Lives with: Mother and Father - **Siblings:** Brother, 16

Languages: English

Father's Occupation: Office Worker - **Mother's Occupation:** House Wife

STUDENT LETTER

Dear my host family.

Hi, Im Kazuto. Im 17 years old. Im a Japanese high school student.

There are four people in my family. Father, Mother, Brother, and me. My father works at a company related to electrical equipment. He likes manga and anime. My mother works at a book company as a part-time worker. She also teaches yoga. My brother attends the same school as me. I really like my family. They always encourage me when I try new things. I often talk to them about my school day. On weekends, I sometimes go shopping or watch movies with them. My parents are sometimes strict, however, I really appreciate them for being caring about me.

I like listening to music and reading books. I usually listen to Japanese pops, Rock, and American pops. I like playing the guitar and the piano. Im in my schools chorus club. I practice singing almost every day. Its sometimes hard, but I really like singing with my friends.

During break time at school, I often enjoy talking with my friends. Sometimes I read books or study for the next class. On weekends, I sometimes go shopping or sing karaoke with my friends. All of my friends are very nice, so I really like them. I want to keep in touch periodically with them and share my wonderful experience during my exchange year in America.

I like English, world history, and biology. I like English the best. Im good at reading and listening rather than speaking and writing in English. I really like communicating in English. I think learning foreign languages is exciting. During my
