Simsi and MARCAN present:

Crime Prevention with Risk Terrain Modeling

June 1, 2022
8am – 12pm
KCPD Regional Police Academy
6885 NE Pleasant Valley Road; KC, MO
64119

Designed for analysts, command staff, rank-and-file officers, and city officials, participants will learn how Risk Terrain Modeling promotes:

Enhanced Spatial Awareness
Identify environmental conditions that lead to crime and other problems. Prioritize resources to places in need without the bias.

Improved Community Engagement
Share the "why" behind crime patterns with community members. Involve the community and stakeholders to address problems at the right places and times.

Safer Communities
Reduce and prevent crime by maximizing local resources and expertise while strengthening public relations.

Seating is limited so scan the QR code right away to register.
