- [Overall Ceres Plans Pad](#)

1st Ceres Plan

Created by the Unity Network
Compiled by Jay Blas Jacob Cabrera
(Fluent Liberal English Version)

[31°w23'e – 18w151e] [Ra'l1437 - Sha1439] [Jan2016 - Apr2018] [Ele4713 - Thr4716] [Tev5776 - Lyy5778]

Unity in society does not come from conformity. Unity only comes from granting equality and validity to the infinite diversity of all individuals. This planet, solar system, galaxy, and universe are infinitely diverse. Every being has their own way of exploring the idea of infinite creation, and every way is equally valid. A society is strongest when it is most unified by actively engaging the unique and free expression of each individual unconditionally. ‡

Introduction

The Unity Network is a glocal network that runs based on natural cycles to synchronize globally. Our sessions, as well as the Plans that come out of them are open to anyone, any organization, and any idea. Anyone can input any idea, and we collectively prioritize them, with the help of the public. Based on the priorities, this guides our goals and outcomes within the network.

Our foundational methodologies are based on interactive democratic systems, and utilizing the science and implementation of fractal mathematics into social systems to create balance and harmony within our society. For more extensive information about the Unity Network, and the best place to get started is our website: <http://UnityNet.info>, and also our htmlpad: <http://wc.tc/UnityNet> We use natural cycles because they create easily recognizable patterns that are completely neutral to all people on the planet, as opposed to the Gregorian calendar where someone is always going to be asleep vs. awake depending on the time of day. The Ceres Cycle is one of many cycles we use. (?Link to Calendar?)

The Ceres Plan is one component of [The Comprehensive Plan](#) which include ALL ideas and projects for all time, whereas the Ceres Plan depicts the priorities and goals for the next two years until the next Ceres session in April 2018. Therefore the goal of this plan is to look out towards a more long term perspective.

For the 1st Ceres Plan, the CommUnity Network is still in Pre-Launch, and does not have the resources to fully develop this plan, but our resources are growing. This Plan is still very preliminary, and most likely will not be complete for what we would like, but it certainly gets the general idea and scope of what we would like to accomplish between now and the next Ceres Session, and how we would like future plans to evolve.

The purpose of Unity Planning, and creating Plans in general, is to help us document and collectively create our vision of where we want to be by the end of Plan. Our Plans are a blueprint for our action, and help build clarity of the reality we are collectively creating. We do not have to follow the Plan, and the Plan doesn't need to match what we do, or if we choose we can change the plan, however we want, as we go along, that is ok as well. Our Plans are simply a guide to help us to collectively follow our journey together.

Currently we are almost exclusively functioning in English, but eventually every Plan will have its own version in many languages as we build our resources. Anyone is welcome to edit this document, primarily to add ideas, there is a brainstorm section at the bottom, and also you are welcome to translate it into any language and start collaborating in that language as well.

The Unity Network and all of the goals that we are setting out to accomplish require resources. In other words, what we put into seeing our world be balanced and supportive of individuals and communities, is what we get back in the way of seeing it manifest as we intend. Please support transformative organizations and consider helping the Unity Network by signing up for voting, supporting our projects with volunteer hours, or giving a generous donation. We take all forms of in-kind donations as well as any type of currency or metal. <http://wc.tc/Donate>

Overall Priorities

These Overall Priorities are currently just a brainstorm, but they will be prioritised through direct democracy and participation in the [Community Elections](#) Systems.

You can Vote to Prioritize our list of Projects & Ideas within the Ceres Elections:

- [Click here for Round 2 Vote](#)
- [Click here for Round 1 Vote](#)

Here are the Top Priorities from the 2nd Round of Voting. [For the Full Top 10 List Click Here.](#) We look at priorities both by total number of Points, as well as %, because our goal is to strive towards consensus, therefore programs with high % support are also very important.

Top Community Network Priorities:

- %: [Unity / Rights for All / Movement of Movements](#) - 86.7% - 26 points
- Points: [Basic Life Necessities / Opportunity for Advancement](#) - 80% - 32 points

Top CommUnity Network Priorities:

- [Project Ambassador](#) - 83.33% - 25 points

Top Unity Network Priorities:

- [Unity Day](#) - 80% - 24 points

Top Internal Network Priorities:

- [Fundraising](#) - 80% - 24 points
- [Recruitment](#) - 80% - 24 points

Vision/Goals

Over the next two years, it is time to go big and really ground the vision of the Community Network in place. This includes getting mass people involved in direct democracy by voting and helping prioritize all ideas that are inputted. Additionally we must increase and strengthen our resources through in-kind and monetary donations, as well as build a solid volunteer core that can establish well planned and coordinated global conference calls with many participants.

By 2018 we should have the Parallel Governance Systems set up with a fully functional United States People's Parallel Congress, as well as a Parallel Global Assembly, Congress and Parliament. Our hope is to have as many as 500-1000 official representatives by that time, who are voting regularly on digital proposals.

--

Communications will be one of our major transformations over the next two years. We intend to have huge internal automated email communications systems to be able to handle our 100,000's of emails easily and smoothly to create much better on-going email communications. This will include new servers that can handle higher volumes of email as well as better email list systems, and hopefully budgets to allow for the purchase of both desktop and web applications to coordinate email communications. We also intended to greatly expand our online social media communications, especially through outreach and networking with our new Community Social Media Alliance (CSMA) which will help many different networks ensure we are sharing each other's social media outreach.

--

In-between Ceres sessions, one of our primary goals is to increase the public interactivity of the Unity Network. This will allow many more people can be involved. We also will be increasing our fundraising efforts, both online, as well as field fundraising. As our resources increase, we will be able to increase the amount of public interactivity and outreach we do.

Our goal is that by the next Ceres Session, we will have our basic budgets, and well as a core volunteer and worker communication systems active for efficient scheduling. Although we may not have the resources we need to launch, hopefully we will be better using our existing resources to increase our fundraising efforts.

Additionally our vision includes having full LIFE Support systems set up and active for all of our primary levels, especially for individuals. This also needs to include our core empowerment and education activities, as well as uniciency and scientific discoveries. Within one year, we should be immersed within our natural sync systems, not only for our solar systems, but the entire galaxy calendar systems. Our planning and engagements systems should meet the basic needs

for allowing for Conscious Field Theory to be applied to individual applications across the spectrum of worldviews, cultures, and strategic systems. We will be fully engaged in working with discoverers and scientists across the world to be supporting each other to find answers to the deepest questions of consciousness and reality, as well as solving the largest problems of our society.

We will see our local and global communities, actively engaged in applying solutions to our most pressing problems, and we will have engaged in the basic foundational set up for our new integrative people's governance systems, as well as laying a new foundation for the thriving and sustainability movements to catalyze a new expanse of action at all levels to once and for all initiate what is needed for natural balanced. Although this process will just be starting, it is essential to have a unified and clear vision to what we will accomplish as a community, and show that with new integrated economic systems, as well as applying basic principles of fractal science to our political systems, we will easily be able to greatly expand the current limited manifestations of collectively solving problems.

As long as people believe that we have inside of us the capability working together to implement clear tangible solutions of enabling each individual to have equal access to their basic life necessities and opportunities for advancement, we shouldn't have a problem in actively and continually applying the methodology and principles of unity to help all people across the world. Although we may not have implemented it yet, by the next Mars Session we should have already documented and clearly laid out our vision for equal pay systems, increased and guaranteed minimum wages and incomes, as well as clear systems of expanded efficient production and use of food and goods to allow the maximum number of people to be in a more balanced state with the planet and society.

Assets & Resources

We have many categories of Assets and resources for our Network. The Core Admin assets are quite small and that is where our primary fundraising goals focus. Our overall network has many more assets and resources though, and our goal is to be able to have our core admin systems be large enough to support our already existing projects and programs that are part of our overall Network.

The reason it is very important to go over our assets and resources is because without knowing what we already have, it is very difficult to plan based on our existing ability to spend funds an resources. We want to start from where we are, and grow.

Individual Entities included:

- Integrated:
 - Jelo/Heeo Joint Venture
 - Innovate United LLC
 - Community LIFE Network Incorporated
 - Everything Network Incorporated
 - Governance Evolution Project PAC
 - UIS/LittleBoxes Partnership
- Sponsored
 - B.J.C Sole Prop
- Influenced:
 - Jay Blas Jacob Cabrera
 - Worldplay Ventures
- ...

Types of Assets & Resources:

- Notable Liabilities
- US\$ Cash Funds
- Semi-Liquid Currencies/Goods/Equipment
- Non-Liquid Goods/Equipment & Other Collections
- Accounts Receivable
- Possible Future Expectations
- Products
- Websites & Internet Presence
- Intellectual Property
- Internal Subsidiaries
- External Stocks & Equity

- External Collaborations
- Clients/Members/Donors
- Contacts
- Advisors
- Workers
- ...

Summary of Assets:

Notable Liabilities:

- -\$10,000 2012 Honda Payments
- -\$2,000 Credit Back Payments
- -\$600 Current Credit Payments

Current Cash Funds:

- Core: ~\$2,000
- Admin: ~\$2,000
- Unity Projects: ~\$500
- Internal Network: ~\$3,000
- Network Sponsored: ~\$7,000
- External Support: ~\$200
- External Supervised: ~\$3,000
- External Influences: ~\$3,000
- Grand Total:
 - ~\$21,864

■ [Click Here for a More Detailed Look at our Finances](#)

Semi-Liquid Currencies/Goods/Equipment

- Euros: ~\$300 value
- Bitcoin: ~\$0 value
- Metals: ~\$50 value
- Other Foreign Currencies: ~\$10 value
- Electronics: ~\$400 value
- Cars: ~\$10,000 value

Non-Liquid Goods/Equipment & Other Collections

- Used Goods (Snowboard & Clothes): \$75

- Cards: ~\$50
- Stamps: ~\$30
- Other Collectables: ~\$10

Etimated Totals:

- Assets: ~\$34,525
- Liabilities: ~\$12,600
- **Overall : ~\$21,925**

- External Collaborations
 - 10-15 different Organization
 - Social Networks of over 250,000+ likes and followers
 - 100's of accounts
- Clients/Members/Donors
 - 1-5 people
 - Potential or past donors/clients: 10-20
 - Grants coming into our Projects: 3-5 Grant Foundations
- Contacts
 - Actual people we are actively communicating with: 250-500 people
 - 10,000 good emails for interested people
 - 100,000 emails, most are old or broken
 - Social Media: 25,000+ likes etc...
 - Over 10-20 social media accounts
 - Occupy California: 8,500 likes
- Advisors
 - Advisor Network: 20+ people
 - Active Advisors ~5 people
- Workers
 - Active Workers: No more than 5-10 in Core Team
 - Goal to Grow our Global Team to Solid 10 people.
 - Volunteers & Paid Staff
 - Sponsored Projects:
 - 25 people who are collaborating together on various Projects and /or Companies

There is a lot more assets and resources that we have to note here.

Budgets

We have many categories of Assets and resources for our Network. The Core Admin assets are quite small and that is where our primary fundraising goals are.

Core Admin Budget: ~\$8,000

- Core Budget: ~\$4,000
 - Sessions:
 - Async Sessions: ~\$2,000
 - [Link to Async Budget Breakdown](#)
 - Ceres Example: ~\$450
 - Async Preparation: ~\$100
 - During Async: \$150
 - Async Followup: \$50
 - Plus \$150 for Fundraising
 - Natural Real-Time Sessions: \$500
 - 10 per month
 - \$4-\$7 per session 30min - 1hour
 - Gregorian Real-Time Sessions: \$500
 - Async Fundraising Support: ~\$1,000
- Admin Budget: ~\$2,500
 - Personnel:
 - Worker Coordination: \$250
 - Volunteer Coordination: \$500
 - Tracking & Finances: \$500
 - Communications Support: \$500
 - Fundraising Support: \$250
 - People's Governance: \$250
 - Unity Day: \$250
- Business Costs/Taxes: \$1,000
- Worldplayers CommUnity Project Area Elections: \$555

Projects & Ideas

For this Plan, we are simply going to list the different Projects & Ideas, and have links for more information. In future Plans, we hope to give more details and information about them so you know what you are clicking on.

Outcomes from Ceres Election:

Below are the Top 10 outcomes both by points & by % support. For us % support is very important as our goal is to strive towards consensus. But points are also important cause it can register more people getting involved in a specific issue. Also you can see just the [Overall Priorities by clicking here.](#)

Points:

Basic Life Necessities / Poverty & Affluence / Opportunity for Advancement	32
Community Politics & Grassroots (United States & Other Elections)	31
Education / Schools / Youth & Students	30
Love Action Network	29
Anti-nuclear / Nuclear Proliferation	28
Global Justice / Anti-Globalization	28
Unity / Rights for All / Movement of Movements	26
Project Ambassador	25
Human Union	25
Emergency Relief / Natural Disasters	25
Environment / Climate Change	25
Umbrella Truth Movement	25

%- Percentage Vote:

Unity / Rights for All / Movement of Movements	86.67%
Project Ambassador	83.33%
Umbrella Truth Movement	83.33%
Basic Life Necessities / Poverty & Affluence / Opportunity for Advancement	80.00%
Unity Day	80.00%
Unity Fundraising	80.00%
Recruitment	80.00%
Real Democracy Now / Take The Streets / Revolution . . .	80.00%
Peace	80.00%
Community Politics & Grassroots (United States & Other Elections)	77.50%

[Click here To view the entire list of priorities from Round 2 of Voting](#)

\$ votes:

- Berkeley Poetry Slam
- [JayCan](#)

Total \$:

- Digital Storytellers
- SPARC Poetry

Workers/Volunteers

- [Unity Network](#)
- Berkeley Poetry Slam

We currently have not done our typical multi-vote calculations because we do not have the resources to support that work at this time, but eventually we will be conducting multi-vote calculation that interconnect all forms of voting. People can still vote in the Ceres election, but it will no longer count towards prioritizing within the Ceres Plan.

Event & Activity Timeline

Over the Course of the next 2 years, we do not have a lot of planned Events or Specific Activities that we Know are going to happen, but we can list some of our More important Sessions and known activities here, and overtime as we get more resources we can expand our public presence with events and activities.

2016:

- October 8th: Unity Day Launch Press Conference - 2nd Saturday of October - Primary

2017:

- Feb 18th: Jupiter Session & Elections
- October 14th: [1st Annual Unity Day](#) - 2nd Saturday of October

2018:

- April 17th: Saturn Session & Elections

Planning

The purpose of Unity Planning is not to force ourselves down a specific plan, but instead to have a guide and backdrop to help us down our various paths. Just cause it isn't in the Plan, doesn't mean we can't do it, and just because something is in the Plan doesn't mean we have to do it. But without a plan we have no map to guide us on our way, so it is important that we prioritize planning to help build a clear step by step path to reach our goals. We are going to look at internal plans, which are plans that start and stop before the next Ceres Session on 19th April 2018 18:44p 6:44p UTC

List of Internal Plans:

- Priority Plans:
 - Primary (1)

- 2nd Primary Plan
 - October 16th, 2016 4:23a UTC [East AustrAsia Sextant-L3]
 - About October 17th, 2017
 - Mars (1)
 - 3rd Mars Plan
 - 29th, Oct, 2016 11:11p UTC 23:11 [Central Pacific Sextant-L4]
 - 7th Oct, 2017
 - Earth (3 plans) (~180 days)
 - Jan 3rd, 2016 at 12:59am UTC [Pacific Triad-L1]
 - July 4th, 2016 at 15:59 UTC 3:59pm [EurAfrica Quadrant-L2]
 - 4th Jan 2017 at 10:59am
 - 4th July 2017 at 12:59am UTC
 - Secondary (3)
 - 18th April, 2016 18:04 UTC 6:04p [Central Atlantic Sextant-L3]
 - October 16th, 2016 4:23a UTC [East AustrAsia Sextant-L3]
 - Secondary Session: About 16th April, 2017
 - About October 17th, 2017
- Other Plans:
 - Venus Plans (5+)
 - Seasonal Plans (7+)
 - Tertiary Plans (7+)
 - Eclipse Plans (10+)
 - Mercury Plans (18+)
 - Selene Plans (27+)

What Plans is the 1st Ceres Plan a Part of?

- [The Comprehensive Plan](#) (of Course)
- What Plans would the 2nd Mars Plan have been a part of if we had created them?
 - Pre Uranus Plan?

Other Plans that Overlap with the 1st Ceres Plan (not part of, or within)

- 1st Jupiter Plan
- 1st Saturn Plan
- 2nd Mars Plan
- ...

General Brainstorm & Other Ideas

- Should combine first and second rounds of voting??? it is kind of confusing though. Need to make sure the voting is done with a 0 on it always regardless of a 5 or 9.
- Need to go through a typical Business Plan and make sure we have all necessary sections, including a Fundraising Plan, or Financial Stability Plan which would include both a Fundraising & other future financial details.
- Overall Unity Plan
- Template Plan(s) - still best just to use the Mars Plan as the template for now
- Conscious Field Theory - connect equation to M Theory :)
- Galactic Calendars
- Unity Intro Q&A Sessions Plan
- Definitely prioritize the Galactic Calendar!!!
- **23°E₁₁ Lunar Year Mini Wall Calendar**
- Frequency & Pattern Technology is the Future BWL - Brain Wave Language Needs a Company that owns it.
- Need to Create Better communications systems, email lists, auto messaging etc.. for Existing Groups including Pacific Half and New World Sessions.
- Update Unity Network Introduction Video
- Create and Active lots more Auto Repeat Messages
- Prioritize FORMAP for a balanced 20% each - Blasts/Everyone, Networks, Organizations, Groups, & Individuals
- Set Up Google+ and YouTube for all Sessions
 - For Now Just Use Primary Planetary Session YouTube
- Update and Add ALL Main Website Calendars in ALL Time Zones
- Update and compile ALL Methodology & UniGeine Policies
- 2nd Umbrella Fundraising Campaign.
- Under Planning & Our Fundraising Plan Add list of resources we need including \$\$ and products like computers etc...
- Project Ambassador
- Integrate existing Movement - Black Matters, Truth, Sustainability, other Ovmeting, Active within Community Elections our our Plans
- Create Unity Flag dynamics from Month to Month - And you can see the evolution of the Flag over time.
- Image based Unity Elections System - Audio, Image, Video,

- FORMAP Plan for clear steps and vision for all types of Online and Social Media Outreach. Keep everything step by step for Unity Network especially.
 - Worldplayers/Ben Support & Involvement - Have a clear checklist of what they can do per account. Maybe Start with Unity Theory account. Also make sure that their plan is completely interlaced with the full Unity Plan. Or just pick and choose what does interconnect. Remember there is a difference in Strategy. Interconnect RAMO as well - very important.
 - Need to Do Field Fundraising as well as amp up the Recruitment activities
 - FORMAP - Field Fundraising - All services & Products -
 - Everything B&W, except stickers and flags.
 - Focus Recruitment on individuals
 - The foundation of FORMAP is individuals
 - Wellness & DIY LIFE Health Books - We can all live longer
 - Unicience
 - Unitality
 - Change Purpose to Challenge instead of problems
 - Sustainability Network evolution with universities and cities alike. . . Thrivability
 - Yaysay Sponsored Organization Policies Finalization
 - Sub-Idea: An Entirely A-synchronous Unity Network - wow, uff - All of the training, communications, decision making, everything would be Asynchronous. Consider Cutting all sessions that aren't Async Sessions. Everything else is just work sessions. Add in Mercury & New Moon/Full Moon Sessions to be Async.
-
