

# MANDIRI BAHARI LINE

## Introduction

Complete Transportation Solution in the Shipping and Logistics Business in Asia

## OVERVIEW

**Meratus** is a leading Indonesian shipping company providing point-to-point transportation solutions. It has multi purpose and liner services with an integrated network of owned offices throughout Indonesia and places strong emphasis on safety, quality and customer focus.

Established in 1957 Meratus has grown and become a household name in Indonesian shipping. Currently Meratus is engaged in several sectors of shipping/ and transportation.

**Ship Owning and Ship Operating Services:** Provides full inter-island container services including a direct service from **Surabaya to Dili, East Timor**. Supported by fleet of over 30 vessels and 19,000 TEU containers. Meratus container liner services cover an extensive shipping service network between Indonesia's major ports. Meratus currently operates 20 container liner services.

## **Logistics Solution and Freight Forwarding Service.**

Covers both domestic and international shipments worldwide. It provides logistics consolidation and warehouse services for major Indonesian mining companies and project cargo handling for the oil and gas industry.

## **Coal Transport, Tug & Barge.**

Provides tugs & large barges and coal loaders to facilitate off-shore Panamax vessel loading operations.

## **Regional Multipurpose Liner Service.**

Provides project cargo transportation throughout the Far East, South East Asia and North-Western Australia, including Dampier, Port Hedland and Darwin.

**Box Operator/NVOCC.** Covers Intra-Asia international services.

**Agency.** Provides commercial and port agency in Indonesia ports, with a network of owned agency offices throughout Indonesia.

# THE ESTABLISHMENT OF MB LINE

**MBLine** has started a new era in comprehensive transportation solutions in the shipping and logistics fields in Asia.

As its strategic priority, MBLine has focused on providing complete transportation options for each and every client starting from port to port and producing a tailor made solution.

MBLine make it easy for its customers to see which options will fit their individual long term strategies.

**SERVICES** MBLine also extends a helping hand towards increasing the development and implementation of logistics plans that are in line with the client's marketing strategies, goods position and pricing policies. MBLine makes it easy for the client to see what type of transport options will be best for their long term strategy.

**INTEGRATED SERVICES** Currently MBLine is operating in 12 important cities in Indonesia and more than 25 key locations in Asia. The Company is steadily expanding to meet new requirements and new standards in the transportation industry.
