

City of Portland
Pedestrian Advisory Committee

AGENDA

December 19, 2017

6:00 – 8:00 PM

City Hall, Pettygrove Room

6:00-6:30: Introductions/Announcements/Hot Topics

- 2018 PAC member/alternate appointments
- Recognition of retiring members
- A message from Michelle
- Additional announcements/hot topics

6:30-7:15: Capitol Highway (*Steve Szigethy, PBOT Project Manager*)

As a follow up to his visit to the PAC in October 2016, Steve will return to present the 30% plans for Capitol Highway. The project will provide sidewalks and bicycle facilities between SW Garden Home Rd. and SW Taylors Ferry. Steve will solicit feedback from the PAC on the designs, including the interaction of people walking, biking and waiting for transit on the proposed facilities.

7:15-8:00: PedPDX Vision, Goals, and Objectives (*Francesca Patricolo, PedPDX Deputy Project Manager*)

The PedPDX Citywide Pedestrian Plan vision, goals, and objectives will guide all subsequent content of the Plan. Specifically, they will provide a critical foundation for the Plan's pedestrian network needs analysis, prioritization criteria, implementing strategies and actions (the "toolbox"), and performance measures. The vision will describe the desired future outcome of the Plan, and will communicate what the community intends to achieve with PedPDX. The goals and objectives will map out the path for how we will achieve the vision.

Francesca will lead an exercise with the PAC to help craft a vision and goals and objectives for PedPDX. This exercise was also conducted with the PedPDX Community Advisory Committee and Technical Advisory Committee. Input from the three committees will be assimilated into a draft PedPDX vision, goals, and objectives for public review.
