Dear All,

I have been sending request in separate mails.

-----  
Current mail is marked TO::

Indian High Commission, London; Ministry of HRD, Central Institute of Indian Languages, Rashtriya Sanskrit Sansthan & MSP, UGC, IGNOU, Rashtriya Sanskrit Vidyapeeth, Tirupati, National Skill Development Corporation

CC:

Members copied in current mail: Mail is for your information or further guidance for said cause.  
-----

Request following:

1. Introduce Sanskrit Examinations & Courses provided by Rashtriya Sanskrit Sansthan (RSS) & Mukta Swadhyay Peetham (MSP) & other institutes carrying out great work in Sanskrit through tie-ups with institutes in UK.
2. Course content for kids from their Year 1 / 1st Standard

Why:

A)  
Though, there are institutions which provide Sanskrit education in UK but the course content / research work carried out by RSS-MSP and institutes in India is very rich:  
Jyotish / Bhaskarbijganitam / Vyakarnam  
Courses in Yoga / Natyashastra etc  
Research work in varied fields like ::Ayurveda / Vaastu Shastra / Mimansa / Dharma Shastra

B)  
To promote Indian Languages, introduction of Sanskrit being the most Scientific and Computer language too; it can be introduced in School or taster sessions on particular days of week can be introduced.  
India's culture, science, philosophy, dance, health is linked through learning Sanskrit.

**In addition, to above I appreciate the SWAYAM app (not available in UK) initiative, Bharatvani link by Central Institute of Indian Languages**

Regards  
Smita Soni
