

Course for qualification of divers as

„Scientific Diver“

or "Advanced Scientific Diver" at the Scientific Diving Center of the TU Bergakademie Freiberg.

Date: 26.06. - 03.07.2022 theory and practice

Location: TU Bergakademie Freiberg, Germany

Excursion: 27.08. - 10.09.2022 (Sveta Marina, Croatia)

Modul I

The course is separated in lectures in the morning and practical pool training in the afternoon. Topics of the lectures can be adapted to the participants and will be e.g. oceanology, geoscience, hydrothermal systems, submarine volcanism, measuring equipment, photo and video documentation. At the beginning and at the end of the course a two days dive camp with practical training in freshwater lakes takes place.

Modul II

The excursion will be a two weeks research project in the marine environment around the peninsula Sveta Marina in Croatia. During the field trip the participants work on a scientific topic. Different working groups offer many topics in the field of e.g. geology, gas and water chemistry, microbiology, engineering, heat and material transport or photo and video documentation. Own Ideas and topics from the participants are very welcome.

Furthermore, there is the possibility for qualification as "Scientific Diving Instructor" or "Citizen Science Diver". To get more information's about the course and the content you can write an e-mail to Thomas.grab@sdc.tu-freiberg.de or call +493731393004, contact person is Dr. Thomas Grab. The contents of the training as well as the final scientific topic can be adapted to the participants.

Deadline for registration is 31.05.2022
