

## **Come to the Puerto Rico Space Conference**

**October 24<sup>th</sup> to October 27<sup>th</sup>**

Are you interested in Space Exploration? This event will feed your desire for information on how and who people are learning about the vast universe around us. Presented by the National Space Society Puerto Rico working in partnership with other organizations to provide a well rounded experience to all those who participate in the conference. It will offer the chance not only to meet people seriously involved in space exploration and development but to meet ordinary people with a keen interest in space exploration and development. Just as much fun as a science fiction convention but based on fact for people with serious interests.

### Why Puerto Rico

Puerto Rico is already a world leader in Radio Astronomy with the Arecibo Observatory and a visit of this location including the massive radio telescope will be a major part of the conference. On top of that Puerto Rico is a very enjoyable location to visit for many other reasons apart from a space conference and the atmosphere will be both physically and socially very appealing.

### **Prominent International Speakers Converge on Puerto Rico!**

Speakers include:

**Cosmonaut Yuriy V Usachev** - Hero of the Russian Federation - 670 days in space

A world renowned space traveller who has had a long and productive career working for Russian space corporations including Energia and serving with international missions on the Mir Space Station alongside US astronauts and more recently on the International Space Station.

**Sy Liebergot - Apollo EECOM** - former NASA Mission Control

One of the Saviors of the Apollo 13 crew and served on all of the Apollo missions including Apollo-Soyuz and then all of the Skylab missions. Helped design the Astronaut Neutral Buoyancy Chambers and still has a very active career participating in and promoting all of the NASA programs.

**Joe Haldeman** - Acclaimed Science Fiction Author

A hard science fiction author of two dozen novels read worldwide in many languages and winner of many writers awards. His books include The Forever War, the Forever Peace, Marsbound, The Accidental Time Machine, Old Twentieth and Starbound.

**Dr. Michael P. Simpson** - President of the International Space University

President of the International Space University, the foremost world institution for third level space science and space management education.

These are just a few of the many prominent visitors that will be coming to the conference and the list is growing, Others include **Professor Louis Crane** - Kansas State University, **Rick Sanford** - SpaceGroundAmalgam, LLC - Odyssey Moon Google Lunar Xprize Team, **Shawna Pandya** - Co-Founder & Chief Medical Officer - CiviGuard Technologies, **Michael Laine** - Liftport Group - Space Elevators, **Anthony Matthews** - Space Program and Project Manager, Corporate Writer, **Charles Radley** - CEO Stratowave Corp - Space Based Solar Power, **Royce Jones** - Space solar power – thermal Co-managing Partner - Exploration Partners, LLC, **Michael Potter** - Orphans of Apollo, **Melanie Berg** - Company MEI Technologies - NASA Goddard Space Flight Center Contractor, **Dr. Verne Wheelwright** - Personal Futures Network.

There will be space merchandise and art auctions including collectable memorabilia of the space program up to now.
