Time: 10:00 CST

Registration: <https://www.txlean.com/event-4946010>

TXLEAN Members: Free!

Non-members: \$10

Crime Analysis In an Organized Crimes Investigation

This presentation is a combination of a case study, best practices, and investigative/analytical techniques as it relates to the crime analyst's role in an organized crimes investigation. An overview of the investigation will be given along with what tasks and products can be expected from the analyst, starting from the beginning of the investigation through the prosecution phase, and ultimately to sentencing. Tips and tricks on how to better organize a case and improve product creation will be provided. This presentation is intended for audiences of all skill levels.

Mindy Duong - Colorado State Department

Mindy is currently a Data Analyst IV for the State of Colorado, Division of Youth Services; prior to this, she worked as a Crime Analyst for the Metropolitan Auto Theft Task Force, representing the Lakewood (CO) Police Department, where she helped close multiple organized crimes cases. Mindy received her undergraduate degree in Criminal Justice from Cal State Fullerton along with a certificate in Crime and Intelligence Analysis, her graduate degree in Criminal Justice with an emphasis in Crime and Intelligence Analysis from Saint Joseph's University, and has over seven years of professional law enforcement analysis experience. Mindy is an active member of the IACA, volunteering on multiple committees, as well as the co-creator of the podcast show Analyst Talk with Jason Elder.

To apply for membership in TXLEAN go to <https://www.txlean.com/>. Membership is \$25 and also comes with a membership with the International Association of Crime Analysts (IACA) which is a \$25 savings.

Anyone interested in presenting in the TXLEAN webinar series is encouraged to submit requests and proposals for webinars to training@txlean.com as well as any questions they might have.
