (near Chennai), L&T is setting up a new Modular Fabrication Facility to augment its thrust in design, engineering and manufacture of mammoth oil platforms, drilling rigs, semi-submersibles and floating production units. These facilities cater to the Krishna-Godavari Basin oil & gas fields & Australasian markets.

### Head / Managers / Senior Engineers Manufacturing Offshore Structures

**Jackets & Decks** (Ref: JACKS)  
**Education:** BE, preferably with specialisation in Welding / Fabrication Technology and / or Manufacturing / Project Management. **Experience:** 5-25 years in offshore fabrication facilities or process modules fabrication facilities. Conversant with international codes like API, AWS, etc. for manufacturing offshore structures.

**Drilling Rigs & FPSOs** (Ref: FPSO)  
**Education:** BE, preferably with specialisation in Offshore Engineering / Naval Architecture / Electrical / Mechanical and/or PG qualifications. Additional qualifications in Project Management desirable. **Experience:** 5-25 years in construction of FPSOs / FPSs / production semi-submersibles in offshore yards/shipyards / EPC company in charge of production.

### Head - Welding & Metallurgy

(Ref: HEAD W&M)

**Education:** BE in Metallurgy / Welding. Preferred: PG degree with specialisation in Welding / Metallurgy from a reputed institute. **Experience:** 18-22 years in welding & metallurgy in oil & gas projects / heavy engineering fabrication & handling international clients.

### Managers/ Senior Engineers

**QA / QC, Welding & NDT** (Ref: QAQC)

**Education:** BE in Mechanical / Metallurgy / Welding. ASNT III / CWSIP 3.1 / 3.2 / NDT, an advantage. **Experience:** 8-12 years handling a QA/QC team in oil & gas / heavy engineering / power; preparing, administering & implementing project-specific QA/QC plans / procedures, NDE plans; painting and coating procedures in accordance with project quality plans, project specifications, applicable codes & standards.

### Managers/Sr. Engineers - Manufacturing

(Ref: MFG)

**Education:** BE, preferably in Mechanical / Production Engineering / Metallurgy. **Experience:** 5-15 years in offshore yards / plant construction / heavy engineering / power. Must be able to undertake manufacturing operations with highest safety standards.

### Managers / Sr. Engineers - Planning

(Ref: PLANNING)

**Education:** BE in any discipline. **Experience:** 5-15 years in heavy engineering or EPC companies dealing with oil & gas / power projects. Conversant with latest planning software like Primavera.

### Sr. Engineers - Production Engineering

(Ref: PRODENG)

**Education:** BE. **Experience:** 5-10 years in heavy engineering companies. Relevant experience in designing jigs, fixtures & production tooling for complex welding, fabrication & machinery processes.

### Sr. Engineers - Maintenance

(Ref: MAINT)

**Education:** BE, preferably in Mechanical / Electrical Engineering. **Experience:** 5-8 years handling maintenance of heavy equipment in heavy engineering / construction.

### FOR ALL POSITIONS

Must have a proven track record in institutionalising operational excellence to achieve highest degree of safety, product quality & reliability and cycle time / cost reduction.

E-mail your resume to [MFFCAREERS@LNTENC.COM](mailto:MFFCAREERS@LNTENC.COM) with relevant Ref. Code and location preferred as subject, e.g. 'MFG Hazira' or 'MFG Kattupalli'.
