

The Role

The company has a requirement for a number of intermediate level developers to join our team, based in the heart of Belfast. You'll be given the opportunity to work with the hottest web technologies, including Ruby on Rails, Java Script, JQuery, Backbone, and HTML 5. It's an opportunity to become an integral part of a highly qualified and progressive web development team that utilises agile development best practices such as Scrum, TDD, CI and push-button cloud deployment.

Applicants must display:

- 2 Years' experience in a web development role
- Experience in using Ruby on Rails (or similar server side scripting languages such as PHP or Python), and a desire to become an expert in developing on Ruby
- Experience of working in a fast moving and dynamic environment

Desired Skills and Experience:

- A degree in Computer Science, Maths or related topic
- A passion for eLearning and the ambition to shape the future of education
- A desire to work with a team to create the best eLearning platform in the market
- A desire to become part of a growing team

Package will include:

- Attractive Salary
- Flexible work environment including autonomy days and work from home options

The right person will be a self-starter who is eager to learn and grow. If you are looking for a role where you can have real impact, GoConqr may be the place for you.
