HEARING ASSESSMENT CENTER, LLC

Putting Innovative Technology into Action

PAID: Part-Time Videographer and Editor

Hearing Assessment Center, LLC is seeking a part-time videographer and editor to join our team. We are a growing audiology business in the Baltimore area. As we continue to expand our practice, we are now focusing on creating educational audio and visual content. This will be a great opportunity for a student who is proficient in editing, filming, as well as learning more about a growing business. The finished content will make an excellent addition to your portfolio.

Applicants will be required to create, publish and participate in the video production and editing. The applicant must be comfortable uploading content to various social media platforms. Video equipment will be provided; however, the student will be expected to have the necessary editing software and/or equipment in order to produce professional and quality content. Just as our team has the willingness to learn and are dependable, we require students with the same vision. Applicants must be located within the Baltimore area and have reliable transportation to and from our Lutherville office. Additionally, must be able to work flexible schedules/hours (4-8 hours weekly). The position will be compensated based upon time and the number of videos completed.

Qualified candidates should contact Danielle Yurjevich at dyurjevich@hearingassessment.com
