# Get Ready for the New Safari Extensions Gallery

---

As a creator of Safari Extensions, you've helped enrich the browsing experience for Safari users by taking advantage of development resources through the Safari Developer Program. This program is now part of the new Apple Developer Program, which combines everything you need to develop, distribute, and manage your apps on all Apple platforms.

Your existing Safari Developer Program membership will remain active until July 8, 2015 and your Safari extensions will continue to work for existing users. Your extensions will also remain available for download on the existing Safari Extensions Gallery.

In early fall, the new Safari Extensions Gallery for OS X El Capitan will go live. This gallery will be the safest and most reliable place for users to download Safari Extensions, as all

extensions will be signed and hosted by Apple to ensure that they are safe to install. All updates to your existing extensions must be submitted to the new gallery. To have your extensions reviewed by Apple for the new gallery:

- [Join the Apple Developer Program.](#)
- [Read the Safari Extensions Gallery Guidelines.](#)
- [Resubmit your extensions for review.](#)

If you have any questions, please [contact us](#).
