

RECALCITRANT URTICARIA: what to do when guidelines fail?

The global guidelines on urticaria are a marvelous document, but there are always exceptions: patients who do not fare well with the proposed therapies, new treatment options not yet covered by the GLs and when resources are a restriction to apply the GLs fully. This webinar addresses these three topics.

AGENDA

Introduction & Moderation 5'

Désirée Larenas-Linnemann

Approach to patients who fail conventional therapy 15'

Jorge Sanchez

Treatment option beyond guidelines 15'

David Khan

Management of urticaria in resource limited setting 15'

Kiran Godse

Questions and Answer 10'

Moderated by Prof. Dr. Désirée Larenas-Linnemann

FACULTY

Prof. Dr. Désirée Larenas-Linneman

*Center of Excellence in Asthma and Allergy Larenas S.C.
Hospital Médica Sur, Mexico City, Mexico*

Prof. Dr. Jorge Sanchez

*University of Antioquia, Medellín-Colombia
Posgrado Alergología Universidad de Antioquia, Antioquia, Colombia*

Prof. Dr. David Khan

The University of Texas Southwestern Medical Center, Dallas, Texas, USA

Prof. Dr. Kiran Godse

D Y Patil Hospital, Mumbai, India
