

## About You

- You're able to take criticism positively and learn from it
- You're great at working solo or as a team member
- You're able to work with clients and take their idea from conception to production
- You love solving user problems

## About Us - OnPrem and The Innovation and Development Center IDC

OnPrem Solution Partners is a consulting and technology firm that is helping Hollywood come into the digital age by automating their content management and content delivery from photo shoots to movie theaters and consumer facing sites like iTunes, Hulu and Netflix.

Our consultants are On Premise in LA and NYC with our development team in Austin, TX at the Innovation and Development Center (IDC). Our highly collaborative team fosters an agile environment with direct access to our clients and partners. We build greenfield software that is industry changing and provides enhancement to market leading applications and platforms.

## Job Summary

Our Innovation and Development Center here at OnPrem is growing and we're seeking an innovative and thoughtful Sr. Level Ux Designer to join us here in Austin. You'd work directly with cross-functional teams to identify and solve web and mobile usability shortcomings in a Lean-UX environment.

## Requirements

- 6+ years of working in User Experience Design
- Expert at creating wireframes, mockups, prototypes, storyboards, user flows, process flows and site maps to effectively communicate interaction and design ideas
- Ability to conceptualize original ideas that bring simplicity and user friendliness
- Artistry to articulate the behavior of the interface for a product/service/system clearly
- Demonstrate experience in conducting data and analyzing results
- Successful in recruiting test participants and conducting user case studies
- Know how to administer screen capturing
- Highly proficient in problem solving
- 50% Intuition and 50% Science
- Understand the values and the difference between native and responsive design
- Demonstrable Ux design skills with a strong portfolio and be able to explain your methodology

## **Preferred**

- Research new design and digital innovation trends to bring fresh ideas to the table
- Bachelor's degree in User Experience Design, Interaction Design, Psychology, Information Technology, Human–computer interaction or equivalent

## **Talk to a real person (How to Apply)**
