

————— National Day of Action: April 11th —————

DEMAND AN END TO ALL WARS & OCCUPATIONS

————— Students for a Democratic Society —————

An Afghan child born in the last 11 years will have lived his or her entire life under the thumb of U.S. imperialism. Generations of Palestinians have been forced to survive under the oppression of the U.S.-backed Israeli occupation. Iraqis still feel the horror of invasion and occupation, even as America knocks on Iran's door with the butt of a rifle.

There seems to be no corner of the globe that the United States won't invade and subdue in order to gain some small profit or strategic benefit. These incursions are made in the name of humanitarianism, as was the case in Libya. The same language of "humanitarian aid" is being used in the cases of Syria and Iran, even as it becomes more and more obvious that every place the U.S. military enters is left with nothing but death and crisis.

The reality is that untold numbers of civilians have been bombed, shot, raided, or removed from their homes and land by U.S. drones and soldiers. Furthermore, sanctions against sovereign nations like Iran and Syria have wreaked havoc on innocent civilian populations, disrupting the availability of necessities like food and medicine. Billions of dollars are wasted each year on both economic warfare and military intervention.

Students for a Democratic Society calls on all chapters, affiliates, anti-war organizations, and sympathetic people or groups to condemn this ongoing and unjustifiable violence. Now is the time to oppose ongoing US/NATO occupations and the steady march toward interventions in Iran and Syria. Now is the time to show all peoples of the world that you stand with them.

Join us this April 11 for a national day of action. Reach out to your communities and organize a protest, a demonstration, a sit in, a teach in or any other action that will carry the message that we must end U.S.-sponsored violence.

Stand with the the oppressed and occupied peoples of the world and demand:

- *Immediate withdrawal of troops from foreign soil*
- *End sanctions against Syria and Iran as well as the constant threats of war*
- *End murderous drone strikes and crippling sanctions*
- *End the war agenda of both political parties*
