

Android Users Needed to test Free-Speech Messaging App!

Problem: What can citizens in oppressive regimes do when the government shuts down the Internet?

Solution: Rangzen (freedom in Tibetan) is an open-source anonymous peer-to-peer messaging app allowing communications even when no internet connection is available

Promote freedom of speech and receive a \$25 Amazon Gift-Card for only 30 minutes of your time. Plus, the first 50 to register also get a chance to win a brand new iPad Mini or Nexus 9!
